

TOUFIC FATHI ELHALLAK

Senior Wet Utilities Engineer

Key skills	Years of experience	Years with AECOM
Underground utilities	More than 20 years	12.5

Education	Registrations/Certifications	Professional affiliations
Bachelor of Science in Civil Engineering	PMP/RMP ACI	Member, Saudi Council of Engineers
Nationality	Language skills	Contact details.
Palestinian	English, Arabic	Email: toufic-hallak@hotmail.com Phone :0559745404

Sr wet Utilities Engineer with over 20 years of experience in civil and infrastructure project Expertise in underground utilities transportation networks and multidisciplinary construction Projects across Saudi Arabia and the UAE. Proven ability to lead cross functional teams ensure project compliance, and Manage stakeholder interfaces at all stages.

CORE COMPETENCIES

1. Project and construction management
2. Underground utilities and infrastructure
3. Stakeholder Engagement
4. Commissioning and handover management
5. Quality Assurance and Control
6. Contract Administration
7. Risk and Change Management
8. Regulatory Compliance

ACADEMIC CERTIFICATE

BS Civil Engineering, Beirut Arab University, 1992

Courses and Training

1. AECOM university Training and EDX courses
 1. GPM programme controls
 2. APIC tools, modifications, roles, and responsibilities, change order management project setup, tracking EAC, progress and reporting.
3. Professional webinars and online courses in Project Management PMP/PMI &RMP/PMI
4. Joined training courses provided by many clients like ARAMCO, Neom, DGDA, RCRC and EXPRO -KSA in fields of project management, project controls, scheduling, contracts, quality and others.
5. Linked in course in Risk Management and LEED v 5.
6. Hazard and operability study considers the potential hazard process and operability aspects of the design.

Affiliation

1. Order of Engineers and Architects –Lebanon. #2930.
2. Saudi council of Engineers- Riyadh- KSA # 40700
3. American Concrete Institute - KSA Chapter
4. ASCE Membership

Professional History :-

1. **2022-up to Now**
AECOM Arabia, KSA
Sr Project Engineer -
Utilities/PMO
2. **2019-2021**
Stakeholder Engineer
3. **2014 – 2019**
Sr Underground utilities Engineer
4. **2012-2014**
AECOM Arabia, Saudi Arabia
Utilities Engineer /Underground Utilities coordinator
5. **2009--2012**
Consolidated contractors' company-(CCC) KSA
Project Engineer Utilities
6. **2006-2008**
Consolidated Contractors' Company-(CCC) KSA
Section Engineer
7. **2004-2006**
Consolidated Contractors' Company-(CCC) -UAE
Material and sub

Detailed Experiences:-

APRIL 2024 -DECEMBER 2024

Project: Sindalah Island Neom -

Project Client: NEOM

Sr Interface &handover Utilities Engineer-Back Bone utility compound.

Including water supply Network, Irrigation system, Drainage works, Firefighting system, Mineralized water and Vacuum Sewer Network.

As an interface Engineer my role involves defining, controlling, and communicating the information needed at the common boundary between different systems, entities, or parties as an Interface Engineer .I am involved in planning, coordinating and controlling the work of others at project interfaces. Also, I am responsible for monitoring operational progress, managing risks, and Utilities infrastructure effective relationships across multiple interfaces.

In addition to that I am involved in handover scope.

The key responsibilities of a handover Engineer include:

1. Providing detailed task documentation covering all tasks, deadlines, ongoing projects, and pending responsibilities.
