PROJECTS

Hotel Excellent – Financial Analysis Dashboard

Power BI, DAX, Excel

Built an interactive dashboard to analyze 10 years of financial data (2014–2023), covering KPIs such as Total Sales (₹99.7M), Gross Profit, Current Assets, and Liabilities.

Used DAX for custom measures to evaluate profitability, liquidity, and asset-liability trends.

Integrated year-based filters and visual storytelling for actionable insights.

Outcome: Enabled data-driven financial decisions, identified sales drops and recovery trends, and improved visibility into working capital dynamics.

HR Analytics Dashboard – Workforce Insights

Power BI, DAX

Built an interactive dashboard to analyze employee attrition, age distribution, department-wise trends, and job satisfaction across 1,470 employees.

Key metrics included 16.12% attrition rate, 37 average age, and departmental attrition insights (e.g., R&D: 56.12%).

Outcome: Enabled HR teams to identify high-risk segments, improve retention strategies, and support data-driven workforce planning.
