

Housseyn Hady Benrezig

Hydraulic Engineer – Oil & Gas & Urban Infrastructure

📍 Doha Old Town, Qatar

📞 +974 51257789

✉ Berzig07@gmail.com

🇩🇿 Nationality: Algerian | Visa: Residence | Marital status: Single

Professional Summary

Dynamic and results-driven Hydraulic Engineer with over 5 years of professional experience in public infrastructure, urban hydraulics, and water systems engineering. Specialized in hydraulic modeling, technical drawing, and regulatory compliance, with strong command of software like AutoCAD, EPANET, and HEC-RAS. Proven ability to support design and execution of infrastructure projects, ensuring safety, environmental, and operational standards — ready to bring this expertise to the oil & gas sector.

Work Experience

- Hydraulic Engineer
EURL Belhachemi Ahmed – Chlef, Algeria (Dec 2020 – Jun 2023)
 - Prepared technical reports and detailed documentation for stakeholders.
 - Performed hydraulic modeling using HEC-RAS and AutoCAD Civil 3D.
 - Oversaw site installations of water systems, ensuring safety and compliance.
- Hydraulic Engineer – Public Sector Projects
SPA EPE ENT NAT DES PROJET – Chlef, Algeria (Feb 2023 – Mar 2024)
 - Managed public infrastructure projects including water supply and drainage.
 - Liaised with authorities to ensure regulatory and environmental compliance.
 - Designed hydroelectric infrastructure and water management systems.
 - Ensured project quality control and reporting standards.
- Hydraulic Engineer (Current)
ETPH Abdi Youssouf Islam – Chlef, Algeria (Jun 2024 – Apr 2025)

- Supporting operations, maintenance, and upgrades for hydraulic systems.
- Managing project timelines, resource allocation, and technical compliance.
- Preparing regulatory documentation and progress reports.

Education

Master's Degree in Urban Hydraulics
Hassiba Ben Bouali University – Chlef, Algeria (2020)

- Elected Group Leader for capstone project.
- Specialized in urban water distribution, sewage design, and stormwater systems.

Technical Skills

- AutoCAD, Civil 3D, EPANET, HEC-RAS
- Technical Drawing & Drafting
- Hydraulic & Hydrologic Modeling
- Microsoft Office Suite (Excel, Word, PowerPoint)
- Project Reporting & Documentation

Certifications

- HSE Awareness Training
- AutoCAD Civil 3D Advanced
- Pipeline Safety & Infrastructure Maintenance

Languages

- Arabic – Native
- English – Fluent
