Professional Profile

Highly motivated and skilled Process Operator with extensive experience in petrochemical operations at Dow Terneuzen (LDPE Department). Strong expertise in operating and monitoring hyper compressors, reactors, extruders, and control panel systems. Well-versed in multinational working cultures with a deep understanding of international safety standards, environmental compliance, and operational excellence. Recognized for training and mentoring colleagues, fostering teamwork, and ensuring high safety and efficiency standards. Eager to bring technical expertise and cross-cultural experience to contribute to Saudi Arabia's leading chemical and energy industries.

Qualities & Competencies

- Strong expertise in operating hyper compressors, reactors, extruders, and control panel systems.
- Skilled in training and mentoring colleagues, fostering teamwork and knowledge transfer.
- In-depth knowledge of multinational corporate culture, aligning with Saudi Arabia's global chemical industry standards.
- Comprehensive understanding of work processes, safety regulations, and environmental standards in industrial operations.
- High adaptability and resilience in cross-cultural environments, with proven ability to integrate into diverse teams.
- Strong focus on operational safety, efficiency, and environmental compliance.
- Proactive, independent, and highly motivated to contribute to Saudi Arabia's energy and petrochemical industry.
