Education & Training

BOSIET + HUET (STCW 2010 – SMF France) – Marseille, France

Completed on 16 October 2025 – Valid until 15 October 2030

Includes H2S, Boat Landing & CA-EBS (Emergency Breathing System) modules – Certified by Survie Mer Formation (OPITO Standard).

Professional Baccalaureate – Maintenance of Industrial Equipment (2008)

BEP Electrotechnics (2006)

Technical Skills

Gas process operations & control systems

LNG terminal operations

Production systems and utilities operation

Preventive maintenance & troubleshooting

SAP & Q4 operation software (work orders, maintenance, process follow-up)

HSE standards & procedures

Permit to Work (PTW), Lockout/Tagout

Teamwork and operational communication

Languages

French – Native

English – Intermediate (operational level for offshore work)

Safety & Technical Certifications

BOSIET + HUET + H2S (OPITO) – Valid until October 2030

SST – Workplace First Aid

H0B0 – Electrical Safety Certification

EPI – Firefighting & First Intervention Team

Confined Space Entry

ATEX Level 0 – Explosive Atmospheres

ZAR – Hazardous Area Training

Safety Awareness & LNG Operations (internal trainings)
