Professional Summary

Highly motivated and results-driven supply chain and automotive operations professional with over 6 years of experience in warehouse management, automotive parts logistics, and facility supervision. Demonstrated expertise in leading end-to-end warehouse and inventory operations for prestigious clients such as Aramco, Hyundai, BMW, and Tarbela Enterprises. Adept at utilizing ERP systems, Oracle, and WPC for managing complex logistics functions, streamlining inventory processes, and enhancing customer satisfaction. Recognized for conducting and passing multiple audits with commendations, driving process improvement initiatives, and training high-performing teams. Committed to ensuring operational efficiency, compliance, and excellence in every role undertaken.

Professional Experience

Warehouse Supervisor

Client: Aramco – Jazan Integrated Gasification and Power Company

Location: Jazan, Saudi Arabia | **Duration:** Dec 2024 – May 2025

- Oversaw daily warehouse functions including receiving, storing, inventory tracking, and dispatching materials in line with Aramco standards.
- Ensured inventory accuracy by conducting cycle counts, audits, and reconciliation using ERP systems.

- Managed a team of warehouse personnel, providing training on operational protocols, safety compliance, and performance improvement.
- Coordinated with supply chain teams to optimize inbound and outbound logistics workflows.
- Developed storage plans and space utilization strategies to enhance operational efficiency.
- Maintained accurate documentation of inventory movements and implemented continuous improvement measures for process optimization.
- Designed and executed cleaning schedules and task assignments to maintain operational efficiency in all designated areas.
- Monitored supply levels and managed inventory of PPE, and equipment through accurate record-keeping.
- Conducted regular inspections and audits of cleaning activities, identifying improvement areas and ensuring corrective action.
- Facilitated communication between management and workforce to resolve issues, foster teamwork, and promote a safe and productive environment.

Parts Advisor

Company: Hyundai Islamabad

Location: Islamabad, Pakistan | **Duration:** Feb 2024 – Sep 2024

- Delivered front-line support to customers and technicians by accurately identifying required parts using VIN through ERP and WPC platforms.
- Provided expert consultation to customers regarding the compatibility, availability, and alternatives for automotive parts.
- Maintained a parts database and ensured efficient processing of material request forms and purchase requisitions.
- Monitored stock levels and coordinated timely restocking with procurement and suppliers to ensure uninterrupted operations.
- Played a pivotal role in a full-scale inventory audit, achieving 98% accuracy and receiving formal recognition for outstanding performance.
- Prepared and managed daily, weekly, and monthly reports on parts sales, inventory movements, and customer queries.

Parts Executive

Company: Dewan Motors (BMW & BMW Motorrad)

Location: Islamabad, Pakistan | **Duration:** March 2023 – Feb 2024

- Specialized in identifying and sourcing OEM BMW and Motorrad parts using the ETK and Oracle systems.
- Developed comprehensive parts quotations, managed special orders, and ensured accurate billing for workshop clients.
- Maintained consistent communication with BMW's global suppliers for procurement of critical or custom parts.
- Oversaw inventory control functions, implemented best practices to avoid overstocking/understocking, and led monthly cycle counts.
- Led a training initiative for junior parts staff, standardizing processes and ensuring effective use of ERP and Oracle tools.
- Spearheaded an internal audit and received commendation for maintaining 100% inventory traceability and efficient documentation.

Warehouse Manager

Company: Tarbela Enterprises

Location: Karachi, Pakistan | **Duration:** Dec 2018 – Sep 2022

- Managed all aspects of warehouse operations, including goods receiving, inspection, binning, picking, dispatch, and record-keeping.
- Developed SOPs for inventory management, improved space utilization, and reduced material loss through better storage practices.
- Executed procurement planning in coordination with vendors using Oracle and material request forms to meet business needs.
- Maintained detailed logs for incoming and outgoing shipments and ensured alignment with procurement and finance departments.
- Trained warehouse staff on safety procedures, use of technology, and best practices for handling and logistics.
