devOP-SAAD

SUMMARY

A results-driven IT professional with 3 years of experience in software development, system design, and problem-solving. Proficient in web development, backend systems, API integration, and database management. Passionate about leveraging technology to optimize performance, automate workflows, and enhance user experiences. Strong team player with expertise in agile development and modern software methodologies.

EDUCATION

BS Information Engineering Technology

2020 - 2024

Foundation University School Of Science & Technology Islamabad

CGPA 3.3 / 4.0

EXPERIENCE

Software Engineer

April 2025 -Present

Riyadh KSA. On-site

AL Mansouryah Co.

Key Responsibilities:

- React fetches data from PHP APIs using axios or fetch.
- PHP handles authentication, and React stores tokens or session data.
- Configure CORS in PHP to allow requests from the React frontend.
- React handles UI and form inputs; PHP handles backend validation and processing.
- Deploy React build files within PHP's public directory for unified.

Assistant Project Coordinator

Yafa Global Co

Jan 2025 - Mar 2025

Riyadh KSA. On-site

Key Responsibilities:

- Assisted the Project Coordinator in planning and executing manpower deployment projects.
- Maintained and updated project documentation, records, and progress reports.
- Coordinated with clients to understand manpower requirements and project timelines.
- Supported the recruitment process by helping with candidate sourcing, screening, and shortlisting.
- Scheduled and arranged interviews between candidates and clients.

Software Engineer

MaxRemind (Pvt) Limited

Aug 2023 - Aug 2024

Islamabad . On-site

Key Responsibilities:

- Delivered responsive and visually engaging web applications using HTML, CSS, JavaScript, and React.js, achieving a 43% reduction in client wait times by optimizing booking systems.
- Improved application performance by 25% by implementing efficient state management solutions with Redux.
- Streamlined development workflows using Material UI and Tailwind CSS, boosting team productivity by 30%.
- Designed and implemented user interfaces that increased customer satisfaction ratings by 25%.

Full Stack Developer

June 2022 - July 2023

Pakistan . Remote

CITROK

Key Responsibilities:

- Built reusable and modular components, reducing development time for new features by 20%, accelerating project delivery.
- Successfully deployed 3 dynamic web applications utilizing the MERN stack, meeting project milestones 10% ahead of schedule.
- Improved API performance by 15% through optimized queries and caching mechanisms, enhancing user experience.
- Refactored legacy code, increasing codebase maintainability and scalability by 30%, resulting in faster development and easier future updates.
- Collaborated with backend teams to integrate RESTful APIs and JWT-based authentication, reducing unauthorized access incidents by 40%.

| • Programming & Development: | React Next JS JavaScript Node JS Angular JS PHP Laravel. |
| • Software & System Management: | Linux Windows Server CI/CD |
| • Cloud & DevOps: | Docker Kubernetes AWS. |
| • Networking & Security: | Firewalls, VPNs, Cybersecurity Best Practices |
| • Databases : | MySQL, MongoDB, PostgreSQL |

PROJECTS

Tatweer Medical CO.

<https://tatweer-med.com/>

 June 2025 -Present  KSA

To develop a modern, responsive website that showcases and manages medical equipment products, allowing users to explore detailed product information, submit inquiries, and streamline purchasing for healthcare providers and institutions.

- Technologies: React JS , JavaScript, HTML, CSS, Material UI , Redux.

AL Mansouryah CO.

<https://almansouryah.com/>

 April 2025 - Present  KSA

Al Mansouryah is a leading construction company delivering high-quality building solutions with precision and reliability.

- Technologies: React JS , JavaScript , CSS , Redux , Material UI , HTML , Tailwind CSS.

Medical Engineering CO.

<https://medeng-sa.com/>

 May 2025 -Present  KSA

To develop a modern, responsive website that showcases and manages medical equipment products, allowing users to explore detailed product information, submit inquiries, and streamline purchasing for healthcare providers and institutions.

- Technologies: React JS , JavaScript, HTML, CSS, Material UI , Redux.

LULUAT ALOMRAN

<https://luluatalomran.com/>

 April 2025 - Present  KSA

iLULUAT ALOMRAN is a leading real estate company delivering high-quality building solutions with precision and reliability.

- Technologies: React JS , JavaScript , CSS , Redux , Material UI , HTML , Tailwind CSS.

MaxRemind

<https://www.mremind.com/>

 Dec 2023- Feb 2024  USA

MaxRemind is a leading healthcare billing and practice management solution, offering streamlined services for medical practices and healthcare organizations.

- Technologies: Asp.net , Web forms , C#.

Campus Management System

 Sep 2022 - June 2023  ISB, Pakistan

Engineered an enterprise management system to automate administrative tasks, improving efficiency by 40%.

Designed a centralized database for real-time student and faculty tracking, reducing data errors by 25%.

Ensured secure access control, integrating user authentication and encryption techniques.

- Technologies: PHP , Laravel , JavaScript , HTML , Tailwind CSS , Databases , MySQL

MaxCharts Application

<https://biller.maxremind.technology>

MaxCharts is a charting application developed by MaxRemind to facilitate the visualization and analysis of medical data. It enables healthcare professionals to create various charts and graphs, aiding in the interpretation of data trends. The application offers customization options for visualizations and supports effective data sharing among medical teams.

- Technologies: React Native.

MediRemote RPM

📅 Aug 2023 - Dec 2023 📍 TX, USA

🔗 <https://www.mediremote.com/>

MediRemote RPM is a healthcare platform at the forefront of Remote Patient Monitoring (RPM) technology. I worked on this project as a frontend developer.

- Technologies: React , Redux , Material UI , JavaScript , HTML , Tailwind CSS.

MediRemote PHR

🔗 <https://www.mediremote.com/>

📅 Aug 2023- April 2024 📍 TX, USA

MediRemote PHR is a groundbreaking digital platform centralizing healthcare information, enabling patients to securely access their medical records anytime, anywhere. I worked on this project as a frontend developer.

- Technologies: React , Material UI , JavaScript , HTML , Tailwind CSS.

CERTIFICATES

Web Development:

Certified Software Engineer, skilled in application development, system optimization, and IT troubleshooting.

Supervised Industrial Training:

Supervised Industrial Training in Software Engineering, specializing in scalable architecture and security best practices.
