

MOHAMMED ABDUL KHADEER

Contact No : +971586178612 (Mob) UAE

E-mail : khadeer62@gmail.com

Status : Looking for a New Job

Country : Dubai – UAE

Driving License : 4130480 (ATMC LV Vehicle) - Dubai.

SCADA and INSTRUMENTATION ENGINEER WITH PLC, DCS,VFD and HMI

Looking Forward to Challenging Assignments in SCADA, Automation and Instrumentation Engineering.

PROFESSIONAL SUMMARY

A Diligent Professional with over 14 years of Experience in the Field of SCADA and Instrumentation Engineering. Has Hands-on Experience in Handling and Monitoring the Performance of the SCADA, Electrical, Instrument, Automation and Communication Systems. Highly Skilled at Preparing Inspection Reports and Troubleshooting all Systems. Adept at Providing Technical Support & Guidance to Different Plants, Offshore or On-Site Teams for their Issues. Competent at Managing Specifications, Installations and Commissioning of all (Industrial Automation) E&I Equipment's for the Site. Seeking a Challenging and Dynamic Career as a SCADA, Automation and Instrumentation Engineer in a Bright and Vibrant Workplace Where I Can Put My Skills to Suitable Use and to Attain a Significant Height in the Field of SCADA, Instrumentation and Automation Industry.

PROFESSIONAL EXPERIENCES

**1). AQLEH ENGINEERING CONSULTANTS (aec) CLIENT (DEWA) DUBAI
ELECTRICITY& WATER AUTHORITY, DUBAI -UAE from SEPTEMBER 2019 TO
TILL NOW - (DEWA APPROVED).**

DESIGNATION: PROJECTS SCADA ENGINEER

ACCOMPLISHED TASKS:

Successfully Executed the Projects Under the Guidance of Resident Engineers & Project Managers in all Aspects ,Since Planning Through Handing Over with all Relevant Documentation of Final Closure Process in Estimated Stipulated Time.

JOB RESPONSIBILITIES

- Worked on Industrial Communication Protocols like Modbus RTU, Ethernet TCP/IP and SerialI/O,PROFIBUS/PROFINET, DeviceNet,IEC-61850,IEC 60870-5-101/104,MQTT,Etc.
- Establishing Communication Between PLC, DCS, VFD's, HMI & SCADA using RS-232, RS-485/232,Ethernet,Ethernet/IP,OPC-UA,WirelessHART and ModbusTCP&PROFIBUS Protocol for Real Time Monitoring of Plant Process.

- Integration of Field Instruments like Flow Transmitters, Pressure Transmitters, Temperature Transmitter, Level Transmitters, Flow Transmitters, Etc and other Control Valves with Automation Systems.
- Design and Develop SCADA Systems for Industrial Automation (e.g., Water Treatment Plants, Power Plants, Oil & Gas, Manufacturing, ETC).
- Select and Configure Appropriate Hardware (PLCs, RTUs, HMIs, VFDs, Communication Devices, Etc) and Software Platforms (like Ignition, AVEVA, WinCC, Etc.).
- Prepare System Architecture Diagrams and SCADA Network Layouts.
- Develop SCADA Architecture Diagrams, Including Server-Client Configurations, Network Topologies, and PLC/RTU Interface Mapping.
- Develop and Maintain I/O Lists, P&ID Mappings, Hook-Up Diagrams, Network Drawings, and User Manuals.
- Configuring SCADA Control Systems and Safety Instrumented Systems to Achieve Automation Objectives.
- Integrate SCADA with Historian Servers (e.g., AVEVA Historian, Ignition Tag Historian, Etc) for long-Term Data Logging.
- Integrate SCADA with Historian/Database for 30/60/90-Day Data Storage.
- Configure Auto-Generated Reports (Daily Flow, Power Consumption, pH Trend, Chlorine Dose, Etc).
- Configure Industrial Protocols such as Ethernet/IP, Modbus TCP/IP RTU, OPC UA, Profibus, IEC 104, and DNP3, Etc.
- Set Up Industrial Ethernet, Fiber Optics, and SFP-based Managed Switches Between Panels and SCADA Servers and also Troubleshoot Field Communication Issues (Cables, Switches, SFPs, Power Issues).
- Prepare Instrument Datasheets, Specifications, and BOQs according to Project Standards (ISA, IEC, IS).
- Supervise FAT (Factory Acceptance Test), SAT (Site Acceptance Test) and other Related Tests for Pre- Commissioning and Commissioning Activities with Final Handing Over to O&M and For Client Approval.
- Preparation of Datasheets and Specifications for Various Instrument like Control Valves, Safety Valves, Smart Transmitters (Pressure, Level, Flow and Temperature), Gas Detection Systems, Pressure Switches and Level Switches Etc.
- RTUs Maintenance, Troubleshooting and Diagnose all Problems Between Master station and RTUs.
- Continuous Maintenance and Upgradation to the SCADA Systems
- Firewall Set up and Security of the SCADA Systems from External Attacks.
- Select Appropriate Instruments (Pressure, Temperature, Level, Flow, pH, DO, Turbidity, Chlorine Analyzer's, Etc.) based on Process Requirements and P&IDs.
- Prepare Instrument Index and all the Instrument Check Lists, Specifications, and Material Take-Off (MTO).
- Evaluate Vendor Offers and Ensure Compliance with Project Specifications and Standards (ISA, IEC, API).
- Develop Detailed Instrument Hook-Up Diagrams, Loop Diagrams, and Cable Schedules, Etc. Supervise Installation of Transmitters, Control Valves, Analysers, and Sensors, Etc.
- Ensure Correct Mounting, Orientation, Impulse Line Connections, and Weatherproofing.
- Perform Complete SCADA Loop Checks, Alarm Testing, HMI Validation, and Functionality Checks.
- Troubleshoot and Resolve Field to SCADA Issues During Installation and Commissioning Process.
- Maintain Detailed Logs of Calibration Records, Fault Reports, and PM Activities.
- Assist in Maintaining Instrument Asset Databases and Inventory of Spare Parts.

- Troubleshoot SCADA Alarms, Tag Errors, Communication Failures, and HMI Graphics Issues and Set Up Alarm Thresholds and Classifications (Warning, Critical).
- Perform Loop Checks and Functional Testing between PLCs and SCADA Screens.
- Resolve Data Logging, Historian, and Reporting Issues and Validate Tag Data Accuracy and Screen Responsiveness.
- Maintain Up-to-Date SCADA Documentation Including Tag Lists, I/O Lists, IP Plans, and System Architecture and Integrate SCADA with Historian Servers for Real-Time and Historical Data Tracking.
- Set Data Logging Intervals, Archival, and Trending Using SQL Databases or Embedded Historian Modules and Link Remote Panels (e.g., Pump Houses, MCC, Analyzer Shelters) to Central SCADA over FOC.
- Use Fiber Switches to Connect PLC Panels to Central SCADA via Ring/Star Topology.
- Connect FOC to Industrial-Grade Fiber Switches with SFP Modules (e.g., 1G/10G SFPs).
- Use Media Converters to Convert Fiber to Ethernet where Necessary.

2). AL-MANSOOR INTERNATIONAL COMPANY LLC - PUBLIC AUTHORITY FOR ELECTRICITY AND WATER MUSCAT-OMAN From JULY 2017 TO MAY 2019 – (Contract Finished) - (PAEW Approved)

DESIGNATION: SCADA ENGINEER

- Perform the Installation, Maintenance and Repair of the Physical Plant and Pumping Stations and all of their Components.
- Supported Automation Controls and SCADA Pack RTU Programming Tasks.
- Supervise the Construction of Instrumentation and Control Systems.
- Develop and Document SCADA and PLC Programs.
- Development of SCADA, Trend screens, Alarm screens & Reports Generation Using Wonder Ware In Touch, Cimplicity, Factory Talk View, WINCC Etc, SCADA Package and Integrating With all the PLCs.
- Develop Alarm Summary Pages with Sorting, Filtering, and Acknowledgment Features.
- Develop Operator Interface Graphics: Process Overviews, P&IDs, Trends, Alarms, and Control Buttons.
- Assist with the Installation and Inspection of New Sewer Lines and Services.
- Set and Monitor Alarm Functions.
- On Call to Respond to Emergencies and Breakdowns at the Plants and Pump Stations.
- Conduct the Necessary Weekend Checks of the Treatment Plant on a Rotation Basis.
- Troubleshoot, Analyze, Repair, Report On, and Recommend// Perform Service of SCADA, PLC, Instrumentation, Motor Controls, and Process Analyzers.
- Complete all Programming Projects (Control Logic, HMI Screens, Etc.) Accurately and in a Timely Manner.
- Performed Configuration of MS Source Database with Data Points, Communication Parameters and Performed End to End Tests with Field RTUs.
- Preparation of Instrument Field Layouts, Instrument, JB Layout F & G Layout, Cable Layouts.
- Prepare Fiber Optic Network Layout: Single-Mode or Multi-mode and Select Cable Type (Tight-Buffered, Loose Tube, Armored/Unarmored).

- Plan for Number of Cores (e.g., 6, 12, 24,48 Etc Cores) Based on Data and Redundancy Needs.
- Determine Cable Routing (Underground, Overhead, Duct, Tray,Etc).
- Use OTDR for Quick Fault Location and Signal Degradation Diagnosis.
- Maintain Splicing Kits and Spare Connectors for Quick Repairs and Use SC, LC, ST, or FC Connectors Based on Device/Switch Compatibility.
- Maintain Cable Schedules, Route Drawings, Test Reports, and Termination sheets.
- Prepare FOC As-Built Drawings with Link Diagrams.
- Prepare Network Topology Diagrams Showing Switch Connections and IP details.
- Maintain Switch Configuration Files and Port Mapping Sheets.
- Create Installation and Test Reports for Handover and Maintenance.

3). AL-MALIKI GROUPS-EDGE WATER CLIENT- PUBLIC WORKS AUTHORITY, DOHA-QATAR From JULY 2016 – JUNE 2017 ((PWA Approved)

DESIGNATION: INSTRUMENTATION & SCADA ENGINEER

- Supervises, Evaluates and Reports on the Activities of All Preventive & Corrective Maintenance Tasks Related to Instrumentation and Automation Systems and Ensures their Performance in Conformity with the Prescribed Work Methods, Quality Standards & Safety Guidelines.
- Responsible for Co Ordination of Installation and Customization of SCADA System.
- Performs Corrective and Preventive Maintenance for Installed SCADA Systems.
- Install SCADA Sensors, Wiring, Circuit Breakers, Over-Current Protection, Isolators, Terminal Blocks, and Network Switches.
- Troubleshoot Communication Protocol Issues Remotely and On-Site.
- Wiring the Control Panels and Testing with SCADA.
- Also Involved with SCADA RTU Engineering Activities Which Included the Development of Sizing of SCADA RTUs for Required Quantities of Analog, Discrete, Accumulator Points, Control Points, and Development of Point's I/O Lists and Wiring Lists/Diagrams to Support the Installation of SCADA RTUs inside Different Stations.
- Work Collaboratively with Junior Engineers, Plant Engineers, Operation Engineers and Other Internal Staffs.
- Supports Technicians in Day-to-Day Tasks as Required.
- Tray-layout's and Participating in Time-to-Time Review Meetings of the Completion of the Project.

4). ADVANCED INTEGRATED TECH SOLUTIONS (AITS) CLIENT UNILEVER LIPTON JEBEL ALI -DUBAI-UAE JULY 2015 to MAY 2016 (Project Completed).

DESIGNATION: PROJECT ENGINEER (INSTRUMENTATION & AUTOMATION).

- Perform I/O Loop Testing, Wire Tracing and Identification.□

- Supervises, Evaluates and Reports on the Activities of All Preventive & Corrective Maintenance Tasks Related to Instrumentation and Automation Systems and Ensures their Performance in Conformity with the Prescribed Work Methods, Quality Standards & Safety Guideline.
- Responsible for Coordination of Installation and Customization of SCADA system.
- Performs Corrective and Preventive Maintenance for Installed SCADA Systems.
- Install SCADA Sensors, Wiring, Circuit Breakers, Over-Current Protection, Isolators, Terminal Blocks, and Network Switches.
- Troubleshoots Communication Issues Remotely and On-Site.
- Wiring the Control Panel and Testing with SCADA.
- Also Involved with SCADA RTU Engineering Activities which Included the Development of Sizing of SCADA RTUS for Required Quantities of Analogs, Discrete, Accumulator Points, Control Points, and Development of Point Lists and Wiring Lists/Diagrams to Support the Installation of SCADA RTU's Inside Different Stations.
- Work Collaboratively with Junior Engineer, Plant Engineer, Operation Engineers and other Internal Staff.
- Supports Technicians in Day-to-Day Tasks as Required.

5). 3W TECHNOLOGIES&SERVICES (ECILXROADS, HYDERABAD, INDIA), JUNE 2013 to JUNE 2015.

DESIGNATION: SENIOR INSTRUMENTATION ENGINEER

JOB RESPONSIBILITIES

- Preparing Inspection Reports and Troubleshooting all Systems.
- Inspection and Expediting, Co-Ordination of Electrical & Instrumentation Items / Equipment Such as DCS, PLC, UPS, Analyzers, Field Instruments, Valves Etc.
- Maintenance of Instrument Equipment of Every Leading Manufacturer Supplier Like Fisher-Rosemount, Yokogawa, Honeywell, ABB, Regulators, Transmitters, Vibration Instruments, Control Valves, pH Meters & Gas Analyzers,Etc .
- Metering Systems and Other Electronic and Pneumatic Control Devices.
- Configuring Data Acquisition System for Both Real & Historical Data.
- Reading Process and Instrumentation Drawing (P&ID) of PFD and Designing the Solution.
- Good Understanding upon the Following Design Documents, Operation and Control Philosophies PFD'S and P&ID, Set Points and Alarm Lists, Cause and Effect Charts, Control and Regulation Loops.
- Preparation of Instruments Data sheets, Instrument Index, I/O list.
- Preparation of Cable Schedule Instrument, Typical and Hookup Drawings.

6). ICDS SOLUTIONS (DUBLIN WEST), IRELAND May 2010 to Apr 2013.

DESIGNATION:ELECTRICAL&INSTRUMENTATION ENGINEER.

- Enabling Manual Initiation of ESD Actions Through ESD Push Button all around the plant.
- Monitoring the Fire & Gas Conditions (F&G) by the F&G System
- Automatic Action in Case of F&G Hazardous Conditions Exist by Providing Audible and Visual Alarms for Personnel.

- Responsible for Developing, Installing, Managing and/or Maintaining Equipment which is used to Monitor and Control Engineering Systems, PI System, Generators, other Machinery's and Processes.
- Providing E&I Support to Engineering for All Projects.
- Managing, Specification, Installation and Commissioning of All E&I Equipment for the Site, Maintenance Support.
- Providing Troubleshooting Support for E&I Issues.
- Electrical Safety Management Programme
- Assist in the Development and Maintainability of the Site's Electrical Safety Management Programme.
- Quality & EHS Exception Reporting.
- Monitor / Review / Report on Instrument Failure Trends.
- Assist with the Organizing and Planning of Shutdowns.
- Supervising Installation of Field Instruments, Main and Secondary Cable Tray, Cables Laying and Cable Termination of Instruments.

**7). ARUNODHAYA ELECTRICALS PVT. LTD. (INDIA) -
HYDERABAD -Mar 2007 to Feb 2008. (Internship)**

DESIGNATION: INSTRUMENTATION ENGINEER

JOB RESPONSIBILITIES

- Noticing Values from Control Panels and Meter Readers.
- Handling Day to Day Operations.
- Prepare and Maintain Commissioning Records of Site Observations, Testing Processes and Checklists.
- Monitor Installations, Submittals and Usage of Engineering Tools Adhering to Project and Commissioning Guidelines.

EDUCATIONAL QUALIFICATIONS

- **Postgraduate (PG) in Business Management (Human Resource Management) from Liverpool John Moore University (LJMU), Dublin, Ireland in 2010, (2008-2010).**
- **Bachelor of Technology (B. TECH) in Electronics and Instrumentation Engineering (E.I.E.) from Jawaharlal Nehru Technological University (JNTU) , Hyderabad, India in 2007, (2003-2007).**

TECHNICAL QUALIFICATIONS

- **Programmable Logic Controllers. (PLC).**
- **Distributed Control Systems. (DCS).**
- **Human Machine Interface (HMI). (GE VERSAMAX, SIMATIC PANEL ETC)**
- **Variable Frequency Drive. (ABB,Danfoss,Siemens,Allen Bradley,Etc).**

IT SKILLS (SCADA SOFTWARES)

- **SCADA (AVEVA -In Touch-Wonder ware, In touch), GE Cimplicity, Factory Talk View SE/ME (Rockwell Automation)-Allen Bradley.**
- **SCADA (SIEMENS Win CC), Etc.**
- **MS-OFFICE,WORD,EXCEL,POWER POINT,Etc.**

KEY SKILLS

- **Team Coordination (Working with PLC, Networking, Process Teams)**
- **Communication Skills (Reporting, Training Operators, Documentation)**
- **Communication & Presentation**

Ability to Explain Technical Content Clearly to Teams, Clients, and Non-Technical Stakeholders.

- **Adaptability & Continuous Learning**

Keeps Up with New Technologies, Industry Trends, and Software Tools.

Attention to Detail

Crucial in Engineering Tasks Involving Safety, Precision, and Compliance.

- **PLC, DCS, SCADA, HMI, RTU, FOC, MOV, Field Instruments, Modbus, Profibus, Serial Communication, DNP3, OPC-UA IEC-61850, TCP/IP, Ethernet, Ethernet/IP, VFD'S, CCTVs, Fire Alarms, Security Systems, Etc.**
- **Technical Operation, Supervision.**
- **Equipment Repair & Troubleshoot.**
- **Shutdown & Breakdown Maintenance.**
- **Testing, Evaluating, Modifying and Calibrating Products/Instruments.**
- **Leadership Ability & Team Management.**
- **Problem Solving Ability.**
- **Instruments Installation, Commissioning & Monitoring, Etc.**

PERSONAL DETAILS

- ❖ **Date of Birth: June 28, 1985.**
- ❖ **Passport Number: N 7830076. (Valid up to 17-02-2026).**
- ❖ **Visa Details : Residence Permit.**
- ❖ **LinkedIN Details: <https://www.linkedin.com/in/abdul-khadeer-148630251/>.**
- ❖ **Address: H. No- 4-99/1/E, Santhosh Nagar Colony, Mahbubnagar, Telangana- 509001.**
- ❖ **Languages Known: English, Arabic (Medium), Hindi, Urdu, Telugu.**
- ❖ **Marital Status: Married.**
- ❖ **Nationality: Indian.**

I Hereby Declare that the Information Provided in This Application for Employment is Factual and Correct to the Best of My Knowledge.
