Summary:

Experienced specialist in Oil & Gas warehouse management with a dual foundation in chemical engineering and finance. Seeking a position to leverage proven expertise in materials management, data analysis, and process optimization in energy companies.

Professional Experience:

Tengizchevroil LLP (Chevron Corp.) | Materials Management Department 2022-present

Drilling Materials Specialist key responsibilities:

- Ensured 100% material availability on the rig site, and prevented unnecessary stand by time.
- Received/registered, and issued drilling and completions materials. Oversaw inventory accounting for TCO Drilling & Wells group purposes, including RMG, OCTG, completions, slickline tools, etc.
- Conducted continuous control of commodities within WHSE and contractor base.
- Supported drilling managers by providing rig cost control and forecasting equipment availability on site.
- Monitored rig consumption rates of cementing and drilling mud chemicals to refill the stock and prevent stockout.
- Created stock items in JDE E1. Initiated RFI/RFQ and created purchase requisitions in GEP Smart.
- Analyzed procurement/inventory data and developed visual dashboards to monitor contractor performance.

Unsatisfactory,Over/Short & Damage (UOS&D) Specialist key responsibilities:

- Managed MRO materials with discrepancies (short, damage, non-compliant), ensuring timely replacement or return of investments for unusable materials. Read P&IDs and material data sheets to justify the acceptance of received items, verifying compliance with technical specifications and project requirements.
- Negotiated with suppliers and freight forwarders, in collab with contracts department to plan sourcing strategies and protect company interests on material values. Supported Maintenance and Turnaround shutdowns by coordinating procurement and stock supply; completed receiving/issuing operations within the JDE E1 Oracle.
- Provided internal-external audit inspections for TCO SCM; re-exported unusable goods; expedited the shipment; ensured the import documentation met the RoK regulations; automated routine tasks (~20h/week load).

Nazarbayev University | School of Engineering and Digital Sciences 2020-2022

Research Assistant key responsibilities:

- Modeling of manufacturing process, porous structure and transport properties of powder compacts.
- Providing lab workshops, DEM Simulations, and collecting data and results of experiments.
- Supported graduate researchers during major scientific publications and articles by gathering simulation results.

Educational Background:

- **B.A. Business Management majoring in Finance** 2021-2023
(Diploma with Honors)
Almaty Management University (powered by Arizona State University), Almaty, ALA
- **B.Eng. in Chemical and Materials Engineering** 2018-2022
Nazarbayev University, Astana, NQZ
- **Biochemistry Foundation Degree (NUFYP)** 2017-2018
Nazarbayev University, Astana, NQZ

Projects:

- **Capstone Project:** Designed an optimized polystyrene production and distillation processes, conducting market analysis and developing plant economics, including FCI and cost estimations for the CIS region.
- **UOS&D Prediction Power BI:** Developed a report predicting potential UOS&Ds for TCO Warehouse by analyzing data patterns such as pricings, suppliers etc. This initiative resulted in a progressive decrease in UOS&Ds over the period, and opened a room for workload and cost savings.

Honors and Awards:

- Admissions Scholarship Awardee 2017-2023
- Medalist in multiple National and Regional Chemistry Olympiads 2015-2017
- School Pride Awardee (National Physics and Math Highschool) 2015

Skills and Abilities:

- **Supply Chain Tools:** JDE E1 Oracle; SAP ERP; SMART GEP; Garner Expediting.
- **Data Analysis and Automation:** Azure DataLake; Power BI; DAX; Power Apps/Automate, Python/R
- **Engineering and Simulation Software:** Aspen Plus; PipeSIM Schlumberger; Comsol Multiphysics.
- **Language proficiency:** English (Fluent); Russian (Native); Kazakh (Native)
- **Certificates:** IWCF-Well Contor; IFPSM-Major MM Specialist; Primavera P6,
