Member of the World Safety Organization – Certified Safety Specialist

Skills

- Over 20+ years' experience within the HSE field.
- Technically efficient in the oil and gas industry.
- Excellent co-operation and leadership abilities.
- Dynamic Safety record and ability to engage all members of the team to train and promote safety aboard past and present projects.

As my CV indicates I have a unique, passionate HSE skill set. Professionally I meet challenges and new responsibilities with enthusiasm. I am mature, honest and intelligent, with great motivation and dedication towards safety, training, and all HSE related aspects. I am completely confident of my skills and attributes. My exceptional understanding for the need of outstanding, effective safety leadership and training ensures the demand to meet safety requirements for employers and clients.

Recommendations

References are available – please request

"Larry is the very knowledgeable at his job and pays close attention to detail. He is also a very talented communicator and is excellent at team relationships. Larry is well respected by his supervisors and co-workers. He will be an asset in any operation." March 6, 2012 Randy Nevill, Sr. Tool Pusher, Pride International

"Larry is a highly experienced professional with strong capabilities both in HSE and Competency management. Larry has proven abilities in implementing and maintaining safety and training standards across multi-national and multi-cultural groups. His hands-on and dedicated approaches are popular, consistent and effective. Larry is an asset in HSE and Training." November 3, 2011 Anita van Prooyen, Manager, HR Field Support, Pride International

"Larry is highly dedicated and competent in his field. He continues to raise the bar and constantly shows he is capable of any project or task set before him. His experience in the oil & gas industry, his ability to lead, and his professionalism make him an asset to any team." October 18, 2011 Amy Eissler, Technical Training & Competency Supervisor, Enasco plc. (Formerly Pride International)

"I worked with Larry for approximately 2 years and he is a hard working diligent person. Larry's determination to getting the job done was a real strength which held our operations in good stead with the client. His ability to maintain the crews focus towards safety was an outstanding attribute during the difficult times of culture differences. I would recommend Larry to any position within the HSE field due to his clear focus of producing results." October 18, 2011 Mick Allen, HSE&D Supervisor, Enasco plc. I managed Lawrence "Larry" at Enasco plc. (Formerly Pride International)

"Larry is highly competent in both HSE and Training/Competency areas, Larry is a hard worker with many years of experience in oil & gas business, Larry is capable to lead and manage projects and always deliver in a timely and professional manner." October 15, 2011 Thomas Brunet, Technical Training & Competency Manager, Enasco plc. I managed Lawrence at Enasco plc. (Formerly Pride International)

"Larry has a management level experience; he is fully competent as the lead in Training and Safety onboard. Pro-active and a very nice person to work with, he is fully dedicated and has done a great job on a lot of rigs. I recommend Larry without any doubt." October 9, 2011 Pierre Brunet, Regional Training & Development Supervisor, I managed Lawrence at Enasco plc. (Formerly Pride International)

"Very good Safety Officer, leads by example, great attitude, can get right into the heads of the people to get them thinking 100% about what safety is, he can get along with anyone and is a very good asset when you start up an operation in a new country and with new crews. I can highly recommend the man to anyone." October 6, 2011 Barry Summers, Rig Manager, Pride International I managed Lawrence indirectly at Enasco plc. (Formerly Pride International)

Shahig {temporary sub-contract to Aramco Saudi Arabia} April 2012 – May 2012:

HSE AUDITOR

Duties: To Audit and inspect Aramco contracted rigs for HSE compliance during a specific project.

Ensco {formerly Pride International} June 1996 – March 2012:

VARIOUS POSITIONS & PROMOTION

I was employed with Ensco from June 2004 until March 2012; working on different vessels as an RSTA (Rig Safety & Training Advisor) May 2010, I was transferred into the position of RTS (Rig Training Specialist) on board deep water drillship Mendocino. February 2011, as a result of my exceptional record of achievement, I was promoted to TTC Facilitator (Technical Training and Competency) based out of corporate office in Houston Texas USA. March 2012, I resigned from Ensco in 2012 as a personal choice.

February 2011 – March 2012:

TECHNICAL TRAINING & COMPETENCY FACILITATOR (TTC)

Ensco {formerly Pride International Ltd} – Corporate office: Houston TX

Duties: Ensure the competency program is implemented throughout Ensco's offshore fleet as per Competency Management System (CMS) requirements. Promote the competency and training programs. Audit all in house and outside training, including management support for RSS & RTS positions. Maintain an up-to-date status of the CMS. (Competency Management System) Hold a supervisory role in the development of the crew competency program and training programs.

May 2010 – February 2011:

RIG TRAINING SPECIALIST {RTS}

Ensco {formerly Pride International Ltd} - Deep Ocean Mendocino Drillship

Duties: Promote and do hands on training with all members of the team, schedule, and audit all in house and outside training aboard the drillship Mendocino. Take a major role in the development of the rig crew competency program. Assist supervisors and mentors in understanding of requirements of CMS, assist with developing proper assessment techniques and ensure competency assessments are evaluated according to the details within the respective competency module - Identify training needs and develop training plans for all crews. Implementation of training plans. Take an advisory role for the training on board the unit. Develop and maintain on-board training and reporting, including follow up tracking. Anticipate training requirements to ensure high level of certification/compliance. Ensure personnel certifications are kept up to date in Skills XP, track missing certifications and liaise with Skills XP Administrators to include in Skills XP.

June 1996 - May 2010:

RIG SAFETY TRAINING ADVISOR {RSTA}

Ensco {formerly Pride International Ltd} - Pride Montana Jack -up & Pride North America Semi- Submersible {Africa, Saudi Arabia}

Duties: Ensure that for all non-routine operation and before beginning shifts that each Supervisor performs a pre job or toolbox meeting. Chair and facilitate safety meetings; advise as a Department Head on all HSE issues. Attend monthly operation manager meeting; assist as a Department Head informing base operations of all HSE issues. Ensure that the audit plan is respected and followed by the Head of Departments. Assist the PIC to ensure the full application of the QSMS; also assist in accident investigation and follow ups. Check the applicability of the QSMS, and propose modification if needed. Work with the PIC and Heads of Departments to process the unsafe act and conditions report cards. Train and motivate the crew to report all unsafe acts or conditions (including the Senior Staff)
