

CURRICULUM VITAE

APTITUDES

Electromechanical Engineer, with extensive experience acquired in my career in top-level international companies, which provided me with permanent training in the technical, hygiene and occupational safety aspects, as well as leadership and organization of human teams.

SPECIFIC EXPERIENCE

- ❖ Electrical assembly and maintenance of tower cranes, overhead cranes, crushing/classifying plants and concrete and asphalt production plants.
- ❖ In underground mines: low and medium voltage distribution, communications systems.
- ❖ Electric power generation and distribution plants.
- ❖ Good interpersonal relationship, obtaining good results in leadership and management of personnel in charge.
- ❖ Rigorous application of safety standards, respect procedures and carry out SWA (safe work analysis) using a risk analysis matrix to reduce the risk in each activity, raise awareness and train my staff in charge.
