Experience:

1. Staff Connect Information Technology LLC Dubai

📅 Jan 2023 to Now

- Managed 30+ virtual servers (Hyper-V, ESXi, vSphere, vCenter), Exchange, ERP systems, domain hosting, and Office 365 Admin Console.
- Oversaw Kaspersky Antivirus through the admin console, ensuring endpoint security and compliance.
- Administered and overseeing Fortinet firewall management.
- Handled security incidents and implemented Kaspersky Antivirus Server for centralized protection.
- supervised the IT helpdesk using ManageEngine, resolving user issues, Asset management, conducting routine audits, and performing system backups.
- Provided IT and Windows desktop support, troubleshooting hardware, software, and network-related issues.
- Scheduled and sustained server backups using Veeam and UrBackup.
- Utilized WSUS and ManageEngine tools for patch management and software deployment.
- Managed and handled Biometric and CCTV systems for security monitoring.
- Provided remote support, including Office 365, SharePoint, One drive and Microsoft Teams.
- Configured and upheld Yeastar P570 PBX systems for VoIP communications.
- Automated and optimized patch management using SCCM and WSUS to ensure system security and reliability.

2. Survival Tech Valley Pvt Ltd Pakistan

📅 Sept 2020 to Jan 2023

- Oversaw virtualization servers, including Hyper-V and ESXi Local, ensuring optimal performance and resource allocation.
- Streamlined server management for 40+ virtual machines (VMs) across Windows, Ubuntu, and Linux platforms.
- Migrated virtual machines from VirtualBox to ESXi 7.0 Server, enhancing system stability and performance.
- Administered G-Suite console accounts and Microsoft Azure VMs, ensuring secure and efficient cloud operations.
- Maintain SolarWinds for proactive network monitoring and performance.

Summary

Experienced IT Administrator with over 8 years of expertise in managing and maintaining IT infrastructure, ensuring network reliability, and implementing secure systems. Skills in IT helpdesk, IT Support troubleshooting, and IT Administration, managing IT inventory.
