- Team Leadership & Stakeholder Collaboration

PROFESSIONAL EXPERIENCE

Al Hoshani Group of Companies, Riyadh, Saudi Arabia

Accounting Manager | Jan 2020 – Present

Deputy Manager Accounting | Jun 2014 – Dec 2019

- - Prepare internal periodic performance reports for each business entity, including analytical reports to support management decision-making.
- Perform data inspection, transformation, and modelling to extract actionable insights using financial modelling and KPIs.
- Execute the month-end closing process at profit centre, company, and group levels, ensuring accuracy and compliance with accounting standards.
- Analyse P&L using key KPIs: revenue growth, gross profit margin, net profit, operating income, inventory turnover, production efficiency, CSAT, NPS, CAC.
- Conduct detailed statement of financial position analysis with ratios including current, quick, AR/AP turnover, debt-to-equity, ROE, working capital, and asset turnover.
- Verify inter-company transactions for accuracy and reconcile discrepancies.

- Develop and deliver custom financial reports based on stakeholder needs.
- Lead budgeting and forecasting aligned with organizational goals and coordinate with cross-functional teams to ensure accuracy.
- Prepare cash flow projections using historical AR/AP data; manage liquidity and funding requirements.
- Ensure audit compliance and manage filing of Zakat, VAT, and WHT returns in accordance with ZATCA.
- Coordinate audits and tax assessments with relevant authorities.
- Manage full lifecycle of physical assets, including acquisition, tracking, maintenance, depreciation, and disposal.
- Track KPIs such as MTTR, MTTF, AFR, AOR, and OEE to improve asset performance.
- Conduct periodic and surprise stock counts; monitor inventory KPIs including turnover, forecast accuracy, fill rate, shrinkage, and order cycle time.
- Evaluate feasibility of projects involving machinery acquisition and operations using financial ratio analysis and capacity assessment.
- Design and implement systems including a bank refinancing system, VAT management system, and interactive dashboards.
- Collaborate across departments (Production, Sales, HR, Logistics, Legal) to align financial strategies with business goals.
- Lead and mentor the finance team to ensure high performance and accurate, timely reporting.

Shahbaz Garments (Pvt) Ltd. (Midas Safety), Karachi, Pakistan Deputy Manager Finance | Jan 2011 – Mar 2014 Assistant Manager Finance | Jan 2010 – Dec 2010 Senior Accounting Officer | Jan 2009 – Dec 2009 Accounting Officer | Jan 2007 – Dec 2008 Accounting Assistant | Nov 2004 – Dec 2006

- Supervised SAP FI module functions including master data management (MDM), recurring entries, periodic transactions, bank reconciliation, accounts payable (AP), and accounts receivable (AR).
- Managed daily banking operations including LC payments, post-dated cheques, loan repayments, and disbursements to suppliers and service providers.
- Prepared and monitored projected vs. actual cash flow statements, enabling precise forecasting and financial planning.
- Processed executive payroll, ensuring accurate tax calculations and timely government filings for income tax and related statutory deductions.
- Administered tax compliance across sales tax, income tax, advance tax, and payroll-related taxes.
- Managed insurance coverage for inventory, including quarterly valuations and annual renewals; liaised with banks for compliance requirements.
- Prepared profit & loss statements for two business units, reporting results to senior management for consolidation.

- Provided support during external audits, including coordinating confirmations, interest calculations, bank reconciliations, and inventory verification.
- Ensured full compliance with legal and regulatory frameworks through meticulous documentation and internal controls.
- Delivered reliable and timely financial reporting that supported strategic decisions and enhanced audit readiness.
- Applied best practices in treasury and tax management to maintain liquidity, accuracy, and transparency in financial processes.
