PMBOK
Managing project quality
Staff management
Technical report writing
Project integration management

PERSONAL SUMMARY

A bright, talented and ambitious Structural engineer projects engineer and projects manager who has a Civil Engineering diploma, Structural Engineering degree, master's degree in business administration (MBA) and registered as Professional Engineering Technologist through (ECOSA). Jonas has a long track record of ensuring projects are delivered to the highest quality, within budget by effectively organising, managing and utilising all resources. He can lead teams on conceptual design, detailed design, procurement and construction phases of the projects where highest standards are routinely demanded. Always wanting to be actively involved in all aspects of the project life cycle. He takes direction well and works hard to manage stakeholder expectation.
