📍 Home: King Abdullah, AlMajmaah City, KSA, (Saudi Arabia)

ABOUT ME

Professional research mathematician focusing in the field of Fluid Mechanics and Numerical Analysis. Multiple papers published in the areas of Fluid Mechanics and Numerical Analysis. Able to reevaluate solutions when errors are found and determine what existing work can be kept toward a new solution. Used the tools of LaTeX protocols, Maple and Matlab.

WORK EXPERIENCE

Mathematics lecturer

Rowad Alkhaleej International Schools [2022 – 2023]

City: Dammam | Country: Saudi Arabia

Mathematics lecturer

International Islamic University [2016 – 2018]

City: Islamabad | Country: Pakistan

- Preparing lesson plans.
- Preparing Maths Assignments for students.
- Preparing and checking Quizzes.

Mathematics lecturer

Spring Field Public School and College [2012 – 2013]

City: Rawalpindi | Country: Pakistan

EDUCATION AND TRAINING

PH.D. in Mathematics

COMSATS University Islamabad [2015 – 2021]

Country: Pakistan | Website: <https://www.comsats.edu.pk>

M.PHIL. in Mathematics

National University of Science and Technology Islamabad [2013 – 2015]

Country: Pakistan | Website: <https://www.nust.edu.pk>

BS in Mathematics

International Islamic University Islamabad [2008 – 2012]

Country: Pakistan | Website: <https://www.iiu.edu.pk>

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s):

English

LISTENING B2 READING B2 WRITING B2

SPOKEN PRODUCTION B1 SPOKEN INTERACTION B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Microsoft office (Microsoft word Microsoft Excel Microsoft PowerPoint) / Matlab / Maple / C++

PUBLICATIONS

[2020]

Modeling and numerical simulation of micropolar fluid over a curved surface: Keller box method

[2021]

Modelling and numerical computation for flow of micropolar fluid towards an exponential curved surface: a Keller box method

[2024]

Numerical study of Carreau Fluid Flow along an exponential curved stretching surface

[2024]

Study of the Carreau fluid over a linearly curved stretching sheet: A numerical approach

RECOMMENDATIONS

Name: Saleem Asghar

Eminent professor
