

KINGSLY XAVIER ANTHONY PILLAI

PROFESSIONAL SUMMARY

Engineer with mechanical bias where having Experience in MEP-QMS/QHSE systems with Deep level Understanding of Mechanical and Electromechanical system in Gulf Region.

Analytical problem-solver with proven success in conducting Installation, repair and maintenance work. Communicated technical concepts with multidisciplined teams, organizes resources and stays to schedule. Adopts methodical approach for **ISO, QHSE/QMS** policies in efficient and timely working practice.

WORK HISTORY-GULF

MEP Project Engineer-MEP-Fit out Project

11/2024 – Current

Pink Diamond General contracting and Maintenance LLC/Projects-(kingdom Tower Level 12/KAFD4.09 level 12/Tuwaiq Gate-AZMX HQ/Galdderma-Narjis) - Riyadh, Riyadh Region

- Conduct thorough reviews of MEP design and material submittals, providing detailed comments and feedback to ensure compliance with design specifications and standards.
- Ensure that all designs and materials meet local code requirements, and SEC standards, verifying that our revise and resubmit our proposals based on provided comments.
- Manage and coordinate with multidisciplinary teams to integrate MEP systems into MEP fitout, facilitating effective communication and reducing project delays.
- Develop and enforce technical standards and procedures for MEP systems, leading to improved project quality and consistency.
- Review revised designs and material submittals such as **MAR,MIR** to main contractor/Consultant for final approval, ensuring all revisions comply with project requirements and specifications.
- Prepare **WIR** all MEP Disciplines and Testing and Commissioning of below Disciplines to meet Project **ITP**
 - 1) HVAC-Air Balancing, or Leak Testing or Light Testing
 - 2) Electrical-Megger Testing /Live Testing,
 - 3) Firefighting Pressure Testing
 - 4) Water Supply Pressure Testing
 - 5) Drainage Gravity Testing, Condensate Drainage pipe Flow Testing
 - 6) VRF System Pressure testing
 - 7) Chill Water Pipe Pressure testing
 - 8) Fire Alarm System Testing and Commissioning and interfacing with Civil Defense
- ✓ Prepare Scope of Work (SOW) and Project Technical Specifications (PTS) according to the Turn-On Letter (TOL).
- ✓ Possess a strong understanding of Mechanical Engineering and related standards/codes, such as ASME, SBC.
- ✓ Demonstrate knowledge of mechanical engineering subjects, including HVAC, Plumbing, Firefighting, Fire Alarm System and Electrical to ensure the satisfactory operation of Fitout project.
- ✓ Participate in group discussions with senior engineers, contributing insights and recommendations.
- ✓ Prepare questionnaires for the review process to assess subject understanding and compliance.
- ✓ Proficient in HVAC design including Revit, HVAC AutoCAD, with expertise in MEP equipment selection.

SKILLS

- Engineering **drawing** understanding
- **ISO,QHSE/QMS** document préparation
- **MEP-MIR,WIR,ITP Document knowledge.**
- Pneumatics &Hydraulics
- Problem solving ability.
- Heavy Equipment installation
- Project estimation and bidding
- Document Traceability Plan
- HVAC systems-AHU,FAHU,ERV systems /FCU type /VRF FCU type
- Proficient in MsOffice,Ms Excel, MSPowerPoint ,MsProject,SAP,Access control software.
- ELV Troubleshooting skills
- MEP-F itot Project Management
- ERP planning and Scheduling strength

QA /QC Engineer-MEP-Fit out Project

02/2024 – 10/2024

Apsal Paul Contracting /ICC /Riyadh Bank HQ-KAFD1.14- Riyadh, Riyadh Region

- Ensuring QC team maintain standards IAW-(In Accordance With) the Approved Method Statements, Technical Orders/Manuals and ISO Standards.
- Mentoring preparation and control of project quality system management documentation prior to project/ Activity commencement.
- Providing QA/QC statistics and report QA/QC activities to Project QA/QC Manager
- Ensuring all project site compliance with Document Control system.
- Providing guidance and advice to the Project Manager on significant changes to the quality management system that have a direct impact on site operations.
- Facilitating Root Cause analysis process for site level NCRs and ensure corrective action and preventive action are acceptable and approves NCR prior to input in QMS.
- Processing, evaluating and submitting on time, completed Non Conformance Reports .
- Reviewing and assisting in the development of QCP and ITP as needed to ensure QC processes and requirements are well defined and clearly articulated to subordinate QCis.
- Preparing and issuing audit reports noting system no-conformances and verifying effective corrective/preventative actions.
- Assisting Project QA/QC Manager to manage a field document control system for construction drawings, specifications, test and inspection reports, vendor data and as-built drawings.
- Performing evaluations of sub- contractors' facilities to determine their capabilities in meeting the quality requirements.
- Reviewing the inspection for client representative/third party laboratory and subcontractors.
- Managing and ensure proper usage of site server including full documents control, all files on the server trackable, and project data is updated to the Project Server.
- Accountable for the performance of QA/QC staff on the implementation of QA Management system -throughout the project.
- Check & monitor progress/approval reports status daily, weekly, and monthly, track storing, loading and delivery to the project site.

Maintenance Specialists

08/2021 – 08/2023

Riyadh international catering corporations - Riyadh, Riyadh Region

- Processing maintenance and repair request around 10 per day in Housing Appliance, Electrical and Plumbing problems
- Vendor Assessment /Approvals **(QMS) Policy**
- Material Inspection, work inspection **(QMS) Policy**
- Performed work as per company SLA.
- Invoice verification.
- Costing reports
- Housing Audits-Inspection and verification of material and Work As per **QMS policy**.

Project Engineer

09/2016 - 02/2018

Jegma Technical Service LLC - Dubai, United Arab Emirates

- Managed over 20 per day new installation and troubleshooting of maintenance and repair
- Access control system –software and hardware
- Paid parking system - software and hardware
- High sped shutter
- Automatic gates
- Automatic doors
- **Sourcing materials** in overseas and ensures that these parts meet engineering specifications and all relevant safety standards.
- Conducting service review- client relationship and client coordination.
- Coordination between inner subordinates and client representatives.
- Technical support for clients.
- Preparing design drawings in **AutoCAD**.
- Preparing **(QMS)** documents such like rams, work permit, RFI.

Project Engineer

09/2012 - 07/2016

Nigma Lift installation and maintenance LLC - Dubai , United Arab Emirates

Managed following Scopes.

- Elv installation, testing, commissioning and maintaining equipment needed for elv system.
- Electromechanical project management (man, material and sourcing)
- Elv project coordination and planning towards working with facility management and property management.
- Project optimization and analyzing (costing –pre-calculations and post calculations)
- Tender document preparations –technical proposal of project
- Operation and maintenance manual preparation. (hormann –German - Securakey-usa , Faac-italy)
- Preparing **QHSE/QMS** documents such like
 - **Method of statement** –new installation /elevator service
 - **Risk assessment** - new installation /Elevator service
- New installation and troubleshooting
- Access control system –software and hardware
- Paid parking system - software and hardware
- High sped shutter
- Automatic gates and Automatic doors
- **Outsourcing materials** in overseas and ensures that these parts meet engineering specifications and all relevant safety standards.
- Conducting service review- client relationship and client coordination.
- Coordination between inner subordinates and client representatives.
- Technical support for clients.
- Preparing design drawings in **AutoCAD**.

WORK HISTORY-SRI LANKA

Product Research Development Manager

08/2018 - 11/2020

Petform Private Limited - Colombo , Sri Lanka

- Establish optimized targets to **quality assurance**, production and maintenance departments.
- Managing staff one research assistant
- Establishing design and development of PET,HDP,LLDP,PP products according to following standards (clause 8.3 of **iso**)
- **ISO9001:2015**
- **ISO14001:2015**
- **ISO18001:2007**
- Monitoring & controlling of **NCR and Root cause analysis (QMS policy)**
- Monitoring & controlling of specific power consumption (9 kwh/kg)
- Monitoring of **OEE** overall equipment effectiveness (target 85%)
- Monitoring of compressor efficiency 70-90%
- Equipment purchases and system design as follows
 - i) Cooling tower
 - ii) Compressed air system high pressure (35-40bar).
 - iii) HVAC ventilation system to cope with iso22000.
 - iv) Resin central feeding system.
- Spare parts sourcing **pneumatic** system (Festo,Mindman,Parker &Airtek)
- Design drawing AutoCAD 3D and prototyping.
- Prototyping in outsourcing -3D printing
- New projects to petform group of companies (paper cup -5 standard size of paper cup factory layout)

Senior Quality Assurance Engineer

01/2008 - 08/2012

JACOBI ACTIVATED CARBONS - Kandy, Sri Lanka

Managed and Established.

- Researched information online and extracted required data for testing.
- Coached staff in required knowledge to maintain company quality standards.
- Verified conformity by performing complete dimensional verifications using engineering software.
- Investigated incidents of non-conformance using analyses techniques.
- Collated, analyzed and provided information through concise reports, seeking constant improvement opportunities.
- Guided quality processes by employing knowledge of HACCP, Cleaner Production and GMP Good Manufacturing Practice.
- Devised corrective actions and solutions to improve product durability.
- Verified quality metrics for manufacturing guidelines.
- Submitted performance reports, identifying shortfalls and facilitating improvement actions.

EDUCATION

Bachelor of Engineering: Chemical and Process Engineering, 05/2003 - 11/2008

University of Peradeniya - Kandy, Sri Lanka - Honours

REFEREES

SUNITH SANTHASINGHE

B.Sc (Hons) Eng.-(SL), MSc in (PM) (UK)

C.Eng., MIE (SL), GREENSL®AP (GBCSL)
