

Resume

Ikram Khan

Civil Engineer

Contact Number: +966538120525

Email: ikram3536@gmail.com

Current Location: Olaya Riyadh, Kingdom of Saudi Arabia

❖ Career Objective

I want to succeed in a stimulating and challenging environment that will provide me with advancement opportunities. I want to excel in this field with hard work, perseverance and dedication. I want a highly rewarding career where I can use my skills and knowledge for organizational and personal growth.

❖ Professional Experience

- I. Construction of Pump Stations in Housing project – Tharwad contractor Makkah, Kingdom of Saudi Arabia
Site Engineer **March, 2024 – January, 2025**
- II. Irrigation Channel Works-Bakht zada Government contractor Madyan, Swat, Pakistan
Civil Site Engineer **1st January, 2022 – December, 2023**

Responsibilities:

- Act as the main technical adviser on a construction site for subcontractors, craftspeople and operatives
- Set out, level and survey the site
- Check plans, drawings and quantities for accuracy of calculations
- Ensure that all materials used and work performed are in accordance with the specifications
- Oversee the selection and requisition of materials
- Agree a price for materials and make cost-effective solutions and proposals for the intended project
- Manage, monitor and interpret the contract design documents supplied by the client or architect
- Liaise with any consultants, subcontractors, supervisors, planners, quantity surveyors and the general workforce involved in the project
- Liaise with the local authority (where appropriate to the project) to ensure compliance with local construction regulations and by-laws
- Communicate with clients and their representatives (architects, engineers and surveyors), including attending regular meetings to keep them informed of progress
- Carry out day-to-day management of the site, including supervising and monitoring the site labor force and the work of any subcontractors - this is site-specific and may not be the case on all projects
- Plan the work and efficiently organize the plant and site facilities in order to meet agreed deadlines
- Oversee quality control and health and safety matters on site
- Prepare reports as required
- Resolve any unexpected technical difficulties and other problems that may arise.

❖ Key strengths & Abilities

- Have the ability to work as a team member and can lead the team effectively.
- Strong interpersonal communication skills at all management levels.
- Have knowledge about different software like, MS Excel, and also well known to Microsoft Office.
- Have the ability to work in any environment and can achieve the goal effectively.

❖ Skills
