PROFESIONAL SUMMARY

A highly skilled and detail-oriented **Professional Draftsman** with over seven years of experience in Architectural and MEP design, gained through projects in **Saudi Arabia** and **Qatar** and **Sri Lanka**. Proficient in industry-leading design software, including **AutoCAD (2D & 3D)** and **Revit (Architectural & MEP)**, with a strong ability to develop innovative and precise designs that meet industry standards. Adept at managing multiple projects simultaneously while fostering strong professional relationships to drive project success. Dedicated to delivering high-quality work with integrity, commitment, and excellence, I strive to contribute innovative and creative ideas that enhance company objectives. I am actively seeking a position where I can leverage my expertise, education, and skills to support organizational growth and exceed expectations.

PROFESSIONAL EXPERIENCE

AutoCAD Draftsman

Oct2024-Till Date

Construction Land for Contracting .Co – Dammam Saudi Arabia

As an AutoCAD Draftsman at Construction Land for Contracting Co., I am responsible for preparing accurate technical drawings and construction documentation for various projects. I collaborate with engineers, architects, and project teams to ensure precise designs and compliance with industry standards.

Job Responsibilities

- Produced technical drawings by developing detailed 2D and 3D CAD designs for architectural, structural, and MEP projects.
- Created construction documents including floor plans, elevations, sections, and technical details to support project execution.
- Revised and updated drawings based on feedback from engineers, architects, and project managers.
- Ensured compliance with industry standards, local building codes, and project specifications in all drawings.
- Conducted site measurements to gather accurate data and ensure precise representation in design plans.
- Collaborated with project teams, including architects, engineers, and contractors, to align designs with project requirements.
- Optimized material use by performing calculations on material quantities, dimensions, and structural constraints.
- Maintained drawing records by organizing and archiving technical drawings, revisions, and project documents for future reference.

MEP AutoCAD Draftsman

Mar2019-Dec2023

AL RAWNAQ CONSTRUCTION WLL – Doha Qatar

Al Rawnaq Construction WLL is a mid-sized MEP contracting company based in Doha, Qatar. I was responsible for overseeing the complete MEP design and drafting tasks for the company's ongoing projects.

Job Responsibilities

- Created precise and detailed technical drawings for mechanical, electrical, and plumbing (MEP) systems using AutoCAD, ensuring accuracy and compliance with project specifications.
- Developed layout drawings, schematics, and as-built drawings, incorporating modifications as per project requirements.
- Analyzed and interpreted architectural and structural drawings to produce MEP designs that align with project objectives and industry standards.
- Identified and specified materials and equipment necessary for MEP installations, ensuring the feasibility and functionality of the design.
- Ensured that all MEP designs complied with local authorities' regulations, building codes, and safety standards.
- Conducted site surveys to verify actual site conditions and measurements, cross-checking them against MEP IFC drawings to ensure accuracy and proper implementation.
- Collaborated closely with clients, project managers, and engineers to understand project requirements, address technical concerns, and provide regular updates on design progress.

- Assisted in resolving design conflicts by reviewing and analyzing subcontractor shop drawings, ensuring seamless integration of MEP systems.
- Addressed and responded to inquiries and concerns from clients, consultants, and project stakeholders regarding MEP designs and implementation.
- Maintained comprehensive records of all drawings, revisions, and project documentation, ensuring proper documentation for future reference and compliance audits.

AutoCAD Draftsman
LEX DUCO PVT, LTD – *Sri Lanka*

May2016-Dec2018

As an AutoCAD Draftsman at Lex Duco Pvt. Ltd., I played a key role in preparing precise architectural drawings and technical documentation for design and build projects. I worked closely with architects, engineers, and construction teams to ensure accuracy, compliance, and seamless project execution.

Job Responsibilities

- Developed both rough sketches and detailed technical drawings using CAD software.
- Created floor plans, elevations, sections, and architectural details for residential and commercial projects.
- Incorporated feedback and revisions from architects, engineers, and stakeholders to refine designs.
- Performed calculations for material requirements and weight limitations to optimize structural integrity.
- Communicated effectively with architects and engineers, integrating their insights into project drawings.
- Produced comprehensive construction drawings, including dimensions, materials, and construction methods.
- Ensured all drawings adhered to building codes, industry standards, and regulatory requirements.
- Conducted site visits to gather measurements and assess project conditions for design accuracy.
- Identified potential design challenges and collaborated with the team to develop effective solutions.
- Maintained organized records of drawings, revisions, and project documentation for future reference.

EDUCATION

Diploma in AutoCAD Draftsmanship at *The United Kingdom Association of Professionals*

Certificate in Revit at *The Collage of Architectural Engineering Technology – *Sri Lanka**

Certificate in MEP Drafting Using AutoCAD at *The Collage of Architectural Engineering Technology – *Sri Lanka**

SKILLS

- | | |
|--|---|
| • AutoCAD (2D & 3D) Proficiency | • Revit (Architectural & MEP) |
| • Architectural Drafting | • MEP Drafting & Coordination |
| • Technical Drawing & Detailing | • Building Codes & Regulations Compliance |
| • Site Survey & Measurement | • Material & Equipment Specification |
| • Design Review & Conflict Resolution | • Project Documentation & Record Keeping |
| • Collaboration & Stakeholder Coordination | • Problem-Solving & Attention to Detail |
