

Dr. Mohamed Mahgoub

Projects & Operations Director / Certified Passivhaus designer

📍 [Saudi Arabia](#) 📞 [+966533138645](#) ✉️ momahgoub@gmail.com

Summary

I am a Doctoral-level construction executive and project delivery professional with over 19 years of proven experience leading complex, high-impact developments across the GCC, including hospitality and iconic giga-projects.

Currently serving as Projects & Operations Director at a leading private-sector construction firm, I lead the full operations and manage cross-functional teams, align delivery processes with business objectives, and optimize operational workflows to ensure on-time, on-budget, and high-quality outcomes. I maintain rigorous control over quality, safety, and commercial performance, while engaging closely with stakeholders to ensure transparency, risk mitigation, and long-term value creation.

As a Certified Passive House Designer, I integrate scientific research with practical leadership to advance sustainable, energy-efficient building practices. My career reflects a deep commitment to shaping resilient, future-ready environments.

Notable Areas of Expertise include:

- Project & Program Management
- Construction & Delivery Leadership
- Civil & Structural Works, Façade, Roofing, and High-End Fit-Outs
- Stakeholder & Client Engagement
- Contract & Procurement Management
- Team Leadership, Coaching & Mentorship
- Operational Optimization
- Energy Efficiency & Building Physics (PASSIVHAUS Certified)
- Sustainability Integration & Performance Standards
- Specification & Standards Implementation
- Risk, Compliance & Safety Regulations (HSE)

Experience

Projects & Operations Director

BFG Advanced Building Technologies, Saudia Arabia.

Jan 2025 - Present

Leading the operational transformation of a private-sector organization delivering high-profile construction and manufacturing projects across Saudi Arabia, building on prior success in flagship programs such as Amaala. Tasked with enhancing execution models, aligning strategic procurement, and ensuring design-to-delivery continuity across multidisciplinary scopes.

Contributing to national-scale developments aligned with Saudi Arabia's Vision 2030, in collaboration with a giga-project destination within Riyadh's cultural and entertainment sector. Representing the company before major clients, consultants, government bodies, and strategic suppliers to drive coordination, resolve challenges, and maintain alignment.

- Project Leadership: Driving planning, design, procurement, and delivery of complex construction projects, ensuring performance in cost, time, and quality.
- Stakeholder Interface: Managing external relations to maintain clarity, trust, and shared project vision.

- **Engineering Oversight:** Leading coordination with consultants and technical teams to ensure constructability, sustainability, and design compliance.
- **Procurement Strategy:** Overseeing RFPs, vendor evaluations, and contract execution to support timely delivery and cost efficiency.
- **Site Execution:** Monitoring progress, managing work packages, and enforcing delivery milestones.
- **Operational Optimization:** Streamlining workflows, improving reporting, and boosting internal coordination.
- **Contract Management:** Leading the development, negotiation, and administration of subcontractor agreements, including claims resolution and variation orders.
- **Project Insurance:** Coordinating comprehensive insurance coverage, including Contractors All Risk (CAR), third-party liability, and professional indemnity, in alignment with legal and commercial risk strategies.

My mandate bridges operations, engineering, and controls—focused on performance, quality, and accountability across all active operations.

Projects Manager - Delivery

Red Sea Global, Saudia Arabia.

Jan 2023 - Jan 2025

Applying a wealth of experience in successfully managing and overseeing three significant packages of a luxury waterfront luxury hotel within Amaala destination including body of the hotel, condominium, branded villas, SPA, restaurants and retails.

I utilized my skills to lead every aspect of the construction process to run smoothly and efficiently from design, planning, procurement, and execution to controlling all assigned packages with a commitment to delivering exceptional results to meet the project objectives.

- Represented Red Sea Global in high-level meetings with design consultants, contractors, and client stakeholders to drive alignment, resolve conflicts, and ensure delivery excellence.
- **Integrated Project Management:** Directed multidisciplinary teams (architects, designers, consultants, and contractors) through the design and construction of civil, steel, façade, and builder works. Championed robust HSE and quality assurance frameworks throughout all phases.
- **Procurement Leadership:** Prepared RFPs, led vendor evaluations, and ensured the timely finalization of NTPs and contracts in compliance with project specifications, budget, and delivery timelines.
- **Site Execution Oversight:** Supervised execution of key work packages, regularly inspected progress, enforced performance KPIs, and ensured construction activities adhered strictly to technical requirements.
- **Safety & Compliance Management:** Promoted a proactive safety culture by ensuring compliance with all safety regulations and continuously monitoring implementation of site safety protocols.
- **Operational Agility:** Maintained full control over documentation, reporting, and site logistics in a high-pressure, fast-paced environment, ensuring accuracy, traceability, and compliance with project governance standards.

Senior Construction Project Manager

Ahmadiyah Contracting & Tr. Co., Kuwait.

Jun 2017 - Jan 2023

- Sheikh Salem Al-Ali Al-Salem Al-Sabah Camp (KAZMA CAMP), Kuwait, US\$ 1,052 million.
- Al Kout mall, Kuwait and Hyatt Regency Hotel, US\$ 200 million.

- The project comprises various disciplinary units such as an airbase with a runway and auxiliary facilities, Hospital, music centers, shelters, sports ancillary, catering, sleeping barracks, warehouses,

outdoor training and sports facilities including an Olympic swimming pool, administration directorates, as well as military components, substation, sewage treatment plant, landscape works, etc.

- Used expertise within Civil, Finishing, Steel, Façade and Roofing works to play a pivotal role within the leadership of this project, overseeing the design management and operational delivery (both offsite production and installation) across the whole project.
- Developing and implementing of the Project Management Plan and supporting plans, project delivery procedures, project reports, submittals, project documentation and deliverables.
- Being familiar with various technical specifications, contract requirements and review the construction drawings before submission and implementation of the project to ensure the initiative and advance control of project implementation.
- Review and enhance the feasibility, pertinence, economy of the construction plan, and put forward professional advice.
- Participate in the review of the material samples submitted by contractors and suppliers to ensure that they meet the requirements of the design and the special technical specifications of the contract.
- Ability to segregate various scopes, assisting in RfQ preparation with Highly Negotiating skills.
- Work with the QA/QC team to ensure the submittals and works are being executed as per contract.
- Attending and representing the company in official and coordination meetings and site tours.
- Adhere to Company Safety Standards and promote safety culture among the ranks throughout the Company.

JANGHO **Façade Deputy Project Manager**

Beijing Jangho Curtain Wall Co Ltd,

Nov 2012 - Jun 2017

- Sabah Al-Salem University City - College of Art and Education, Kuwait, US\$ 400 million.

- Used expertise to successfully complete the oversaid project during Initiation, Planning, Execution, Managing and controlling all assigned tasks related to Facade, Finishing, Steel and Roofing works.
- Responsibility for analyzing the contract and construction project, identifying the scope in details, Evaluate material specifications and outlined techniques for obtaining results besides Support the procurement processes to meet work and installation schedules.
- Provides construction expertise to conduct technical reviews of system designs, specifications, and proposed technical solutions and alternatives to ensure that systems are fit for purpose and meet operational / end-user requirements, all of which require significant coordination, development, and interface detailing.
- Coordinate with related departments to check and accept the concealed work, sub-projects, etc. to ensure the smooth transfer of the project as scheduled.
- Attending Performance Mock-up unit test and also Visual Mock-up unit. • Prioritize and ensure during all phases that QA/QC procedures and Safety regulations are in place, understood, and followed at all levels, and every day. • Preparing the Risk allocation sheets and assisting in preparing risk management plans, cost control plans, variations, and claims with high skills to solve all kinds of conflicts that may arise in the project.

JANGHO **Façade Package Manager - Construction Manager**

Beijing Jangho Curtain Wall Co Ltd

Dec 2010 - Nov 2012

- The avenues mall, Kuwait, US\$ 450 million.

- Responsible for providing and applying the highest level of construction execution management expertise for a landmark mall in the Middle East. Successfully managed this facade, roofing and steel works project. This involved stick curtain wall, wavy, dome and flat skylights, spider systems, heavy steel structures canopies, stainless steel cladding, ACP and doors (sliding and folding).
- Review shop drawings, specs, Submittals, transmittals, O&M manuals and Work directly with Architects, Engineers, and consultants to ensure project design intent was met
- Ensuring the QA /QC and HSSE requirements are adhered, liaising in this respect with the all relevant parties.
- Responsible for coordination and management of sub-contractors to coordinate successful and timely delivery of Project Implementation, supporting plans and deliverables.
- Provide impartial project management and technical advice to the Project Manager, clients, project team and contractors in support of project delivery
- Ensuring all non-conformities are clearly documented and approved by appropriate authority as required and taking action to mitigate potential risk of delay on the project.

Façade Project Engineer

JANGHO

Beijing Jangho Curtain Wall Co Ltd

Sep 2009 - Dec 2010

-Silverene twin towers, UAE, AED 638 million.

- Delivered full façade package including unitized curtain wall systems, skylights, sliding doors, and balustrades for twin high-rise towers.
- Coordinated between design, production, and site teams to resolve technical issues and ensure smooth handover between project stages.
- Oversaw site installation works, enforcing safety compliance, quality standards, and alignment with client and consultant specifications.
- Monitored project progress through structured reporting and meetings, supporting timely completion within budget constraints.

SNC

Project Engineer

Al Shafar National Contracting L.L.C.

May 2008 - Sep 2009

- Dubai Production City, UAE, AED 200 million.

- Supervised site construction activities, ensuring alignment with project specifications, schedule milestones, and quality objectives.
- Reviewed construction drawings and layouts for constructability, addressing technical issues and supporting timely decision-making.
- Managed subcontractor coordination and daily work execution, ensuring compliance with safety protocols and contractual requirements.
- Conducted regular site inspections and quality checks, enforcing adherence to HSSE standards and ensuring smooth project progression.

Façade Engineer

TAV Construction

Jul 2006 - Apr 2008

- Cairo international airport, Egypt, US\$ 450 million.

- Executed façade and roofing systems for a landmark airport terminal, ensuring compliance with specifications, safety standards, and quality benchmarks.
- Managed site preparation activities including surveys, logistics, inspections, and coordination of façade and finishing works.
- Reviewed construction documentation and supervised field execution to maintain alignment with approved design and project schedule.
- Liaised with consultants, contractors, and site teams to resolve technical issues and support continuous construction progress.

Education

Heriot-Watt University

Doctor of Philosophy (PhD), Construction Management in zero and low energy buildings, 2020.

Modeling A Zero-Energy Dwelling in Hot Arid Regions - A case study of Dubai. Heriot-Watt University, School of the Built Environment, Edinburgh, Scotland, UK

Harvard Kenneth C. Griffin Graduate School of Arts and Sciences

Higher Education Teaching Certificate, Harvard's Derek Bok Center for Teaching and Learning, 2020.

Heriot-Watt University

Master of Engineering (MEng), Science in Construction Project Management, 2013.

Heriot-Watt University, School of the Built Environment, Edinburgh, Scotland, UK

Suez Canal University

Bachelor of Engineering (BEng), Civil Engineering, 2006.

Civil engineering

Publications

• Evaluating Passive Housing Strategies in Extreme Climates: A Case Study of Dubai Using PHPP and IESVE Models.	Journal of Climate Change, 2024.
• Evaluating Recycled Concrete Aggregate and Sand for Sustainable Construction Performance and Environmental Benefits.	Journal of CivilEng, 2024.
• Transforming Urban Energy: Dynamics, Policies and Innovations in Suburban Energy Efficiency and Building Sustainability in India.	Journal of Climate Change, 2024.
• Enhancing Energy Efficiency and Sustainability in Hot Arid Climates: Passive House (Passivhaus) Implementation in Al Wejh, Saudi Arabia.	Manuscript submitted for publication in Discover Environment (Springer Nature), 2025.

Conference attendance

the 7th Construction Technology ConFex, Contech star of the year shortlisted.	Dubai, 2024.
140th Edition - Zak World of Façades, panelist.	Saudi Arabia, 2023.
The 26th International Passive House Conference.	Germany, 2022.
92nd Edition - Zak World of Façades, panelist.	Kuwait, 2023.

Courses & Certifications

Certified European Passive House Designer	The Passivhaus institute, 2023.
Passive House Construction Verifier	Passive House Canada, 2023.
Understanding & Working with PHPP	Passive House Canada, 2023.
Working with PHPP 10	Passive House Canada, 2023.
Corporate Standard Training Webinar	The Greenhouse Gas Protocol, World resource institute, 2016.
Certified Passive House Designer / Consultant Course	Energy + International Ltd., 2014.
LEED AP BD+C Training and exam preparation	Green International Kuwait, 2013.
OSHA Scaffold Safety Awareness	OSHA, 2008.
Repair and Maintenance of Steel Structures	The american university in Cairo, 2008.
Welding joints Design and Inspection of welding joints	The american university in Cairo, 2008.
Welding, Cutting, and Joining Processes	The american university in Cairo, 2008.
Primavera Project Planner	The Public library in Egypt, 2005.

Software Skills

Aconex · AutoCAD · BIM 360 · Primavera P6 · Microsoft Office Suite · Microsoft Project, PHPP (Passive House Planning Package) · IES VE · Adobe Photoshop.

Management Skills

- Project & Construction Leadership:** End-to-end management of complex projects—from design through execution—with strong command of planning, operations, and delivery performance.
- Contract & Commercial Management:** Proficient in contract administration, claims handling, procurement strategy, and cost control across large-scale developments.
- Team & Stakeholder Coordination:** Leading cross-functional teams and maintaining strong engagement with clients, consultants, and vendors to ensure alignment and delivery excellence.
- Technical & Sustainability Expertise:** Solid engineering foundation with specialized focus on sustainable design, passive systems (PASSIVHAUS), and energy efficiency solutions.
- Compliance, Safety & Quality Assurance:** Driving regulatory compliance, HSSE standards, and quality systems across all construction phases with meticulous attention to detail.
