Deputy Manager at Export Processing Zones Authority

As the operational/administration in charge of the Export Processing Zone Authority (EPZA), my primary responsibility is to ensure the proper implementation of EPZA programs, regulations, and related activities. Additionally, I oversee EPZA's projects and provide feedback and advice to the Board of Directors and other stakeholders. Ensuring that the EPZA complies with government regulations is essential, and I play a key role in ensuring that happens.

Skills & Strengths

- In-depth knowledge of departmental & customs rules
- Strong analytical and investigative abilities
- Good communication skills
- pressure and stress handling
- Excellent communication and interpersonal skills
- Proficient in Microsoft Office Suite
- Fluent in English.Urdu (written and spoken)

Experience - 12 years

Deputy Manager(BPS-17)

EXPORT PROCESSING ZONES AUTHORITY - Gujranwala, Pakistan | Jan 2013 - Apr 2024

- As the Administrator in charge, I am responsible for ensuring that all departmental rules and regulations are followed. Therefore, I am responsible for investigating any cases that may arise due to violations of these rules.
- To investigate any import/export-related irregularities or violations of customs rules, I analyze the situation, gather evidence, and interview witnesses. Then, I decide on the outcome and necessary corrective measures and report findings to authorities.
- Import gate pass, export gate pass, and N.O.C issuance for export goods with monitoring of import/export activities. Liaison with regulatory authorities and the Customs department for customs rules and regulations updates.
- We collect taxes and charges, file export documents with customs, and complete export paperwork for banks. We also assist with other import/export tasks.
- Performing a monthly audit of the import and export activities of units operating within the zone, ensuring compliance with all regulations and standards. Implementing robust security measures to maintain the overall safety and security of the zone. Ensuring timely payment of presumptive tax, EPZA service charges, and other export-related dues. Preparing accurate MIS reports related to import/export activities and submitting the necessary documents to relevant government departments.
- Ensuring complete inspection of import and export consignments, implementing and monitoring safety procedures, reviewing records for data accuracy, and coordinating with authorities for customs clearance.
- My responsibilities include verifying documents to make sure they comply with laws and regulations. I also work with freight forwarding agents to ensure the timely delivery of shipments and make sure they are secure. I am responsible for conducting complete checks on consignments entering and exiting the zone to prevent theft of dutiable goods. This helps control the flow of goods to the tariff area.
- Proper guidelines are provided to investors regarding EPZA rules, regulations, facilities, and incentives, and coordination takes place with the head office regarding Zone matters.
- Assisting investors with filing new investment proposals for approval from competent

authorities. Ensuring proper implementation and monitoring performance of investment projects in the zone. Maintaining a healthy liaison between investors and EPZA.

- Coordinating with investors, GCCI, PSIC, Customs, GEPCO, and SNGPL regarding GEPZ matters.:
- I actively arrange meetings between EPZA and GEPZ investors to resolve any issues they may have. I closely monitor the progress of their projects at GEPZ, and ensure that all parties involved are informed and coordinated. I maintain positive relationships and open communication with all stakeholders and keep investors regularly updated with the latest developments at EPZ.
- We will take all necessary measures to expedite the colonization of the Zone. The Government's guidelines for investors' projects will be strictly enforced. We will follow up with investors to ensure that their concerns are promptly addressed. Deadlines set by the Government will be met without any expectations.
- With my supervision, all operations in the Zone were expertly managed and the subordinate staff performed at their most effective and efficient level. Trust me to take charge and deliver results that exceed your expectations.

Projects

Inspection of Utility store corporation

Utility Store Corporation | [Aug 2013 - Aug 2015](#)

During the months of Ramzan in 2013 and 2015, I was assigned the responsibility of inspecting the Utility Store Corporation warehouse as the Zonal in charge. This inspection was carried out under the special direction of the Ministry of Industries and Production to ensure that the Ramzan subsidy package, which had been announced by the government of Pakistan, was being distributed fairly and effectively to the intended beneficiaries.

As part of the inspection process, I thoroughly scrutinized the warehouse to ensure that the goods were being stored safely and hygienically. I also checked the inventory records to verify that the items were being procured and distributed according to the approved guidelines. Additionally, I interacted with the staff to ensure that they were aware of their responsibilities and were performing their duties diligently.

My objective was to ensure that the Ramzan subsidy package was reaching the deserving people and that there was no malpractice or corruption in the distribution process. By conducting this inspection, I was able to identify any inefficiencies and take corrective measures to improve the overall effectiveness of the subsidy program.
