Personal Summary

Over the past five years, I have gained substantial experience in various fields of translation, including legal, media, general, cultural, articles, and technical translation. Additionally, I have enhanced my skills in content writing. My work in the administrative field motivated me to pursue studies in Public Administration, which enabled me to work as an HR Assistant in the Human Resources department. This interest led me to delve deeper into the field of Human Resources, encouraging me to pursue a professional certification in this area. This field provided me with knowledge of working with Qiwa and GOSI.

Education

Bachelor's Degree in English Language and Literature
