

ENGR. MUDASIR SHAH

Senior Mining Engineer

+966 556832173 @ mudasirshahbtk@gmail.com

Riyadh, Saudi Arabia

Iqama No: 2614931877 | Status: Transferable

SUMMARY

Senior Mining Engineer with 12+ years of experience in open-pit and underground mining operations, mine planning, drilling & blasting, and project management. Expert in strategic mine design, resource optimization, and operational efficiency, with proven ability to lead multidisciplinary teams and deliver projects on time and within budget. Skilled in GIS mapping, Mine-3D modeling, geological assessment, and HSE compliance. Adept at coordinating contractors, optimizing production, and implementing advanced mining technologies to achieve organizational goals in alignment with international and Gulf standards.

SKILLS

Technical Skills

- Open-Pit & Underground Mine Design
- Mine-3D & GIS Software
- Drill & Blast Pattern Design
- Resource Optimization & Scheduling

Safety & Compliance

- Regulatory Enforcement
- Fall Protection & Safe Rigging
- First-Aid & Fire Fighting
- Policy Implementation

EXPERIENCE

Senior Mining Engineer

03/2019 - 07/2025

Prime Mining Company

Buner, Pakistan

Project: Mineral Development Department KPK

- Directed full-cycle mining operations for major mineral development projects, achieving operational excellence
- Designed and implemented mine plans, production schedules, and resource allocation strategies
- Supervised drilling & blasting operations, applying advanced blast design and precision techniques
- Conducted risk assessments, incident investigations, and HSE audits to ensure safety compliance
- Managed contractor performance, workflow coordination, and timely project delivery

Senior Mining Engineer

12/2012 - 12/2018

Ghulam Rasool Construction Company

Pakistan

Project: Karora Hydropower Project, Pakhtunkhwa Energy Development Organization

- Led drilling, blasting, and excavation for hydropower infrastructure projects with precision and efficiency
- Supervised field teams to ensure adherence to project specifications and environmental regulations
- Designed drill & blast patterns to optimize fragmentation, reduce vibration, and enhance safety
- Coordinated between contractors, clients, and project management to ensure alignment and timely completion
- Produced technical documentation, progress reports, and project records for management review

EDUCATION

M.Sc. in Mining Engineering

Peshawar

University of Engineering and Technology

SKILLS

General Competencies

- Strategic Decision-Making
- Leadership & Team Management
- Project Management & Execution
- Investigation & Problem-Solving
- Multi-Tasking & Coordination

LANGUAGES

Urdu Native

Pashto Native

English Proficient

REFERENCES

Available Upon Request

EDUCATION

B.Sc. in Mining Engineering Baluchistan

BUIITEMS

CERTIFICATIONS & DIPLOMA

First Class Mine Manager Certificate

Inspectorate of Mines, KPK, Pakistan

Diploma in Project Management

Iqra Educational and Technical Council, Islamabad

Diploma in GIS

Iqra Educational and Technical Council, Islamabad

CORE COMPETENCIES

- **Mine Planning & Design:** Strategic Mine Planning, 3D Modeling (Mine-3D), Feasibility Studies, Production Scheduling, Ore Body Modeling
- **Drilling & Blasting:** Advanced Blast Design, Explosives Management, Vibration Control, Fragmentation Analysis, Risk Assessment (RA), Job Hazard Analysis (JHA)
- **Operations Management:** Contractor Supervision, Production Optimization, Heavy Equipment Operations, Cost Control, Workflow Streamlining, Productivity Improvement
- **HSE Compliance:** Safety Audits, Regulatory Compliance, Incident Investigation, Emergency Response, Fall Protection, Safe Rigging Practices
- **Technical & Digital Skills:** MS Office Suite, GIS Mapping, AutoCAD Mining Modules, Mine-3D, Geological Modeling, Data Analytics
