

ASSAN SHAHIL P V

PROJECT ENGINEER

Engineer with 8 years of experience in Management, Planning, Scheduling, Estimation, Costing and 2D-3D Designing of industrial, commercial, and residential projects. Currently working at ALAMCO SPACEWORKS in Riyadh, specialized in turnkey interior fit-out and joinery. Seeking the best position which could use my extensive experience and skills, along with developing them with you.

KEY RESPONSIBILITIES/DUTIES

- **Project Planning & Execution:**
 - Develop comprehensive project plans, including scope definition, detailed cost estimates, resource allocation, realistic schedules, communication strategies, and risk management plans etc
 - Working with the QA/QC team when overseeing quality control throughout all construction phases of the assigned package.
- **Problem Solving & Issue Resolution:**
 - Identify and address issues related to construction delays, technical challenges, or resource shortages.
 - Develop and implement contingency plans to manage unforeseen challenges effectively
- **Project Programme & Schedule:**
 - Develop and maintain detailed project programme and schedules, incorporating MEP, civil, and architectural finishing works.
 - Create work breakdown structures (WBS) and ensure logical sequencing of tasks and dependencies.
 - Set key milestones and monitor progress against baseline schedules.
- **Documentation, Progress Monitoring & Reporting:** :
 - Preparing, Quoting, and Tendering of submittals like Estimate (BOQ), Requests for Quote (RFQ), Requests for Information (RFI), Method of Statment (MOS), Programme Schedule, Procurement Log etc.
 - reparation and administration of contracts with vendors and subcontractors, ensuring all parties comply with contractual obligations
 - Track project progress using planning tools like Primavera P6 or MS Project.
 - Generate weekly and monthly progress reports, including critical path analysis and resource allocation updates.
- **Budget Development & Management:**
 - Prepare, manage, and monitor project budgets, providing accurate financial forecasting and identifying cost-saving opportunities.
 - Conduct cost risk analyses and incorporate contingencies in estimates to accommodate uncertainties, providing project teams with clear, risk-adjusted financial perspectives.
