

Hossam Mohamed El-Sherbiny

Lead WL Log Analyst / Geophysicist

Mobile: +966 555 183 274

Email: elsherbinyh29@yahoo.com

Professional Summary

Experienced Log Analyst and Geophysicist with over 25 years of expertise in well logging, formation evaluation, and petrophysical data interpretation. Proficient in the use of industry-standard tools and software, including KAPPA Emeraude and Sondex PLT tools. Known for producing high-quality data analysis reports for clients such as ARAMCO and ensuring data accuracy, integrity, and compliance.

Work Experience

- Using Sondex Tools which are called Production Logging Tools (PLT), and (MAPS-Multi-Array Prob Services).
- Using Spartec Tools which are called Production Logging Tools (PLT)
- Using Century Geophysical Corp. Tools which are called water Logging Tools.
- Analyzing the well info using Kappa software (Emeraude) and delivering a full report to the client.
- Experience in well integrity interpretation (MTDE, EPDT, MIT, and MFC) Using GOWELL software (ViewWell)
- Experience in preparation of Performance & other reports monthly.
- Coordinating with the engineer on site when there is a problem with the data acquired.
- Getting the raw data acquired from the field and do the analysis, and make sure that the data is clean and correct.
- After the analysis, the reporting takes place, with a full report written and well finished, I submit it to Aramco Data Services System (DSS) for their reference.
- I am responsible for Geoscience Data Management Center in NESR Company.
- Following up with Aramco production engineer for any inquiry.
- Attending Aramco meeting regarding any data submitted before.

Education:

- Ph.D. in Geophysics specific (logging), Geophysics department, Faculty of Science, Cairo University.
- M.Sc. in Geophysics specific specialization logging, Geology Department, Faculty of Science, Mansoura University.
- B. SC. In Geophysics, Geology Department, Faculty of Science, Mansoura University, 1989.
- Certificate from FORTH VALLEG COLLEGE completes the accreditation course (Higher National Training Event) SCOTLANDE QULIFICATION March 2008.

Technical & Safety Courses:

- Advanced production Logging Interpretation and the use of Emeraude Software (KAPPA OCT. 2009).
- Horizontal Well Production Logging Interpretation and the use of Emeraude Software (KAPPA APR. 2013).
- Completed ANTARES Log Analyst Training course with the following content: Introduction in GeoBase Software, Raw data quality evaluation and reprocessing in GeoBase Presentation and post processing modules Pulsed Decay Neutron Instrument and curve interpretation PDN modeling and borehole corrections (2019).
- Training in interpretation on multi-finger caliper data (GOWELL-2019)
- Training in interpretation on enhanced pipe detection tools (GOWELL-2020).
- Defensive Driving and Company Vehicle safety police
- Personal Protective Equipment
- Back injury and proper lifting technique
- STOP
- Chemical hazards communication and (MSDS)
- First Aid and CPR Course
- Fire Fighting
- H2S

Professional Experience

- **Lead Wireline Log Analyst** - National Petroleum Company (NESR), Dammam, Saudi Arabia Jun 2009 – Present. Analyze data using KAPPA Emeraude and produce detailed reports. Coordinate with field engineers and ensure data quality control. Submit results and reports online to ARAMCO and attend technical review meetings.
- **Petrophysicist** FASCO Drilling Company, Dammam, Saudi Arabia Aug 2008 - May 2009 - Performed formation evaluation and petrophysical interpretation tasks.
- **Egyptian Petroleum Research Institute** – Exploration Dept. Dec 1993 - Worked in geophysical exploration activities.

Short Courses:

1. Production Logging.
2. Integration of Rocks, Log and Test Data.
3. Well Log Interpretation.
4. Reservoir Characterization.
5. Exploration and Production Process Basics.
6. Basic Well Log Analysis.
7. Basic Drilling, Completion and Work over Operations.

8. Introduction to Seismic Methods.
9. Fundamentals of Subsurface Mapping.
10. Introduction to Seismic Methods

Computer:

- I have written several programs useful for my research including statistical, mathematical and graphical, I am very familiar with surfer, Graphic soft wares. I am also familiar with many Geological Soft wares especially those are dealing with processing, interpretation, and modeling of Geophysical data. In addition, I am familiar with Microsoft office (Microsoft word, power point presentation, Excel, and others).
- Software Proficiency. *Warrior sondex, Kappa EMERUDE 2.4, 2.6, 5.4 and 5.5, AVID INews, Adobe Photoshop, Microsoft Office (Word, Excel, Access, Power Point, FrontPage, Outlook and Visio).*

Languages

Arabic: Native

English: Fluent

Additional information

Date of Birth: 13/10/1965
Family situation: Married and have 3 children
Nationality: Egyptian
ARAMCO ID: 8906422

Best Regards

Hossein
