

ADIL SERRI

Digital Transformation Leader | Senior Business & Systems Analyst | System Integration Expert

📍 Open to Relocation in UAE (holds UAE Residency), Saudi Arabia, Qatar, Oman, Kuwait

✉ Email: AdilSerri@Gmail.com | 📞 Phone: +1647-988-2333

Citizenship: Canadian Citizen

"A meticulous business analyst with expertise in translating functional analysis into solutions catering to business requirements."

KEY SKILLS

- ✔ Digital Transformation & IT
- ✔ Modernization
- ✔ System Integration & Interoperability
- ✔ Business Process Optimization & Automation
- ✔ Functional & Non-Functional Requirements Gathering
- ✔ Stakeholder Engagement & Change Leadership
- ✔ Regulatory Compliance & Risk Management
- ✔ Agile Methodologies (Scrum, Kanban)
- ✔ Business Requirements Document (BRD) Development
- ✔ Cloud Security & Data Governance
- ✔ Process Mapping (As-Is & To-Be)

PROFILE SUMMARY

23+ years of experience driving **IT modernization, digital transformation, and system integrations** for **government and enterprise clients**. Proven expertise in **business process optimization, regulatory compliance, and stakeholder engagement**. Successfully delivered **complex digital solutions** for **City of Toronto, Transport Canada, CFIA, Indigenous Services Canada, Bell Media, and more**, leading to **30%+ operational efficiency improvements** and **\$24.5M+ in annual revenue generation**.

Recognized for strategic leadership, driving digital transformation initiatives that enhanced productivity by 35%, reduced manual processing by 40%, and conducted comprehensive STRAs to ensure compliance, mitigate risks, and secure sensitive systems.

EMPLOYMENT OUTLINE

KEY CLIENT ENGAGEMENTS

📅 City of Toronto | Aug 2024 – April 2025 | (Toronto, Ontario, Canada)

🔴 Senior Business & Systems Analyst | System Integration Lead (Consultant via LinkYou Inc., Contract through Tundra Technical Solutions)

💡 **Leading business requirements gathering and system integration efforts for the RACS Modernization Project, a strategic initiative to replace a 25-year-old legacy system. This project enhances municipal permitting, digital payments, GIS, and open data systems, processing 45,000+ permits annually and generating over \$24.5M in revenue. I oversee multiple system integrations, ensuring seamless data interoperability, process automation, and regulatory compliance across various City divisions.**

Key Contributions & Achievements

♦ Leadership in System Integrations & IT Modernization

- ✓ **Led business & technical requirement gathering** for **municipal permitting, GIS mapping, digital payments, and open data integrations.**
- ✓ **Developed Business Requirements Documents (BRDs)** and system design specifications, ensuring seamless interoperability across departments.
- ✓ **Conducted gap analysis & business process reengineering**, defining **'As-Is' and 'To-Be' models** to optimize workflows.

♦ Business & Systems Analysis

- ✓ **Documented functional & non-functional requirements**, including **use cases, system interactions, and data flows.**
- ✓ **Collaborated with cross-functional teams** to define integration strategies that improve data consistency, operational efficiency, and automation.
- ✓ **Ensured compliance** with **AODA, PIA, STRA, and other regulatory requirements** in system development.

◆ **Process Optimization & Digital Transformation**

- ✓ **Redesigned legacy workflows** to enhance permitting efficiency and stakeholder collaboration.
- ✓ **Implemented automation strategies** to improve **user experience and reduce manual processing**.
- ✓ **Facilitated user training & documentation** to support **long-term adoption and technical maintenance**.

◆ **Key Skills Used in This Role**

- ✓ **IT Modernization & System Integrations**
- ✓ **Digital Transformation & Process Optimization**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Functional & Non-Functional Requirements Documentation**
- ✓ **Regulatory Compliance & Risk Management**

 **Transport Canada | Jul 2023 – Mar 2024**

 **Lead Senior Business Analyst Consultant (Consultant via LinkYou Inc.)**

 **Led business analysis and system integration efforts for the Right Touch Air Travel Project, modernizing passenger identity verification and automation to enhance air travel security, efficiency, and compliance with regulatory standards.** Provided consulting services via **LinkYou Inc.**, collaborating with **cross-functional teams** to define business requirements and **optimize passenger flow management**. Spearheaded the **adoption of credential verification technologies** to establish common standards for **seamless identity management** across Canadian airports.

Key Contributions & Achievements

◆ **Leadership & Digital Transformation**

- ✓ **Led business analysis efforts** to modernize **passenger identity verification systems**, ensuring improved security and operational efficiency.
- ✓ **Directed As-Is & To-Be process analysis**, identifying inefficiencies and defining streamlined workflows.
- ✓ **Developed strategic recommendations** for process automation, risk management, and compliance.

◆ **System Integration & IT Modernization**

- ✓ **Defined system integration requirements** for seamless interoperability between identity verification platforms and government systems.
- ✓ **Created functional & non-functional requirements, user stories, and acceptance criteria** for system enhancements.
- ✓ **Provided technical documentation** to support system automation, compliance, and digital transformation.

◆ **Stakeholder Engagement & Regulatory Compliance**

- ✓ **Led collaboration with government & industry stakeholders** to establish standardized credentialing practices.
- ✓ **Ensured compliance with regulatory, security, and risk management frameworks**, aligning with Transport Canada's IT modernization goals.
- ✓ **Advised on emerging technologies** to enhance passenger verification processes across Canadian airports.
- ✓ **Conducted Security Threat and Risk Assessments (STRAs)** to identify vulnerabilities, ensure compliance with government security standards, and develop actionable risk mitigation plans.

◆ **Key Skills Used in This Role**

- ✓ **IT Modernization & System Integrations**
- ✓ **Digital Transformation & Process Optimization**
- ✓ **Regulatory Compliance & Risk Management**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Business & Systems Analysis**

 **Canadian Food Inspection Agency (CFIA) | Apr 2023 – Jul 2023**

 **Senior Business Consultant (Consultant via LinkYou Inc., Contract through S.i. Systems)**

 **Led business consulting and systems analysis efforts to support the Canadian Food Inspection Agency (CFIA) in modernizing regulatory compliance processes, optimizing business operations, and integrating digital solutions.**

Provided consulting services via **LinkYou Inc.**, engaged through **S.i. Systems**, collaborating with cross-functional teams to **enhance operational efficiency** and **streamline compliance reporting**.

Key Contributions & Achievements

◆ Business Process Analysis & Optimization

- ✓ **Led business process analysis and requirements gathering** for **regulatory compliance modernization initiatives**.
- ✓ **Mapped As-Is & To-Be workflows**, identifying process inefficiencies and proposing automation solutions.
- ✓ **Developed business cases & strategic recommendations** for digital transformation and compliance reporting enhancements.

◆ System Integration & Digital Transformation

- ✓ **Defined system integration requirements** for improved data consistency and operational efficiency.
- ✓ **Developed functional & non-functional requirements**, transforming them into user stories and technical specifications.
- ✓ **Provided technical documentation** to support system automation and regulatory compliance.

◆ Stakeholder Engagement & Change Leadership

- ✓ **Collaborated with government stakeholders** to align business needs with IT capabilities.
- ✓ **Led discussions with cross-functional teams** to ensure seamless digital transformation and process automation.
- ✓ **Advised on technology adoption strategies** to enhance regulatory compliance and operational efficiency.

◆ Key Skills Used in This Role

- ✓ **Business Process Optimization & Digital Transformation**
- ✓ **Regulatory Compliance & Risk Management**
- ✓ **System Integration & Interoperability**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Business & Systems Analysis**

 **Indigenous Services Canada | Nov 2022 – Apr 2023 | Information Management Branch, Gatineau, Quebec**
 **Business Analyst Consultant (Consultant via LinkYou Inc., Contract through DALIAN Enterprises Inc.)**

 **Provided business analysis consulting services via LinkYou Inc., engaged through DALIAN Enterprises Inc., to support Indigenous Services Canada in optimizing business processes, defining system requirements, and modernizing applications within the Information Management Branch.**

Key Contributions & Achievements

◆ Business & Systems Analysis

- ✓ **Conducted business requirements elicitation and analysis** for **Options Analysis & Application Modernization** initiatives.
- ✓ **Defined functional & non-functional requirements**, aligning business needs with IT capabilities.
- ✓ **Reviewed database structures, system interfaces, and business process flows** to ensure data consistency and efficiency.

◆ Process Improvement & Digital Transformation

- ✓ **Assessed current business processes**, identifying areas for optimization and automation.
- ✓ **Developed process documentation, data dictionaries, and business use cases** to support modernization efforts.
- ✓ **Mapped As-Is & To-Be workflows**, improving process efficiency and system functionality.

◆ Stakeholder Engagement & Change Leadership

- ✓ **Collaborated with department representatives & IT teams** to ensure business needs were translated into technical requirements.
- ✓ **Provided recommendations for process improvements** to support digital transformation initiatives.
- ✓ **Prepared weekly status reports**, documenting milestones, risks, and key insights for project stakeholders.

◆ Key Skills Used in This Role

- ✓ **Business Analysis & Process Optimization**
- ✓ **Application Modernization & Systems Integration**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Functional & Non-Functional Requirements Documentation**
- ✓ **Data Documentation & Business Case Development**

 **Bell Media - Project Delivery, IT | Jan 2022 – Apr 2022 | Toronto, Ontario**

📌 Senior Business Analyst (Consultant via LinkYou Inc., Contract through Eagle Professional Resources)

💡 Provided business analysis consulting services via LinkYou Inc., engaged through Eagle Professional Resources, to support Bell Media's Digital Intelligence initiative for Media Sales. Focused on modernizing audience management and CRM analytics for strategic digital marketing.

Key Contributions & Achievements

◆ Business & Systems Analysis

- ✓ Gathered and analyzed business requirements for **strategic audience management and digital intelligence systems**.
- ✓ Defined **functional & non-functional requirements**, ensuring alignment between business needs and digital marketing goals.
- ✓ Mapped **As-Is & To-Be workflows**, identifying process inefficiencies and optimizing customer engagement strategies.

◆ Digital Intelligence & CRM Analytics

- ✓ Designed **CRM analytics and digital audience segmentation models** to enhance data-driven marketing.
- ✓ Collaborated with **marketing and technical teams** to define user stories and acceptance criteria.
- ✓ Developed **data visualization dashboards** to improve decision-making for digital marketing campaigns.

◆ Agile Project Management & Stakeholder Engagement

- ✓ Planned and led **Agile development** using **JIRA and Confluence** to enhance project visibility and collaboration.
- ✓ Facilitated **stakeholder workshops**, ensuring alignment on digital intelligence requirements.
- ✓ Managed **change requests and incident tracking** using **ServiceNow**, ensuring timely issue resolution.

◆ Key Skills Used in This Role

- ✓ Digital Intelligence & CRM Analytics
- ✓ Business Analysis & Process Optimization
- ✓ Agile Project Management (JIRA & Confluence)
- ✓ Stakeholder Engagement & Change Leadership
- ✓ Functional & Non-Functional Requirements Documentation

📅 Bell Canada | Jun 2021 – Sept 2021 | Toronto, Ontario

📌 Senior Business Analyst (Consultant via LinkYou Inc.)

💡 Provided business analysis consulting services via LinkYou Inc. to support Bell Canada in enterprise-wide system upgrades and data conversion for the Bell Affiliate Solution Stack (BASS) Platform. Focused on functional capability enhancements, technical connectivity, and security compliance.

Key Contributions & Achievements

◆ Business Analysis & Systems Integration

- ✓ Gathered and analyzed business requirements for **data conversion and system upgrades** within the **BASS Platform**.
- ✓ Defined **functional & non-functional requirements**, ensuring seamless integration with legacy systems.
- ✓ Reviewed **business requirements, functional specifications, and deliverables** for enterprise-wide system consolidation.

◆ Data Conversion & System Upgrades

- ✓ Led **data conversion strategies**, ensuring accuracy and consistency during system upgrades.
- ✓ Collaborated with **IT partners** on functional capabilities, technical connectivity, and security compliance.
- ✓ Developed **technical documentation** to support data migration and system integration efforts.

◆ Stakeholder Engagement & Cross-Functional Collaboration

- ✓ Worked closely with **business SMEs, technical specialists, and project leadership** to define requirements.
- ✓ Facilitated **cross-functional communication** to ensure alignment between business needs and technical capabilities.
- ✓ Provided **decision-making support** by translating business requirements into technical design specifications.

◆ Key Skills Used in This Role

- ✓ Business Analysis & Systems Integration
- ✓ Data Conversion & System Upgrades

- ✓ **Functional & Non-Functional Requirements Gathering**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Technical Documentation & Process Optimization**

📌 **Founder & Principal Consultant | LinkYou Inc.**

📅 **Dec 2010 – Present | Toronto, Ontario (Hybrid/Remote)**

💡 **Founder & Principal Consultant of LinkYou Inc., an IT consulting firm specializing in system integration, IT modernization, and digital transformation for government and enterprise clients.**

Through **LinkYou Inc.**, I provide **business analysis, digital transformation consulting, and IT modernization solutions** to optimize operational efficiency, enhance regulatory compliance, and streamline business processes.

Key Focus Areas & Services

- ✓ **IT & Digital Transformation Consulting** – Supporting clients in **business process optimization, regulatory compliance, cybersecurity, and system integrations.**
- ✓ **System Integration & Interoperability** – Designing **API integrations, data mapping, and enterprise system interoperability.**
- ✓ **Business & Systems Analysis** – Leading **requirements gathering, business process modeling (BPMN, UML), and stakeholder engagement.**
- ✓ **Cloud Security & Data Governance** – Ensuring compliance with **AODA, PIA, STRA, and other regulatory frameworks.**
- ✓ **Digital Marketing & Business Solutions** – Supporting clients through **web solutions, recruitment services, and digital strategy consulting** via **LinkYou.ca.**

Notable Consulting Engagements

- 📌 **City of Toronto (Contract via Tundra Technical Solutions)** – Lead **System Integrations** for the **RACS Modernization Project**
- 📌 **Transport Canada** – Lead **Senior Business Analyst** for the **Right Touch Air Travel Project**
- 📌 **Canadian Food Inspection Agency (CFIA)** – Senior **Business Consultant** for **Regulatory Compliance Modernization**
- 📌 **Indigenous Services Canada** – **Business Analyst Consultant** for **Application Modernization**
- 📌 **Bell Media & Bell Canada** – Senior **Business Analyst** for **Digital Intelligence & CRM Analytics**

Additional Projects Under LinkYou Inc.

- ✓ **2Sooq Classified Website and App** – Built and launched a scalable online marketplace connecting buyers and sellers.
- ✓ **Digital Marketing & Social Media Campaigns** – Managed campaigns for clients like **Grammarly and Ivy Exec.**
- ✓ **Cloud Migration Projects** – Led cloud migration projects for enhanced scalability and security.
- ✓ **Web Solutions & Recruitment Platforms** – Developed and managed platforms including **DubaiRecruitment.net** and other client projects listed on **LinkYou.ca.**

◆ **Key Skills Used in This Role**

- ✓ **IT Modernization & System Integrations**
- ✓ **Digital Transformation & Process Optimization**
- ✓ **Business Analysis & Systems Design (BPMN, UML, API Design)**
- ✓ **Cloud Security & Data Governance**
- ✓ **Stakeholder Engagement & Change Leadership**

📌 **Senior Business Consultant (Consultant via LinkYou Inc.)**

📅 **Time Warner Telecom | Jun – Sept 2013 | Denver, CO, USA**

💡 **Provided business consulting services via LinkYou Inc. to support Time Warner Telecom in integrating fraud management systems, optimizing business processes, and enhancing security compliance. Focused on business requirements gathering, system integration, and stakeholder collaboration.**

Key Contributions & Achievements

- ◆ **Fraud Management & Security Risk Mitigation**
 - ✓ **Led the integration of a custom fraud management system**, ensuring enhanced fraud detection and security monitoring.
 - ✓ **Conducted user acceptance testing (UAT) and analyzed system functionality**, identifying areas for optimization.
 - ✓ **Developed fraud prevention policies and compliance procedures**, aligning with regulatory and security standards.

- ◆ **Business Analysis & Systems Integration**
 - ✓ **Gathered and analyzed business requirements** for fraud management system integration and process improvements.
 - ✓ **Mapped As-Is & To-Be workflows**, optimizing fraud investigation processes and system interoperability.
 - ✓ **Defined functional & non-functional requirements**, ensuring seamless integration with existing systems.
- ◆ **Stakeholder Engagement & Cross-Functional Collaboration**
 - ✓ **Collaborated with internal stakeholders** to **analyze, document, and validate business and system needs**.
 - ✓ **Facilitated cross-functional workshops** to ensure alignment on fraud detection requirements and system enhancements.
 - ✓ **Provided strategic recommendations** for fraud risk management and security compliance improvements.

◆ **Key Skills Used in This Role**

- ✓ **Fraud Management & Security Risk Mitigation**
- ✓ **Systems Integration & Interoperability**
- ✓ **Business Analysis & Requirements Gathering**
- ✓ **Stakeholder Engagement & Change Leadership**
- ✓ **Functional & Non-Functional Requirements Documentation**

PRIOR WORK HISTORY

2012: Shaw Communications, Inc. – Calgary as Senior Fraud & Security Business Analyst – (Contract with LinkYou Inc.)

Installed a new fraud vendor system using an Acceptance Test Plan.

2010 – 2012: Telus Communication – Toronto as Fraud & Security Business Analyst – (Contract with LinkYou Inc.)

Sept 2009 – Dec 2010: Rogers Communication (Toronto)

✦ **Account Receivables Credit Operation Consultant | Credit Operation Management Office**

📅 **Rogers Communication | Sept 2009 – Dec 2010 | Toronto, Ontario**

EDUCATION CREDENTIALS

Cybersecurity Boot Camp

✦ **University of Toronto | Toronto, Ontario**

📅 **May 2023**

Specialization in Cloud Security, Ethical Hacking, Risk Management, and Digital Forensics.

- **Networking & Systems Administration:** Packet Analysis, Wireshark, Windows & Linux Hardening, Secure Network Design.
- **Cybersecurity & Ethical Hacking:** Kali Linux, Metasploit, Burp Suite, Identity & Access Management.
- **Cloud Security & Risk Management:** Risk Assessment, Cryptography, Vulnerability Analysis, Enterprise Security Management (ESM).
- **Penetration Testing & Digital Forensics:** Penetration Testing, Digital Forensics Methods, Vulnerability Assessment.

Bachelor of Commerce in Entrepreneurial Management

✦ **Royal Roads University | Victoria, BC**

📅 **Jun 2018**

Specialization in Strategic Planning, Business Analysis, and Digital Transformation.

- **Entrepreneurial Management & Leadership:** Strategic Planning, Decision-Making, and Change Management.
- **Business Analysis & Digital Transformation:** Business Process Optimization, Requirement Gathering, and Digital Strategy.

Certificate in Business Analysis

✦ **University of Toronto | Toronto, Ontario**

📅 **2013**

Focused on Business Requirements Gathering, Functional Analysis, and Process Modeling.

- **Business Analysis & Requirement Gathering:** Eliciting Requirements, Gap Analysis, and Solution Documentation.
- **Process Modeling & Functional Analysis:** BPMN, UML, Use Case Modeling, and Process Optimization.

PROFESSIONAL AFFILIATIONS:

IIR Conference | Billing & Revenue Assurance Strategies

✦ **Middle Eastern, Gulf & North African Operators | Dubai, UAE**

📅 **Nov 2006**

Speaker: "Identifying & Implementing Strategies to Minimize Escalation of Prepaid Fraud"

- Presented effective fraud prevention strategies to minimize prepaid fraud risks in the telecom industry.
 - Shared insights on fraud detection techniques, including data analytics and automated monitoring systems.
-

IIR Conference | Fraud & Risk

📍 London, UK

📅 Mar 2007

Speaker: "Examining How to Optimize Your Fraud Detection & Monitoring Strategies"

- Discussed advanced fraud detection methodologies for telecom operators, focusing on real-time monitoring and predictive analytics.
- Highlighted risk mitigation strategies and compliance requirements for revenue assurance and fraud management.

TECHNICAL PROFICIENCY:

Cloud Platforms & Security

- **Azure, AWS** – Cloud Infrastructure, Cloud Security, Identity & Access Management
 - **Cloud Security & Compliance** – Risk Assessment, Enterprise Security Management (ESM), Cryptography
 - **Security Threat & Risk Assessments (STRA)** – Vulnerability identification, threat modeling, risk mitigation planning, compliance reporting
-

Cybersecurity & Ethical Hacking

- **Cybersecurity Tools** – Kali Linux, Metasploit, Nessus, Hashcat, Burp Suite, Wireshark
 - **Penetration Testing & Digital Forensics** – Vulnerability Assessment, Penetration Testing, Digital Forensics Methods
-

Business Analysis & Process Modeling

- **Business Analysis Tools** – JIRA, Confluence, ServiceNow
 - **Process Modeling & Documentation** – BPMN, UML, Use Case Modeling, Data Flow Diagrams
 - **Business Requirements Documentation (BRD)** – Functional & Non-Functional Requirements, Use Cases, User Stories
-

System Integration & Data Governance

- **System Integration & API Development** – API Design, Data Mapping, Enterprise System Interoperability
 - **Data Governance & Compliance** – Privacy Impact Assessment (PIA), Security Threat & Risk Assessment (STRA), AODA Compliance
 - **Data Visualization & ETL Tools** – Data Modeling, Data Flow Mapping, ETL Processes, Dashboard Development
-

Project Management & Collaboration

- **Agile Project Management** – JIRA, Confluence, Trello, Scrum, Kanban
 - **Collaboration & Communication** – Microsoft Teams, Slack, Zoom, Miro
-

Programming & Databases

- **SQL & Databases** – SQL Server, Oracle, MySQL, Data Warehousing
 - **Programming Languages** – Python (Data Analysis), Shell Scripting (Automation)
-

Awards & Recognitions

- **Top Collector Award – Rogers Communication (Aug 2010)** – Recognized for achieving **100% quality in customer handling**.
- **Speaker at IIR Conference – Billing & Revenue Assurance (Dubai, 2006)** – Presented "**Identifying & Implementing Strategies to Minimize Escalation of Prepaid Fraud.**"
- **Speaker at IIR Conference – Fraud & Risk (London, 2007)** – Presented "**Examining How to Optimize Your Fraud Detection & Monitoring Strategies.**"
