Profile

As a detail-oriented and results-driven Civil Engineer with Seven 7+ years of experience, I have transitioned into a successful Construction Manager role, leveraging my technical expertise to deliver high-quality construction projects. With a strong foundation in civil engineering principles, I possess a unique understanding of construction methodologies, site management, and quality control processes.

With a proven track record of successfully coordinating site activities, ensuring compliance with safety protocols and quality standards, and delivering projects on time and within budget, I excel in fast-paced construction environments. My technical expertise, combined with my leadership and communication skills, enables me to effectively manage cross-functional teams, stakeholders, and subcontractors to achieve project goals and objectives.
