PROJECTS

- Senior Project Resort in Alqiddiya Area: 40,000m²

The design emphasizes connectivity with the site's topography, bridging the built and natural environments to enhance visual views. It creates secluded, tranquil spaces that offer nature experiences and a sense of escape from the bustle of everyday life.

- Neighborhood park in Al Munsiyah District Area: 4962m²

In this project for the Riyadh Region Municipality competition involved designing a neighborhood park that reflects the distinctive shapes of Salmani architecture. Collaborating with my classmate, we created an innovative layout that incorporates traditional motifs and modernity.

- Cultural Hub in Wadi Namar Area: 55,778m²

In this project for the Riyadh Region Municipality competition involved designing a Cutral Hub in Al-Awali district combines the themes of water and Saudi agricultural heritage, Collaborating with my classmate, we created a modern landmark that emphasizes adaptability and revitalization.

- Construction Drawings Area: 200- 500m²

- Mixed used building in Al Olaya District Area: 10,000m²

I designed a mixed-use building for offices and retail, drawing inspiration from a case study to create a functional and vibrant community space.

- Museum in Aldirah District Area: 25,000m²

My classmate and I designed a museum inspired by the traditional shapes of Najdi architecture, creating a space that celebrates the region's culture while featuring modern exhibits.

- Library in Aldirah District Area: 2,619.83 m²

The sustainable library in the Al-Dirah district uses Eco-friendly design, to create a community space that encourages learning and cares for the environment.

- Residential House in Hattin District Area: 700 m²

I aimed to create a welcoming home that reflects the community's character and enhances the quality of life for its residents, by using the Sport Boulevard Building Code.

HONORS AND CERTIFICATES

- Certificate of attending around the design world in 8 days - part 1(SURFACE DESIGN - BALANCE TEXTURES) .
- Award certificate for winning the debate theories of housing design (Saudi housing typologies, City branding and Authenticity) .
