MCSA-G910-2020

MCSE-G910-3590

OBJECTIVE:

Detail-oriented IT Support with 16 years of experience in managing IT infrastructure, troubleshooting technical issues, and ensuring seamless system performance. Proficient in system installations, configurations, and user support. Adept at working in fast-paced environments while maintaining high standards of security and reliability.

KEY SKILLS Summary:

- **Special Skills:** Completed CCNA, MCSA & MCSE Certified.
- **Operating Systems:** Windows XP/ Win 7/Win 10/11.
- **Windows Server:** Server 2012 (R2). Dell PowerEdge R730
- Internet Information Servers, Networking Planning, Hardware Configuration etc.
- Problem solving and debugging.
- Skilled Communicator in Multicultural Environment.
- Strong Technical Background in LAN & WAN Troubleshooting.

Profile Summary:

- Set up and manage network infrastructure, including routers, switches, firewalls.
- Configure network services like DNS, DHCP, Printers, CCTV, IP Phone and Finger print.
- Monitor network traffic to detect and resolve network issues or security vulnerabilities. Installing and configuring systems and software's. Microsoft 365 install and outlook setup. Microsoft 365 administration
- Monitoring system performance and resolving plans.
- Managing backups and disaster recovery plans.
- Providing support to user's and troubleshooting system problems.
- Proficient in installing, configuring and troubleshooting hardware and software's as well as monitoring and maintaining the system infrastructure.

Professional Experience:

Oct 2017 – Till Present
ABV Rock Group

Designation: System Administrator/Network Support Engineer

Roles/Responsibilities:

Responsible for maintaining and monitoring performance of network.

- Installing new hardware (servers, printers, computer workstations, shared folders permissions to users etc.)
- Monitors systems daily, working to verify; scheduled jobs, application logs and backups.
- Enabling port fast, uplink fast, and backbone fast for fast convergence.
- Diagnosed and resolved hardware, software's, and networking's issues.

- Setting up user's accounts, permissions and passwords).
- Fixing network faults.
- Network maintenance.
- Configuration P2P bridge's network device's (Power BridgeM5 & Power Beam 5AC).
- Respond to technical support from site and main office.
- Solving desktop & Laptop problem and day to day activates.
- Support Remote station offices for any IT related problems.
- Maintaining Tape inventory & all other IT asset (Laptops, Desktops, Servers, and Switches).
- Updating & Maintaining Antivirus software in all laptops & desktops.
- Windows Server 2012 and 2019 Configuration and troubleshooting.
- All Windows 10/11, Installation, Configuration, and troubleshooting.
- Firewall Configuration and troubleshoot.
- Handle CCTV system installation and support.
- Desktop Hardware installation troubleshoot.
- DNS, DHCP, LAN, WAN Configuration and troubleshooting
- Looking & Identifying LAN network faults, updating and Maintaining Antivirus software in all laptops & desktops.
- Taken backup in the tape drive daily and weekly backup (increment backup and full backup).
- Support server, network and desktop hardware, software and applications.
- Configurations & Troubleshooting CISCO ROUTER (1900), SWITCHES (HP-1905), (1920), (1910) & SONICWALL Firewall (TZ400). Configure & Manage Biometric (ZKTeco, BIOTime, ZKTeco 8.5), Install & Configure NVR/DVR Camera.
- Configurations and troubleshooting IP phone GXP2160, GXP1620/1625.
- CCTV Camera installation configuration troubleshooting.
- In the Firewall black sites, daily monitoring bandwidth.
- Configuration and troubleshooting Dell Server PowerEdge R730 Server.
- Configuring outlook accounts for users.
- Configuring and troubleshoot shared printer access for the users.
- Troubleshooting and fixing any network related issues.
- Troubleshooting XeroX WorkCentre 7855 (Color), XeroX WorkCentre 5890 (Black), printers.
- 3XC Telephone Exchange server installed add telephone extensions in their server and troubleshooting telephone extensions.
- All trackers' updates Backup Tape, IP List, IT Inventory, Passwords and Printers Consumables.
- Configuration TP Link Access Points, Repeaters.
- In the server 2012 (R2) user create give to permission, profile failed then update.
- Supporting the Network connectivity.
- Remote support to different locations.
- Assembly and configuration of various computer systems.
- Create VLANs, troubleshooting VLANs.
- Taken backups in Tape Drive daily (Increment Backup), Weekly Backup (Full Backup), troubleshooting.
- IP telephone (3CX Phone System) server installing, IP Cisco 7941(7821), Grandstream GXP2160, GXP1620, GXP-1450, Avaya One X telephones.
- Providing technical support on-site or via phone or email.
- Solving desktop & Laptop problem and day to day activities.
- Maintaining Tape inventory & all other IT asset (Laptops, Desktops, Servers, switches).
- Coordinate with team members to reduce technical complication sand collaborate on projects.
- Sites Visit check the Network setup and troubleshooting, (**Najaran, Abha, Aseer, Dharan Al Jounhub, Al-Qamha, Jeddah, Al-Batha, Riyadh**).

WORK EXPERIENCE

FEB 2015 – Aug 2017

Accsys Technology
Riyadh

Job Responsibilities:

- Configuring and managing, DNS, DHCP, Exchange, DHCP, Anti-virus, backup servers in the corporate network.
- Responsible for Maintenance of DHCP server.
- Troubleshooting & Monitoring Network Devices and Server.
- Implemented security policy and virus protection.
- Recovery, Making Network Structured Cabling & Crimping Cable.
- Observing Switches Status, VLAN's Information.
- Daily Check of Trucking Ports and its working status, serial interfaces in Routers.
- Installation and troubleshooting of Local Area Network.
- Troubleshooting of hardware and software problems.
- Maintains day to day tasks with PC.
- Cisco Router's 7606, 7609, AS-5400XM and Cisco Switches ME-3400 Series.

Design CISCO ROUTERS: CRS (Upgrading support), GSR (RTPE) 12000 Series (configuration and upgrading) NPE 7613 Routers

(Configuration and upgrading), 7609-S PE-Aggregator & 7606 (configuration and upgrading) 2500, 2600, 3600, & Switch 3400 Cisco Project IPMPLS 2009 for STC under SBM, installation of new Routers and Aggregators.

FEB 2014 – DEC 2015

Huawei Tech Investment Saudi Arabia

Design Engineer _____ Design/As-Built Department

Civil Design (4G3/FTK, Project):

Responsibilities:

- Create WO, made designing in the NE tool.
- Take designing approvals from STC QC team.
- Reviews auto cad drawings.
- Flow up to subcontracts CAD drawings.
- Managing complete resource planning for designing teams
- Support in organizing training for service supplier teams
- Ensure document control and storage system set up and used properly.
- Huawei, equipment's 4G3, Project/Civil:
 - Mini Shelter/Power cube/small cell.
 - Power cube cabinet Model (ICC900-2).
 - Power cube Rectifier Model (R4850G2 50A Rectifier).
 - Power cube Battery Model (ESM-A9600Wh (N).
 - Mini Shelter 2.1M/Outdoor.
 - Mini Shelter Battery Model (ETP48200 DC Power System).
 - Mini Shelter Rectifier Model (R4850N1 50A Rectifier).

Huawei / STC Design & As-Built Project

- Designing the new and As-Built WOs in Telcordia Network Engineer (Arc GIS 9.3.1) NE Application.
- Hands on Experience of designing of work order in NE Application for Different Projects (Microwave, RF, Transmission).
- Designing and working in NE Application using different Structure Models, Structure Units, Floor Plans, Equipment's. Using Telcordia Local Clones (STC Database) for Site and Equipment Location Codes and Coordinates.
- Using NE FUP MOP tracking (Web Application) for getting information about Design/As-Built WOs and MOPs.
- Working on STC NFTS (Network Financial Tracking System) for getting details regarding work orders, such as (Scope of Work, MOP Details, Job No, Site No, MOP No, PO No, Contractor, District, Model No, Element No, Model Name, PAT info, Approved WO info, details etc.).
- Using STC NFTS for tacking WO and MOP approvals and updating to the management.
- Working on STC NFTS for generating different types of reports needed for WOs for own use and for management for Invoicing.
- Preparation of the Reports relating to the completion of WOs.
- Coordination with Civil Team for the required data, civil drawings, survey reports and floor plans etc.
- Coordination with relevant external 3rd party vendors to trouble shoot and resolve complex problems.
- Coordination with QC team for the WO approvals.
- Submission of the MOPs for approvals.
- Troubleshooting of critical issues in Designing.
- Updating NE according to new configurations.
- Meeting with customers and making schedules for new WOs completing on the given period.
- Coordinate project activities with all involved departments and sections departments to ensure well-ordered, end-to-end execution of all project tasks.
- Preparing and presenting analysis papers, presentations and work plans on projects as and when required.

July – 2009 to 2014

LCC Telecom Saudi Arabia

Fixed Network & RF Design

Responsibilities & Executed Projects:

Huawei (Fixed Networker (MSAN, VDSL2, FTTM, MDU, Transmission (Key Account & RF (4G1, Microwave Projects, USF5 Projects)

- Create WO in NE tool; make design in NE tool & Design MOP.
- Uploading CAD drawings in NE tool.
- Physically cross connection and logical cross connection during cutover of sites.
- Keep abreast of new trends and practices in the development of access network technologies from a transmission perspective.
- Operation and maintenance activities and alarm monitoring of south region and provide remedies for the faults occur in the system.
- Training and guiding junior team members and keep them motivated.

- Conducting new sites RFI's and ATP's of newly integrated sites.
 - Coordination and managing the, sub-con to completion of site on time.
 - Troubleshooting of sites issues.
 - Troubleshooting and solving different Transmission/ BTS problems, power issues and problems relating rectifiers.
 - Performed ON-call duties and during emergency available to carry out such duties as per requirement.
- Huawei Equipment's:**
- **4G (Microwave):** (HU_OptiX_RTN980_IDU), ODU (HU-UHP18-A13D18HAC), created design in NE tool & created MOP design.
 - 4G (Microwave), (HU_OptiX_RTN950_IDU), ODU_HU-UHP06_A23D026HAC), created design in NE tool & created MOP design.
 - **USF5 (Project):** Mini shelter (Rack), (HU_OptiX_RTN980_IDU), battery (JSG_SHOTTO_6FMX_150B), created design in NE tool & created MOP design.
 - Mini shelter (Rack), (HU_OptiX_RTN950_IDU), battery (JSG_SHOTTO_6FMX_150B), created design in NE tool & created MOP design.

Working Experiences

EXPERTISE

- Designing of Telecom Equipment on Telcordia Network Engineer (NE) Application
- Strong training skills, capable of training teams on GSM equipment Installation, Commissioning, Integration
- Having work experience and proficient knowledge for installation, deployment, commissioning of GSM
- Expertise on 2G/3G/4G /4G3 equipment & networks.
- Managing/training independently teams to complete sites
- Quick learner who can easily adapt to new responsibilities
- Excellent interpersonal / communicational skills and professional appearance
- Ability to work under stress

TRAININGS

- Computer Hardware & Networking and MCSE and CCNA course completed from CMS Computer.
- NE Telcordia Applications from STC.
- Huawei Optix RTN 900 Series Microwave Transmission equipment from Huawei.

EQUIPMENT EXPERIENCE

- Telcordia Design Network Engineer (NE) Application.
- SONICWALL Firewall (TZ400).
- SWITCHES (HP-1905).

EDUCATION

- B. Tech** 2006
- (Certified from JNTU Hyderabad, India).
 - KMCET (Khader Memorial College of Engineering & Technology).

PERSONAL INFORMATION

National:	Indian
Passport Details:	X9986645
Marital Status:	Married
