Profile

Dynamic Business & Data Analyst and Market Entry Specialist with **2+ years of hands-on expertise** in defining solutions for CRM/EHR systems and HL7/FHIR-based interoperability. Highly proficient in data analysis using **SQL, Python, Power BI, and Google Analytics** to deliver strategic decision-making insights. Proven success in Presales leadership, BRD/FRD documentation, and driving cross-functional Stakeholder Management to bridge the gap between **US product strategy** and complex Saudi regulatory governance (**MOH/NPHIES**).

Professional Experience

Marketing & Client Engagement Specialist – IT Services

KMA IT Solutions (Startup), Riyadh, Saudi Arabia | Jul 2025 – Present

- Spearheaded **direct marketing and sales** initiatives across **7 diversified IT service lines** (e.g., CCTV, software installation, data recovery, accessories), establishing a pipeline of **50+ prospective** local business leads through targeted **market research and needs analysis**.
- Acted as the **technical liaison for 15+ small business projects**, translating client requirements for core services (data recovery, PC builds, software deployment) into **actionable solution proposals**, thereby establishing a foundational **presales process**.
- Drove early-stage revenue by aggressively prioritizing sales of high-demand immediate services and **consulting clients** on integrated IT solutions, while positioning the company's new, high-value services (like custom software) for future expansion.

Business Analyst – Healthcare & CRM/EHR Solutions

One Dios Inc, Lombard, IL, USA (Remote) | Feb 2025 – Present

- Progressed from Intern to dedicated **Client-Facing Business Analyst**, defining requirements and engineering **4 critical product modules** (patient management, prescriptions, sales tracking) for the Vision Management System (VMS), expanding core platform functionality.
- Designed and implemented **8 key Electronic Health Record (EHR)** workflows and CRM integrations, driving process optimization and improving system efficiency by an estimated **15% for core clinical users**.
- **Developed 5 high-impact KPI dashboards** leveraging **SQL**, tracking critical patient statistics and revenue performance metrics to inform leadership's **strategic decision-making**.
- **Led market entry and lead generation** by conducting presales with **10+ healthcare providers**, ensuring proposals aligned with **MOH standards** and **initial NPHIES readiness assessments**.
- **Authored 7 functional specifications and user stories** for **HL7/FHIR-based interoperability solutions**, guaranteeing compliant data exchange and **regulatory governance**.
- Pioneered a localized **market strategy**, conducting competitive landscape analysis and **Total Addressable Market (TAM)** assessment to prioritize product features for the Saudi region, directly influencing the **Go-to-Market (GTM)** plan.
- Drove **cross-functional collaboration** with doctors, vendors, and engineering teams to manage the **development lifecycle** and implement enhancements aligned with **EHR best practices** and regional compliance standards.

Data Analyst Intern

Digital RX.IO (Zibew), Hyderabad, India | Jul 2024 – Jan 2025

- **Targeted platform usability enhancements** informed by user behaviour analysis, directly contributing to a **9% increase in digital sales conversion** and optimizing the patient onboarding for the product.
- **Defined 15+ essential KPIs** and metrics for custom performance dashboards, tailoring reporting views for three distinct user groups across the Telehealth platform.
- **Collaborated with the Product Manager and key stakeholders** to define **6 core feature goals** and prioritize UI/UX, focusing specifically on **AI-powered E-Prescribing** and **Telemedicine** workflows.
- **Conducted in-depth SaaS competitive analysis** against top-tier Digital Health competitors.
- Managed **Agile sprint ceremonies** via **Jira**, overseeing backlog prioritization, grooming, and reporting for **3 major software releases**, ensuring smooth deployment of complex feature sets.

Business Analyst Intern

Telesto Consulting Services, Illinois, USA (Remote) | Jul 2023 – Sep 2023

- **Analyzed customer behavior and sales data** using **SQL & Power BI**, achieving a verifiable **12% increase in vending machine revenue**.
- **Developed 5 comprehensive dashboards** and reports for inventory management and optimized placement decisions.
