PROFILE

A professional and well-experienced Chemical Engineer with rich and extensive knowledge in civil explosives manufacturing, Quality Assurance and Quality Control, Process control, Mining and Mineral Processing operations, Safety and Environmental Management in and outside Ghana.

EXPERIENCE

Modern Chemicals and Services Company (MCS), Saudi Arabia

January 2025 – to date

Assistant Production Manager/Health & Safety Coordinator (HSE)

- Develop weekly and monthly production plans
- Keep track of all KPIs and ensuring that they are always aligned and within target
- Manage departmental finances judiciously and effectively to ensure smooth operations
- Ensuring that process equipment are always up and running to achieve targets
- Develop annual training and development plans for personnel improvement
- Preparing weekly and monthly production reports for management
- Coordinating with the maintenance and logistics department to ensure that production targets are always achieved with high equipment efficiency and availability
- Conduct and lead weekly site meetings for all departmental heads
- Ensure that health and safety standards are strictly followed and adhered to

March 2024 – December 2024

Production Supervisor/Health & Safety Coordinator (HSE)

- Conducting and leading weekly site safety toolbox meetings
- Performing risk assessments on all aspects of the operations to identify hazards
- Continuous monitoring and upgrade of all hazard controls in place on site
- Generating of monthly safety reports and targets
- Monitoring all safety and environmental aspects of the operations
- Leading Accident and incident investigations on site to determine root causes
- Monitoring of all safety equipment and the management of PPEs on site
- Conducting and leading internal audits

- Managing operations and activities of all 3 production plants i.e. ANFO Plant, Explosive Cartridge Plant & Bulk Emulsion Explosive Plant
- Compilation of Daily, Weekly and Monthly production reports
- Leading technical and physical changes at the plant to improve plant's efficiency, remove bottlenecks, reduce production downtimes and improve product quality
- Laise with maintenance team always to ensure preventive maintenance is strictly followed
- Plan production with the sales team to ensure delivery of quality products are made to clients ahead of schedule

Maxam Ghana Limited, Ghana/ Maxam International (Africa operations), Guinea

2021 – 2023

Assistant Plant Manager

- Production demand and supply scheduling
- Monthly & weekly production forecasting and planning for all sites within the West African operational region of Maxam International
- Raw materials (Ammonium Nitrate, Diesel, Emulsifiers, etc) ordering and usage monitoring and daily stocks tracking, issuances of Purchase Orders for onward processing, etc.
- Planned preventive plant maintenance scheduling with efficient monitoring of availability of plant spare parts
- General management of plant to always meet production targets on/ahead of schedule
- Ensuring that all regulatory Demands and Standards by Minerals Commission, Environmental Protection Agency, Ghana Standards Authority, OSHAS & ISO standards are always met and maintained
- Maintaining a very safe and secured environment at the plant for personnel, production and equipment.

2014 – 2020

Production/Process Engineer (Ghana - Iduapreim Plant site)/ Maxam Quality Plan Trainer – GAC Site, Guinea

- Raw materials order, reception and Stocks monitoring
- Quality control and checks on raw materials received
- Preparation of Oxidizing and Organic Solutions for different formulations
- Preparation of Gassing solution for different formulations
- Process control of Explosive emulsion manufacturing

- Quality control of prepared solutions
- Manufacturing of various formulations of explosive emulsions
- Daily and Monthly production report writing
- Verification and Calibration of Laboratory equipment
- Lead and coordinate activities amongst crew members and superiors
- Ensure the safety of all crew members and the protection of the environment always
- Production of ANFO
- Shelf sample monitoring and recycling of old raw materials and products
- Quality control of explosive Emulsion and ANFO products
- Ensure that all MAXAM Safety, Environmental and Quality standards are strictly followed
- Daily monitoring of all plant equipment before, during and after production
- Drawing of quarterly production plan and preventive maintenance schedule for the plant

2011 – 2013

Trainee Plant /Chemical Engineer (Ghana – Iduapreim plant site)

- Monitoring and cleaning of decanters
- Preparation of oxidizing solutions
- Preparation of organic solutions
- Quality assurance of solutions
- Product shelf sample monitoring and analysis
- Recycling of stale products
- ANFO manufacturing and quality control
- Operation of the Emulsion explosive plant (start-up to shutdown)
- Steam boiler operation

June – August 2010 Newmont Ghana Gold Limited

Intern (Safety officer, plant metallurgist) Ghana – Ahafo Mine

- Monitoring of air pollutants at vantage points at the processing plant
- Confined space monitoring and permitting
- Conduct safety toolbox meetings and induction of site visitors and personnel
- Monitoring and Verification of gold concentrations in the solutions
- General supervision of all processes at the various plant units i.e. CIL, Mills, etc

EDUCATION

- **2025** NEBOSH IGC in Occupational Health and Safety – NEBOSH UK
- **2025** Fire & Rescue Training (Emergency Response) – FireDirect Center, Dammam
- **2024** Project Management Professional (PMP) – Project Management Institute
- **2023** University of British Columbia, Vancouver, Canada - BRADSHAW RESEARCH INITIATIVE FOR MINERALS & MINING (BRIMM)

Qualification awarded: Executive Micro-certificate in Economic Leadership (Mining)

- **2019** Kumasi Technical University

Qualification awarded: BTech (Hons) Chemical Engineering

- **2011** Kwame Nkrumah University of Science and Technology

Qualification awarded: BSc (Hons) Chemical Engineering (incomplete)

SOFTWARE / SYSTEMS SKILLS

- Microsoft Word, Excel, PowerPoint, Hysys, Visio, etc.
- ORACLE/SAP/ERP/SAGE

OTHER RELEVANT INFORMATION

- Holder of Explosive blasting book of competency (Minerals commission of Ghana)
- Holder of Ghanaian driver's licence C & Saudi Private Driver's licence
- Holder of First Aid Certificate (St. John's Ambulance)

TRAINING & AWARDS

- Quality Management / Project Management / Lean Six Sigma / 5S
- Fire Safety and Emergency Response Management Training
- Defensive Driving Training by National Road Safety Authority, Ghana

PERSONAL DETAILS

Date of Birth	23 rd December, 1987
Marital Status	Married
Nationality	Ghanaian

REFEREES

1. Mr. Edward Oppong Kusi (Sales & Supply Chain manager, Solar Nitro Ghana)
