

# SARAH ALSAYED

## WIRELINER ENGINEER

Saudi Arabia- Dammam/32422 | sara.a.alsay@gmail.com | +966 535846630

### PROFILE

Experienced Field Engineer in oil and gas industry, specializing in open hole wireline operations. Skilled in handling tools, analyzing logs, and interpreting lithology. Focused on delivering efficient operations and high-quality outcomes.

### PROFESSIONAL EXPERIENCE

#### Halliburton Energy Services:

##### **Vertical Seismic Profiling Maintenance Engineer**

**Mar 2025 - Present**

- Lead troubleshooting and failure analysis of advanced seismic tools, minimizing downtime and ensuring field readiness.
- Conduct post-job inspections and extended maintenance to maintain optimal tool performance and reliability.
- Perform tool calibrations, heat tests, and pressure tests to ensure proper functionality.
- Manage equipment lifecycle and maintenance records using SAP, ensuring accurate tool tracking and operational transparency.
- Collaborate cross-functionally with field teams and engineering support to optimize Vertical Seismic Profiling (VSP) operations
- Perform daily Job Safety Analyses (JSA) to ensure safe and efficient operation.
- Successfully complete ATC-1 mechanical and ATC-5 advance electronics courses.

#### Halliburton Energy Services:

##### **Associate Field Professional Engineer**

**Mar 2024 - Mar 2025**

- Prepare and execute field operations for OH logging services in accordance with HMS.
- Acquainted with operation of advanced wireline tools (e.g. gamma, resistivity, density, neutron and sonic tools)
- Checking and calibrating equipments prior to and after logging operations.
- Perform troubleshooting for equipments malfunctioning following field operations.
- Work on the post/rush data prior delivery to the client Insure proper log response/readings and tool functioning during operations.
- Successfully complete OH operational aptitude training.
- Operated wireline tools and surface systems to optimize performance.

#### Alkahhal Medical Comple:

##### **Maintenance Engineer**

**Oct 2021 - Oct 2023**

- Implement corrective maintenance and troubleshooting for hardware-software failures.
- Perform periodic preventive maintenance including function testing and safety checks.
- Dealing with vendors regarding checkups, mal-functioning and new deals.
- Perform daily/ weekly calibration for certain medical devices.
- Presenting training sessions for the end-users including (orientation, safety and quality assurance).
- Collaborate in CBAHI and JCI preparation program.
- Appointed as SFDA liaison officer regarding medical devices recalls.

## EDUCATION

### Bachelor of Biomedical Engineering

2016-2021

Imam Abdullrahman bin Faisal University

College of Engineering

- Relevant Coursework:

[Electrical Circuits, Control Systems, AUTO-CAD, Computer Programming (MATLAB,C++), Technical Writing, Microprocessor, Imaging Processing, project Management.]

- Senior Design Project:

Engineered an innovative brain-controlled wheelchair using Python programming, revolutionizing mobility solutions for individuals with disabilities. The project not only restored movement control but also garnered acclaim, placing our team among the top performance; culminating in the successful publication of research.

## COURSES

- OH Operational Aptitude (Hal Texas/Fort Worth training center).
- H2S and SCBA.
- Basic Fire Safety.
- Basic First Aid & CPR.
- Explosive User in Charge.
- Radiation Safety Marker Enduser.
- INSITE/WLIQ Software.
- Surface/Telemetry Systems.
- Well Logging Depth Control.
- SAP System Navigation and Basics.
- Seismic Electronics Maintenance (Avalon Science Ltd/ Abu Dhabi).

## TECHNICAL SKILLS

- Microsoft Office.
- AUTOCAD.
- MATLAB.
- Python.
- LABVIEW.
- INSITE/WLIQ Software.
- AVALON Aquastion Software.
- SAP (Data Entry).

## SOFT SKILLS

- TeamWork.
- Work Under Pressure
- Time Management.
- Fast Learner.
- Troubleshooting.
- Safety-Focused mindset.
- Adaptability.
- Quality Assurance.
- Critical Thinking.
- Self Learning.

## LICENSE

- Saudi Council of Engineering.
- Driving License.
