

# HAMMAD HASAN

## Mechanical Engineer

☎: 03703455612, ✉: hamad01121998@gmail.com

📍: House no 352 Majeed Colony Gulshan e iqbal block 10 karachi east,  
Karachi, Sindh.

D.O.B: 12/01/1998

Gender: Male

Marital Status: Single

Nationality: Pakistan

---

### SUMMARY

---

#### Career Objective:

As a Mechanical Engineer Graduate I learned many things regarding to my field design software's(CAD SolidWorks), digital manufacturing technologies (CNC) and programming logic controller (PLC) looking forward to work in a challenging atmosphere that will not only provide innumerable opportunities of learning but also invaluable guidance to achieve excellence in the field and career of Mechanical Engineering.

---

### EMPLOYMENT HISTORY

---

#### Senior Executive Officer - Feroze 1888 Mills Pvt Ltd

Karachi, Sindh

February 2024 - Till Date

- ✓ Monitoring the Operation and Maintenance of HVAC Equipments.
- ✓ O/M of Oil free (Class Zero) and Oil lubricated Air Compressors.
- ✓ Quarterly and Yearly Maintenance of Centrifugal Compressors Atlas Copco (ZH#560-7) with (11 KVA RENLE (RNMV-110120-E) Soft Starter) and Comp Air Screw Compressors. (D-315 KW), (U-160KW) and also (D-160 KW) all are Water Cooled Compressors.
- ✓ Preventive and Periodic Maintenance of Auxiliaries of All Compressors Such as: Centrifugal Pumps for Cooling water circulation and Induced draft Cooling Towers.
- ✓ Monitors the Parameters of Plate Type Heat Exchangers which is for Heat exchanging of Compressors inside heat(in out temperatures and pressures drop).
- ✓ Manage the Operation of Refrigerant Dryers of Atlas Copco (FD-2400 VSD) and (F-2500+W VSD) and also it's Auxiliaries.
- ✓ Operation and Maintenance of LG type Centrifugal, Absorption and Screws Type Chillers for Weaving and Centralized Cooling System.
- ✓ Monitors and Maintain the Chemical Parameters (pH, Hardness ,TDS, and Nitrate Level) in Cooling Water Circuits of Compressors, Dryers and

Chillers and Compared with It's Standards Machine OEM Chemical Parameters.

✓ Maintaining the Maintenance, Operation and Energy Consumption Record Daily wise of Compressors, Dryers and Chillers.

✓ Also Looking to Weaving Humidification Plant Operation and it's Maintenance (464 RT) Such as: Department Temp: and Humidity level to Maintain these parameters under normal range in order to avoid the Yarn breakage and Smoothly running the production.

✓ Strong knowledge about Compressors Inside Mechanisms with it's Catalogue and all Parameters which is existing in Oil free Air Compressors and also Oil lubricated Compressors.

✓ Minimize the Shutdown Level of Compressors and Chillers with the help of Timely Maintenance and immediately action taken on Preventive fault in order to Avoid the Disturbance in Weaving Production.

### **Utility Engineer - Afroze Textile Industry Private Limited Karachi**

Karachi, Sindh

July 2022 - February 2024

-Create & Analysis of Utility Reports and Remove leakages of utilities in order to save energy and Cost.

-Now working as a project Engineer to create BOQs, and Cost estimation of different projects e.g: Fire water Line Project.

-Monitoring the parameters of Hot water recovery from power House and steam trap audits, flue gas Analysing.

-Manage the Operations and Maintainance of the Equipments of RO plant, Steam boilers, Air Compressor, Genbacher 320 Gas engines, HVAC Chiller Plant, Heat Exchangers.

-Responsibility of procurement of Utility department( Indent and take the follow up of inventory from purchase).

### **Management Trainee Officer - Afroze Textile Industry Private Limited Karachi**

Karachi, Sindh

February 2022 - July 2022

-Analysis of Utility Reports in order to conserve the energy.

-Operation and Maintenance of Steam boilers, Power House, Waste water treatment plant, Air compressor and HVAC.

### **Internee - Jamshoro Power Company Limited**

Jamshoro, Sindh

December 2019 - January 2020

-Learn the Generation of Electricity and Electricity Distribution and get

the knowledge about water tube boilers, steam turbines and Generators.
