Halliburton Energy Services
Northeast Appalachia, Permian, Bakken, Niobrara, Haynesville

1997 to 2018

Chief Operations Officer / Drilling and Completions Superintendent
Consolidated Oil and Gas Corporation
Appalachian and Illinois Basins

Education:

Master of Science: Safety, Security, Emergency Management
Concentration: Occupational Safety and Health
Eastern Kentucky University, Richmond, Kentucky
Graduation: December 2022

Bachelor of Arts: Psychology
Transylvania University
Lexington, Kentucky
Graduation: May 1993

IADC WellSharp (Well Control)

- Well Servicing Oil and Gas Operator Representative
Certificate Number: 36989-48D009
Expiration Date: August 20, 2023

July 2024 to Present

EHS Specialist Gulfport Energy Northeast Appalachia

Accomplishments: Member of EHS team who led the effort to achieve **ZERO** recordable injuries for the 2024 calendar year.

The following bullet points represent a partial list of my duties and responsibilities.

- Assigned to oversee and take ownership of environmental, health, and safety culture for Construction, Drilling, Completions, Water Transfer, and Water Trucking Divisions.
- Monitor, coach, mentor, and train all third-party contractors on best practices for safe work and being a good steward of the environment.
- Assist in preparation of PSSRs for drilling, frac, drill-out, work-over, flow-back, facilities installation (compression / GPUs / tanks / heaters / separators / dehy's)
- Lead pre-shift safety meetings and collect and review Job Safety and Environmental Assessments (JSEAs) submitted by all third-party contractors.
- Visit work areas for all third-party contractors to conduct compliance audits, hazard hunts, and to discuss each company's standard operating procedures.
- Prepare daily / weekly reports concerning the state of safety and environmental concerns on pad.
- Prepare incident and spill reports and submit hazard observation and stop work cards.
- Conduct incident and spill investigations to determine root causes and make suggestions for corrective measures to prevent further similar incidents / spills.
- Create, administrate, and oversee Contractor Personal Improvement Plans for contractors who have recently had accidents, injuries, or spills.

March 2022 to July 2024

HSE Wellsite Consultant (Drilling and Completions) Safety and Environmental Assurance Champion, Northeast Appalachia District Southwestern Energy (SWN) Tunkhannock, Pennsylvania

My consulting role as SWN's Safety and Environmental Assurance Champion included monitoring the adherence to safety and environmental standards by all company and third-party contractors performing work on SWN's drilling and completions pads.

The following bullet points represent a partial list of my duties and responsibilities.

- Monitor, coach, mentor, and train all third-party contractors on best practices for safe work and being a good steward of the environment.
- Lead pre-shift safety meetings and collect and review Job Safety and Environmental Assessments (JSEAs) submitted by all third-party contractors.
- Visit work areas for all third-party contractors to conduct compliance audits, hazard hunts, and to discuss each company's standard operating procedures.
- Prepare daily / weekly reports concerning the state of safety and environmental concerns on pad.
- Prepare incident and spill reports and submit hazard observation and stop work cards.
- Conduct incident and spill investigations to determine root causes and make suggestions for corrective measures to prevent further similar incidents / spills.

August 2018 to March 2022

Job Site Safety Leader, Northeast District Production Enhancement (Frac) Service Specialist, Northeast District Halliburton Energy Services Zanesville, Ohio

During my tenure as a Job Site Safety Leader (JSSL) and Frac Service Specialist with Halliburton, we progressed from having an unacceptable number of recordable injuries, environmental spills, and vehicle incidents in 2018 to accomplishing **ZERO** in all categories for 2020. This milestone has never been achieved in the past. The 1 Year Zero milestone was accomplished through top-down / bottom-up dedication to changing the safety culture. Management and the safety teams gained a buy-in from employees through leading by personal example, coaching, mentoring, and training.

In my role, I covered 6 plus frac crews with 3 shifts each for a total of 270 employees and generally inspected 120 individual pieces of heavy equipment and machinery for fitness and regulatory compliance. I collaborated with crew leadership to ensure well stimulation operations were performed in compliance with the standards, work methods, and processes outlined in the Halliburton Management System. This collaboration included the safe and efficient mobilization of personnel, equipment, and supplies to new job sites. Some of these mobilizations spanned several hundred miles and crossed multiple state lines. Operations were conducted throughout Ohio, West Virginia, and Pennsylvania with short term assignments in the Permian and Niobrara shale plays in Texas and Wyoming.

In the spring of 2019, upper management appointed me as Northeast Lead to chair the Hand and Finger Committee which was created to provide awareness and create initiatives for the elimination of hand and finger injuries. With the appointment as Northeast Lead, I was simultaneously appointed to represent the Northeast District on the North American Land: Hand and Finger Committee which coordinated hand and finger safety initiatives for all Halliburton's North America onshore operations.

In the fall of 2020, I had the opportunity to assist in writing procedures for the introduction of the Zeus 2.0 all electric fleet into northeast Appalachia. Additionally, in 2021, I was appointed to the committee tasked with reviewing and re-writing many of the core JSAs used across all divisions of Halliburton North American Land.

The following bullet points represent a partial list of my duties and responsibilities.

- Committee Lead / Representative: Northeast and North America Hand and Finger Committees
- Safety compliance auditor.
- Rig-Up / Rig-Down / On-going Ops audit of Halliburton Management System process compliance.
- Leads jobsite pre-shift and post-shift safety meetings.
- Train the Trainer Instructor: Respiratory Fit Testing and Authorized Person LOTO Training.
- Collaborate in "5 Why" and Tap Route incident investigations.
- Create, review, revise Job Safety Analysis for specific job tasks; including the creation of risk assessments.
- Conduct periodic and monthly inspections: machine guards, fire extinguishers, hands tools, fall protection, and lifting devices.
- Daily, weekly, monthly training, coaching, and mentor sessions with crewmembers.
- Prepare internal and external communications, reports, and participate in virtual meetings.

June 1997 to January 2018 (21 Years of Drilling and Completion Experience)

Chief Operations Officer (Owner / Operator) Consolidated Oil and Gas Corporation Barbourville, Kentucky

- Profit / Loss responsibility for multi-million yearly budget.
- Project Manager for Drilling and Completions: Drilling, Frac, Work-Over, Snubbing, Plugging and Abandonment.
