CAREER SUMMARY

Motivated and Energetic Mechanical Engineer with multitasking capability and hands-on internship experience at Pakistan Aeronautical Complex (PAC) Kamra, Attock and Oil and Gas Development Company Limited (OGDCL). Proficient in AUTOCAD, MS OFFICE, SOLIDWORKS, ANSYS, and engineering analysis tools for thermal and fluid mechanics projects. Skilled in leadership, multitasking, and communication in English, Urdu, and Sindhi. Passionate about innovation, sustainability, and continuous professional growth in engineering. I want to optimize sustainability and growth of Engineering Industries by taking challenging roles.

ACADEMIC QUALIFICATION

Academic Degree	Name & Address of Institution	Subject/Field of study	From	To
Bachelor of Engineering (BE) 1 ST Division (74%)	Mehran University of Engineering And Technology Jamshoro	Mechanical Engineering	2020	2024
Title of Bachelor's Thesis	“Transient Thermal Analysis Of Steam Turbine Blade Using Different Materials On ANSYS Software”			

EXPERIENCE

Throughout my undergraduate studies, I gained hands-on experience in mechanical engineering through various mini-projects, workshop practices and internships. I developed strong skills in thermodynamics, aerodynamics, and fluid mechanics, and honed my problem-solving, analytical thinking, and teamwork abilities.

Mini Projects and Hand-on Experience in Mechanical Workshop

Mini Projects/Lab Projects		
2D & 3D Design Projects	Mini Air Compressor	Analysis of different fuels On Ricardo Wave Software
Mini Centrifugal Pump	Solar Based Water Cleaner	Made Spur Gear on Milling Machine
Hand-on Practice on Following Mechanical Workshops		
Machine Shop	Welding Shop	Fitting Shop
Wood Shop	Forging Shop	Foundry Shop

Internship Experience		
	Internee Engineer	Oil And Gas Development Company Limited (OGDCL)
	(22-May 2024 – 5-Jul 2024)	
During this internship, I gained following invaluable experience: • Collaborated with operation engineers to gain insight into company operation • Rotated through various departments, including Maintenance, Corrosion, Operations, and Chemical Laboratory • Acquired hands-on experience in: ○ Laboratory testing and analysis ○ Oil well operations and maintenance ○ Tank inspection and maintenance procedures ○ Equipment operation and maintenance • Developed knowledge of work order management, store requirements, and inspection protocols		
	Internee Engineer	Pakistan Aeronautical Complex (PAC), Kamra
	(25-Dec 2023 – 10-Jan 2024)	
During this internship, I gained following invaluable experience: • Completed a 2-week internship program, gaining in-depth knowledge of technical shops at the Mirage Rebuild Factory • Explored various technical shops, including:		
Landing Gear Shop	Hydraulic Shop	Servo Shop
Mechanical Shop	CNC Hydroforming	Fuselage Repair Shop
Wing Repair and Fabrication	Welding Shop	Machine Shop
Electroplating	Quality Engine Wing	Precision Measuring Equipment Laboratory

SKILLS			
	Technical Skills		
CAD Design	SOLIDWORKS 3D		AUTOCAD 2D
Simulation software	ANSYS		Ricardo Wave
Engineering tools	EES (Engineering Equation Solver)		
Microsoft Office	MS WORD	MS POWERPOINT	MS EXCEL
	Language Proficiency		
ENGLISH		URDU	SINDHI
	Soft Skills		
Stress Management	Leadership	Analytical Thinking	Multitasking

Extra-Curricular Activities

Social Organizations And Student Bodies

- Mechelect Society Member, (Jan 2022 to Dec 2023).
- Member of Event Organization committee at the Interdepartmental Cricket Tournament. (Nov-2024)
- Member of IMechE, MUET Chapter, (Jan 2022 to Nov 2024)

Social Events

Organized

- Inter Departmental Cricket Tournament'24

Volunteer Work

1) *Community Service Based*

- The Big Event'22
- Flood Relief Camp MUET

2) *ADDITIONAL*

- MUETGALA'22 Participant, January 2022
- MUET Sports Week 2024 participant, November 2024

Hobbies

Solve Engineering Problems	Seeking & Availing Opportunities
Reading Books	Cooking Food
Playing Games	Watching Movies
