AMEER MUHAMMAD MUSHTAQ KHALID

Applied for: Cost Manager / Cost Control Manager or Estimation Manager

(Key Expertise in Pre & Post Contracts – Cost Management, Cost Estimation, Tender process, Cost Controls, Project control, Contracts Administration & Review, Change Management, Procurements process & Site Controls, NTP’s Resources development and Risk Management)

PROFILE SUMMARY

A Professionally qualified and hardworking Civil Engineer, having good Multidiscipline experience in Capex & Opex, cost management, process of estimating, allocating & controlling cost, in Pre-contracts, Post contracts and other forms of contracts, Framework agreements, LS. Remeasure able, cost Plus, LSTK, LSBP & design-built contracts along with appropriate standard methods of measurements CESMM4 and having good knowledge in FIDIC (Red, Green & White Book) & an additional skill in change management, Preparation & Control NTP’s Resources through NTP’s Tracker in conjunction with project team, Risk Management through ARM risk program, RFP, Bid proposal, Technical & Commercial review, Cost comparison PTE Vs IFC, New BOQ Preparation, (RAF’s) Rate analysis, cost estimation, cost control, Invoices, Insurances, Variation, dispute & claim reviews, Procurement Process, Site material procurements Controls, & IKTVA Material preparation. Structure Expertise in (Bridges, Tunnels, Highway Roads, Metro Rail, Multistory & industrial buildings, Parks & different types of Utilities Services (Potable water. Storm, Sewer, Irrigation, Gas Pipeline & STP etc.) I have specialty in infrastructure Projects. Excellent professional came from strong civil engineering background and possess over (22+) years’ both local and overseas (UAE & KSA) works experience together with suitable qualification. Has exposure to all form of construction & Translations with a high ability.

PROJECT EXPERIENCE

- Cost Manager / Commercial Manager, Procurements, Tendering & Cost Estimation Process Manager Proger/Alpha**
Projects: Khobar, Madhinah, Jizan and Tijan June. 2025 – Sep.2025
Pre-Contracts Scope; Include Villas, Low & High Rise buildings, Malls, 5*,4*, & 3* Hospitalities, Health Clinic, Schools, Community facilities and Infrastructure works

 - I Manage different task such as CapEx ROM cost estimation of all above projects, Pre Tender estimate & developed New BOQ’s
 - Technical & Commercial Evaluation
 - Review Bidders proposal, Cost comparison PTE Vs IFC, Review (RAF’s) Rate analysis,
 - Procurement Process, RFP Review.
 - Pre-Qualifications documents, Bidders queries fallow up & focus on Timeline
 - Review Insurances, Variation, dispute & claim. Initiated change management
 - **In Post contract**, Review cash flow, cost plan/cost report, invoices, BOQ’s & Variations
 - Review quantity & Cost Estimations, (RAF’s) Rate analysis, Insurances, Contractor’s claims. developed the preliminary cost control report & performance report weekly and monthly
- Cost Manager/Cost control manager Qiddiya CITY & Coast from Parsons Dec.2022 – 19th March.2025**

 - Worked with commercial team on a Pre-contracts & Post contracts to ensure projects are going on track.
 - **In Pre-Contracts**, Monitor and managed financial expenditures Analyses cost, identify potential overruns, implemented strategies to control expenses and contributed to effective financial management, provided accurate cost monitoring, forecasting & reporting.
 - Worked on Project Cost Preparation through Benchmark, Quotations, Historical data & RS Means
 - Assisted in the continuous improvement of contract cost processes through refining formulation activities, system and process.
 - Define project needs for cost controls in according with SAPL and client contractual requirements and objectives.
 - Develop and maintain project budgets, forecasts, & cost estimation.
 - Analyze financial data and prepared comprehensive cost report for management review.
 - Collaborate with project teams to identify cost saving opportunities & optimize resources allocation.
- Monitor project expenses and track variances against budgets.
 - Conduct regular cost audits & implement cost control measure.
 - Assist in the preparation of tender documents, review RFP, Bid proposal, Technical Commercial review, evaluate the tender budgets, cost comparison PTE Vs IFC and bill of quantities preparation (BOQ, s) according to design stages.
 - Ensure compliance with local regulations & Industrial standards. Provided expert advice on cost related matters to management & project stakeholders.
 - Monitor & manage cost & financial expenditure analyses, project budget.
 - Identify potential overruns & implement strategies to control expenses.
 - Contribute to effective cost management, identify monthly forecast, Implement & refine cost control Strategies.
 - Review & approve project budgets, provided comprehensive cost analyses.
 - Manage different task such as qiddiya PRISM cost management, control & reporting to stakeholders.
 - Managed & created purchase request and service entry sheets. SAP (Fiori & Ariba)
 - Prepared NTP’s Resources in conjunction with project team and ensure the deployment staff forecast data & PAF’s structure data, Maintains the NTP Tracker with dashboard, cashflow. Tracks &
- Regularly reports on the accrual hours against the budgeted
 - Responsible to provide finical report status of construction contracts & consultancy agreement.
 - Monitor cost management process of estimating, allocating & controlling cost.
 - Involved in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attending meeting on different issues.
 - **In Post contract**, Review cashflow, cost plan/cost report, invoices, BOQ’s & Variations
 - Review quantity & Cost Estimations, (RAF’s) Rate analysis, Insurances, Contractor’s claims. developed the preliminary cost control report & performance report weekly and monthly basis, validate the estimate (ETC, EAC & EVM) controlling both direct & indirect cost associated with project.
 - Review contractor’s & Consultant’s payments certificates, Contractor dispute.
 - Review cost consultant submitted Scope cost, attending meeting on different issues, bargaining with contractor’ on different issues.
 - Performs project accounting & cost control, closely monitors the development of cost control & cost estimation to ensure objectives are meet as project budget.

PRE- CONTRACTS KEY HIGHLIGHTS

- Monitor cost management process.
- Project Cost Preparation through Benchmarks, Quotations, Historical data & RS Means, Review RFP’s, Bid proposal Technical & Commercial review, Cost comparison PTE Vs IFC, New BOQ
- Preparation, (RAF’s) Rate analysis, cost estimation, Invoices, Insurances, Bonds, All Type of BOQ’s Preparation as per design Stages, Monitor Cost Variations through controls log, Develop cost control log, Review forecast, cost plan/cost report, cashflow invoices, Variations, Claims & Disputes. Monitor KPI’s & Milestone
- Review Consultant’s and Contractors (IPA’s) payments certificates.

- Expertise in procurement process and delivery, Budget allocation, Procurement strategy, WBS Setup, PR’s & RFP’s etc.
- Expertise in change management, maintaining change control system in through change log, Review TP, CCR. CRR & VO, Verification of Scope and Estimation
- Risk Management through ARM risk program.

POST CONTRACTS KEY HIGHLIGHTS

- Monitor cost management process.
- Cost Estimation, Project, Cost Variations, Cost Claims, Cost Dispute Review forecast, cost plan/cost report, cashflow invoices, BOQ’s, Variations, Claims & Disputes. Monitor KPI’s & Milestone
- Review contractor’s & Consultant’s (IPA’s) payments certificates, Accrual & EVM
- Performs project final account. Through Control Sheet Monitor contractor procurement plan and delivery on site
- Expertise in change management, maintaining change control system in Pre & Post Contract through change log, Expertise in all type of Construction (Bridges, Tunnels, Highway Road, Multistory & industrial buildings, Parks, Coast & different types of Utilities Services (Potable water. Storm, Sewer, Irrigation, Gas Pipeline & STP etc.)

- Monitor contractor procurement plan and delivery on site.
- Involvement in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attending meeting on different issues.

COST MANAGER,

PROJECT; SPORT BOULEVARD, (RC)
COMPANY: PARSONS,
JULY 2021 – NOV.2022 -PMO

- Worked with commercial team to ensure projects are going on track.
- In Pre-Contracts, Worked on Project Cost Preparation through Benchmark, Quotations, Historical data & RS Means
- Assisted in the continuous improvement of contract cost processes through refining formulation activities, system and process.
- Define project needs for cost controls in according with SAPL and client contractual requirements and objectives.
- Develop and maintain project budgets, forecasts, & cost estimation.
- Analyze financial data and prepared comprehensive cost report for management review.
- Collaborate with project teams to identify cost saving opportunities & optimize resources allocation.
- Monitor project expenses and track variances against budgets.
- Conduct regular cost audits & implement cost control measure.
- Assist in the preparation of tender documents, review RFP, Bid proposal, Technical Commercial review, evaluate the tender budgets, cost comparison PTE Vs IFC and bill of quantities preparation (BOQ,s) according to design stages.

- Ensure compliance with local regulations & Industrial standards. Provided expert advice on cost related matters to management & project stakeholders.
- Monitor & manage cost & financial expenditure analyses, project budget.
- Identify potential overruns & implement strategies to control expenses.
- Contribute to effective cost management, identify monthly forecast, Implement & refine cost control Strategies.
- Review & approve project budgets, provided comprehensive cost analyses.
- Monitor cost management process of estimating, allocating & controlling cost.
- Involved in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attending meeting on different issues.
- In Post contract, Review cashflow, cost plan/cost report, invoices, BOQ’s & Variations
- Review quantity & Cost Estimations, (RAF’s) Rate analysis, Insurances, Contractor’s claims. developed the preliminary cost control report & performance report weekly and monthly basis, validate the estimate (ETC, EAC & EVM) controlling both direct & indirect cost associated with project.
- Review contractor’s & Consultant’s payments certificates, Contractor dispute.
- Review cost consultant submitted Scope cost, attending meeting on different issues, bargaining with contractor’ on different issues.
- Performs project accounting & cost control, closely monitors the development of cost control & cost estimation to ensure objectives are meet as project budget.

- Monitor contractor procurement plan and delivery on site.
- Review cost plan/cost report & benchmarks, advice on contractual matter related to financial issues & ensure completeness and validity of all contractual requirements, advise on contractor’s resources allocation.
- Prepared financial statement for monthly report, audit payment to contractors.
- Monitor contracts final cost estimate & maintain expenditure records.
- Prepared cost comparison PTE Vs IFC,
- Review quantity & Cost Estimations, (RAF’s) Rate analysis, Insurances, Contractor’s claim
- Review contractor’s & Consultant’s payments certificates, Contractor dispute.
- Review cost consultant submitted Scope cost & Variation attending meeting on different issues, bargaining with contractor’ on different issues.
- Performs project accounting & cost control, closely monitors the development of cost control & cost estimation to ensure objectives are meet as project budget.
- Monitor contractor procurement plan and delivery on site.
- Involved in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attended meeting on different issues. (Project cost against Budgets).
- Monitor cost management process

LEAD COST ESTIMATOR & CONTRACT ADMINISTRATOR,

PROJECT; CPPA- (RC) CONFIDENTIAL,
COMPANY: PARSONS, NOV.2020 –
JUNE 2021 -PMO

- As contract administrator I must ensure that agreements are properly executed all aspects of a contract are monitored or manage to protect the interests of their employer and other party to the contract and responsible for maintaining all project related documentations, including contracts, correspondence, change orders, payments schedules, progress reports.
- Lead and oversee the preparation of accurate and competitive cost estimation for projects and ensure alignment with organizational goals and client requirement.
- Assure the estimate are realistic and based on industry standard units.
- Studies & understand the contract documents to determine areas including provision of general or special conditions and unforeseen cost.
- Tracked all project costs in the construction phase to the management.
- Critically analyses bid documents and understands risk and opportunities and articulates those to management.
- Prepared the quantity take-offs and estimate costs of materials, labours and use of equipment’s required to fulfil all provisions of contract.
- Involved in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attended meeting on different issues.
- Solicits sub-contractor’s bids and materials supplier quotations and determines acceptable bids by comparing to self-perform estimates.
- Collaborated with contractors, engineers, and architects during estimate creation to ensure the overall accuracy and conformity to fulfil all provisions of contract

KEY Skills in Software

- COST MANAGEMENT THROUGH PRISM
- PROJECT CONTROL THROUGH PRISM
- RS Means,
- PRISM QIDDIYA & SAPL
- SAP - FIORI, SES
- BIM 360,
- Macros
- AECONEX,
- PMI's
- Power BI Foundation
- ROAD PROGRAM LANDDESKTOP,
- EXCEL, WORD, POWER POINT

COST CONTROL KEY HIGHLIGHTS

- **Create work breakdown structure (WBS)**
- **As expert review project estimate.**
- **Create contingency reserves.**
- **Create management reserves.**
- **Properly perform change control system.**
- **Compare actual expenses Vs Planned expenses.**
- **Review Capex & OpenX budget properly.**
- **Review change control system properly.**
- **Monitor all expenses using check point.**
- **Apply effective time management.**
- **Tracks earn value weekly & monthly bases.**
- **Effective Risk management.**

requirements and current market conditions and construction industry trend.

- Managed and trach multiple preconstructions projects at once and support and assists with the training of the estimating staff.
- Prepared estimates presentation for management to identify deliverable scope.
- Executed & accrued cost, Quantity estimations, (RAF's) Rate analysis, insurances, contractor claim, Variations.
- Monitor contractor's Material procurements on site, earn values, accrual values, contractor Claim & dispute.
- Closely monitors process of estimating, allocating & controlling cost to ensure objectives are met as per project budget.

LEAD COST ESTIMATOR & CONTRACT ADMINISTRATOR

Project; (Modon Jeddah Oasis Industrial City 3A & B)

Company: Parsons, May.2019 – Oct.2020 – PMC

- As contract administrator I must ensure that agreements are properly executed all aspects of a contract are monitored or manage to protect the interests of their employer and other party to the contract and responsible for maintaining all project related documentations, including contracts, correspondence, change orders, payments schedules, progress reports. Lead and oversee the preparation of accurate and competitive cost estimation for projects and ensure alignment with organizational goals and client requirement.
- Assure the estimate are realistic and based on industry standard units.
- Studies & understand the contract documents to determine areas including

provision of general or special conditions and unforeseen cost.

- Tracked all project costs in the construction phase to the management.
- Critically analyses bid documents and understands risk and opportunities and articulates those to management.
- Prepared the quantity take-offs and estimate costs of materials, labors and use of equipment's required to fulfil all provisions of contract.
- Involved in change management, maintaining change control system through change log, verifying changes scope, review trend paper, CCR, CRR and Variation attended meeting on different issues.
- Solicits sub-contractor's bids and materials supplier quotations and determines acceptable bids by comparing to self-perform estimates.
- Collaborated with contractors, engineers, and architects during estimate creation to ensure the overall accuracy and conformity to fulfil all provisions of contract requirements and current market conditions and construction industry trend.
- Performs project accounting & cost control closely monitors the development of cost control & cost estimation to ensure objectives are meet as project budget.
- Monitoring contractor procurement plan and delivery on site, Review insurances, invoices, variation, Rate analysis etc.
- Support to the commercial manager in relation to the following: cost Estimation, cost controls, claim and dispute, contracts, insurances, invoices and highlight areas of risk, such as ambiguities, conflicts, or deviations from the scope of work.
- As work proceeds make recommendations on the mitigation of these risks; monitor performance and supporting remedial

actions. Analyze all contract documentation and produce a Contractor and Project Team deliverables schedule.

- Monitor performance against this schedule and recommend corrective actions.
- Develop and manage appropriate mechanisms to monitor compliance with contract terms and conditions.
- Working with the Project Team members to check that actions or inactions which could result in constructive contract changes are
- Identified and suggest possible ways of resolving the situation, develop and managing a procedure to recognize and identify contract disputes as they develop and manage the timely resolution under the changes.
- Provisions wherever possible within the project analyzed, cost and schedule data. Checked that the project adheres to contract insurance provisions and that any requirements in this regard are implemented.
- Ensure all second-tier procurement is undertaken in accordance with all policies and procedures.
- Ensure all contemporaneous records are kept and correspondence, instructions, and communications are crafted in accordance with the contract terms and issued within the prescribed time limitations.

LEAD COST ESTIMATOR/ COST CONTROL,

Project; KING SALMAN ENERGY CITY, SPARK,

Company: Parsons, Sep.2016 – April 2019 PMO

- Worked as lead cost control & estimating engineer / senior quantity surveyor with Project management design team (PMT-

PARSONS) Reports to the director (EIC) PARSONS.

- Prepared cost estimation in stages preliminary, intermediate and Material Take-off Quantities from design or construction drawings.
- Review & prepared the project Bill of Quantities (BOQs) according to project scope.
- Prepared Aramco ER-cost estimation budget through Quotations & Crew system Quotation Matrix, Bid Tabulation, Basis estimate for Aramco.
- Prepared rate analysis (RAF's) basis on quotations, pro-rata and (WBS) work breakdown structure.
- Review and prepared variation order, claim and dispute Work on LSTK, LSBP, contracts.
- Provided input into value engineering and risk analysis. Monitor, cost control developing financial control and reporting procedures on project.
- Review and provided recommendations on the processing of variations / BOQ change requests, deal with material procurement.
- Prepared IKTVA Material and Sent out enquiry to suppliers for quotations.
- I done Evaluation of supplier Quotations through Comparison sheets, for contractor selection. Prepared the project budgeted cost for the Client

SENIOR COST CONTROL ENGINEER /Sr.QS.PROJECT; AMANA/JEDDAH MUNICIPALITY CMS AND O&M COMPANY; PARSONS

Sep.2012 – AUG.2016

Scope: Bridges, Tunnels, Highway Road, Multistory & industrial buildings, Parks & different types of Utilities Services

<https://www.linkedin.com/in/ameer-muhammad-khalid-b2a30127/details/courses/>

SHORT COURSES- LinkedIn

- 1-Cost Reduction & Estimation,
- 2-Project Management Foundations Budgets,
- 3-Project Management Foundations Procurement,
- 4-Project Management Foundations Risk,
- 5-Project Management Foundations Schedules,

(Potable water. Storm, Sewer, Irrigation, Gas Pipeline & STP etc)

- Lead a team of Quantity Surveyors provide contractual guidance and support to enable them to make a valuable contribution to the team,
- Review Invoices of Bridge, Tunnel and road department as per Contract documents, review & Prepared a Variations / Change orders and claims Review extension of Time.
- I Prepared monthly cost/profit forecast for presentation to commercial manager.
- I prepared contractor's & Sub-Contractor bills of Quantities incorporation standard terms and draft letters responses to subcontractor correspondence of a financial or contractual nature.
- Reports to commercial Manager about Cost planning and forecasting, produce Schedule of rates, calculate variations.
- Pricing compensation b/w Contractor/suppliers and settling final accounts, coordination with Client and Project Construction Management, conducting feasibility studies and procurement reports,
- Manage procurement process including pre-qualification, enquiry analysis, selection, and contract preparation.
- I managed all commercial contractual matters pertaining to each project.
- Track and assess all variations and manage the change control processes.
- I reviewed contractor final payment applications to Client, including the

identification and evaluation of variations and claims and negotiations for final settlement. And advise on the appointment of site staff for the commercial administration of the project.

- I prepared a Project Cost Plan or S-Curve.

SENIOR QUANTITY SURVEYOR / SENIOR COST CONTROL ENGINEER,

PROJECT: INFRASTRUCTURE OF LAHORE METRO PROJECTS INCLUDING

COMPANY: ENGINEERING CONSULTANT SERVICES PUNJAB (ECSP) FEB. 2012 – AUG.2012 -PMC

Scope: Bridges, Tunnels, Highway Road, Multistory & industrial buildings, Parks & different types of Utilities Services (Potable water. Storm, Sewer, Irrigation, Gas Pipeline & STP etc)

As Senior Quantity Surveyor in Project Management: Engineering Consultant Services Punjab (ECSP) Manage a team of Quantity Surveyors in different location & I was reporting to contract Manager / commercial Manager about Progress of works, cost planning and forecasting. my responsibility included Preparing a company Interim Payment application as per contract documents., producing Schedule of rates, calculating variations, pricing analysis, compensation b/w Contractor/suppliers and settling final accounts. Reviewing Invoices of Bridges, Underpass, Metro station building, Tunnels and Road as per

Contract documents. Prepared new BOQ's. Reviewing a claim & Dispute documents and Extension of Time. Preparation of monthly cost / profit forecast for presentation to contract manager / Commercial manager. I was preparing Contractor & Sub-Contract Bills of Quantities incorporation standard terms and drafting letter responses to subcontractor correspondence of a financial or contractual nature. I have good skills procurements & Manage procurement process including pre-qualification, enquiry analysis, selection and contract preparation. Assists Senior Contracts Administrator, as required, with administration of on-going Contracts, including monitoring contractor and Commission compliance with the Contract documents. Investigates problems and recommends corrective action. In coordination with the Senior Contract Administrator provide contractual advice in the evaluation of Interim and Final Payment Certificates Assist in the preparation of Monthly Progress Reports. Monitored contract correspondence and provide appropriate input to project client.

QUANTITY SURVEYOR / COST CONTROL ENGINEER, UAE, SEP.2006 – JAN.2012

COMPANY; AL Salmen Gen. Contracting Est.

Contract-1 : Rehabilitation of Old Water Networks & House Connection at

Hill Power House, Sarooj Zones ,and Al Foah, Northern area and The Infrastructure of **Contract-2: The Infrastructure of Jabel Hafeet (Power House)**Base Pumping Station to

Summit Reservoir (Road, Bridge & Pipe Line) in UAE Zone-2 (Road, Bridge & Pipe Line) in UAE

Contract -3 : The Infrastructure of (UAE) University Campus (Road, Bridge & Pipe Line) UAE

Scope: Bridges, Tunnels, Highway Road, Multistory & industrial buildings, Parks & different types of Utilities Services (Potable water. Storm, Sewer, Irrigation, Gas Pipeline & STP etc) Preparation of "Rate Analysis", Based on Pro rata and Breakdown, Preparation of "Variation order" Claims for Contractor, Preparation of "Day works Rate analysis"

- Preparation of time extension Claims, Send out request for Quotation to Supplier & Sub. Contractor for rate Comparison, Evaluation of Supplier Quotation and Comparison with B.O.Q. Verification of Sub. Contractor's Supplier's billing and Sub. Contractor's Variations order.
- Prepared road earth work & Asphalt quantities calculation from profiles, take off quantities from Road typical Cross Section, data calculation from Natural Ground levels for Road X-Section on Land desktop (Road Software) Calculating a road asphalt quantity according to Road profile.
- Preparation of Cash flow and S- Curve diagram showing Payment Progress, Preparation of monthly Progress reports related to Payments.
- Preparation of Interim Payment Certificate (IPC's) Approval for Contractor from "AL

AIN Municipality, AADC, ADWEA, ADSSC & Transco Abu Dhabi.

QUANTITY SURVEYOR / COST CONTROL ENGINEER, PAKISTAN, 2002 – Aug.2006

COMPANY;NESPAK

Contract-1 : Infrastructure Projects (Roads Bridges, Culverts, & Pipelines) Lodhran.

Contract-2: Motor way Road from Islamabad to Peshawar Pakistan

Contract-3: Motor way Road from Lahore to R.Pindi Pakistan

- Quantity Surveyor Managing a team of Quantity Surveyors in different location & I was reporting to commercial Manager about Progress of works, Cost planning and forecasting.
- Work in Post contract department under the Commercial manager my responsibility included Prepared a company Interim Payment application as per contract documents.
- Producing Schedule of rates, calculating variations, pricing compensation b/w Contractor/suppliers and settling final accounts.
- Reviewing Invoices of Bridges, Underpass, Tunnels and Road as per Contract documents.
- Preparation new BOQ's. Review claims Variations orders and Extension of Time
- Preparation of monthly cost / profit forecast for presentation.
- Prepared Road earth works and Asphalt quantities calculation from Road Typical Cross Section, road CBR works quantities calculation from Road Typical Cross Section,
- Preparation of Bar bending schedule of steel reinforcements,
- Preparation of monthly, running interim Payment Certificates, Calculating quantities from shop drawings for actual Value assessment,
- Preparation of “Rate analysis based on Breakdown”, Preparation of Variation order Claims and “Day works analysis Claim” Verification of Sub. Contractor billing and Supplier billing, Coordination with main office for Progress, related Payments,
- Preparation of Road X-section, assisting in preparation of time, extension Claims, Verification of “AS Built drawings” according to approved request Road.
