CV

PERSONAL SKILLS

Communication skills

I have a good communication skill gained through my experience working in different stakeholders, projects with community, contractors and clients during supervision of water supply projects and leading of the project supervisors.

Organisational / managerial skills

Excellent interpersonal, Strong team work spirit, using resource efficiently & effectively organizational and time management skills; positive and professional attitude, able to organize, maintain and prioritize work under pressure and able to work in difficult environment (ability to do in stress).

Provide guidance coaching monitor and leadership to project team members.

Job-related skills

- Establish methods and procedures for achieving goals and objectives of construction supervision and contract administration team.
- Provide manage, monitor, control and support the construction supervision and contract administration projects.
- Prepare the design documents for water supply projects
- Monitor and supervise water supply systems constructions; as per the design and standards.
- Supervise large scale water supply project

Computer skills

- ArcGIS
- Global mapper
- Water CAD
- water Gems
- Epanet
- Sewer Cad
- SAP
- Auto CAD
- MS project
- Primavera P6
- Good command of Microsoft Office™ tools
- Excellent skill in using internet
