Location: Riyadh, Saudi Arabia

OBJECTIVE

Highly accomplished and results-driven Engineer with good AutoCAD proficiency with a proven track record in project planning and coordination, structural drawing analysis, site inspection, and quality control. Renowned for leading construction teams with precision, ensuring stringent safety compliance, and fostering strong client relationships to consistently deliver projects on time and within budget. Eager to secure a challenging role as a AutoCAD designer to apply my advanced expertise in construction management, problem-solving, and stakeholder engagement for the successful completion of multi-storey residential and commercial projects. Distinguished for innovative design development and exceptional communication skills with all project stakeholders.

EXPERIENCE

Site Engineer

Jeyem Associates

- Project Coordination: Oversaw daily construction activities to ensure projects adhered to timelines and budget constraints.
- Drawing Interpretation: Analyzed architectural and structural plans to guide construction teams and ensure precision in implementation.
- Safety Compliance: Enforced safety regulations on-site, minimizing risks and ensuring a secure working environment.
- Client Liaison: Acted as the main point of contact for clients, addressing concerns and providing regular progress updates.
- Progress Reporting: Compiled comprehensive daily reports detailing construction progress, challenges, and solutions.
- Project Oversight: Supervised the construction of multi-storey residential and commercial buildings, ensuring adherence to design specifications.
- Stakeholder Collaboration: Coordinated with subcontractors and suppliers to ensure smooth project execution and material availability.
- Quality Control: Conducted site inspections to identify deviations from plans, ensuring quality and compliance with standards.

Civil Engineer / Autocad Designer

Pallattu Associates

- Detailed Drafting: Produced precise AutoCAD drawings for various building projects, adhering to client requirements.
- Team Management: Maintained attendance records and assessed performance of design team members to ensure productivity.
- Efficiency Improvement: Proposed operational changes to enhance efficiency and reduce errors in design processes.
- Stakeholder Engagement: Collaborated with project managers and stakeholders to understand design needs and develop effective solutions.
- Research: Conducted industry trend research to enhance design quality and keep the firm at the forefront of best practices.
- Brainstorming Leadership: Led design meetings to foster creativity and solve complex design challenges.
- Compliance Review: Ensured designs complied with building codes, regulations, and client specifications.
- Technical Support: Provided guidance to the design team, resolving issues and improving overall output.

INTERNSHIPS

Greater Cochin Development Authority

- Gathered detailed information regarding ongoing construction projects.

Crescent Contractors Pvt. Ltd.

- Engaged in civil construction work for the Engineering, Procurement, and Construction (EPC) of Ernakulam Market under the Cochin Smart Mission Limited (CSML).

Yes Yem Construction

- Participated in construction activities at the KSEB Substation in Pallivasal, Munnar.

EDUCATION

Bachelor of Technology in Civil Engineering

KMEA Engineering College, Kerala, India

2018 – 2022

Higher Secondary Education

G.H.S.S Muppathadam, Kerala, India

2016 – 2018

High School

Alangad Jamath Public School, Kerala, India

2016

CERTIFICATION / SOFTWARE PROFICIENCY

- AutoCAD 2019-AP702331097219065155137
- Revit Architecture 2019-AP702331097219075155137
- 3Ds Max 2019-AP70233109722395155137
- KMEA Language Forum
- Member in Indian Concrete Institute
- AWS Coursera
- National IP Awareness Mission

PROJECTS

Performance Evaluation of Ethylene Vinyl Acetate Modified Bitumen

- Investigated enhancements to bitumen properties, focusing on elasticity, softening point, and temperature susceptibility.

KEY SKILLS

- | | |
|--|---------------------------------|
| - Project planning and coordination | - Construction management |
| - Implementation of design | - Innovative design development |
| - Site inspections and quality control | - Problem solving |
| - Client liaison | - Effective communication |
| - Technical support | |
