<https://www.linkedin.com/in/shahid-ali-khan-ab44816a/>

PROFESSIONAL PROFILE

A results-driven Engineering Management graduate with extensive experience in project management, particularly in solar energy projects. Proven track record in overseeing the entire project lifecycle-from conception to completion- ensuring timely delivery, within budget, and with high customer satisfaction. Adept at designing, implementing, and optimizing solar power systems while maintaining strong stakeholder relationships. Known for excellent leadership, problem-solving skills and the ability to manage multiple teams and projects simultaneously. Highly skilled in technical design, systems commissioning, and team management. Seeking to leverage my expertise as a project manager, project Delivery Manger, or Project Interface Manager to drive innovative solutions and deliver successful project outcomes.

EDUCATION & QUALIFICATIONS

Master of Engineering Management | Riphah University | Islamabad, Pakistan | 2020.

Bachelor of technology in Electrical Engineering | Sarhad University of Science and Technology | Peshawar, Pakistan | 2015.

Bachelor of Arts in Sociology | University of Malakand | Chakdara Lower Dir, Pakistan | 2012.

Diploma of associate engineering (DAE Electrical) | Khyber Pakhtunkhwa Board of Technology (KPBTE) | Peshawar-Pakistan | 2010.

Secondary school certificate (SSC) | Board of intermediate and secondary education | Bise Malakand Chakdara-Pakistan | 2007.

EMPLOYMENT HISTORY

Genesys Power Solutions, Islamabad Pakistan | March 2021 – December 2024.

Manager Net- Metering and Technical Services.

- Design residential, commercial, and small utility scale PV systems.
- Review Plan-sets and technical design specifications to ensure solar projects satisfy technical requirement.
- Make final sketch of proposed drawing, checking dimension of parts, material to be used, and relation of one part to another, and relation of various parts to whole solar project.
- Projects handled: Roof mounted systems and ballasted solar panels Racking systems.
- Identified techniques to emphasize and optimize energy management in new and existing solar power systems designs.
- Delivered design and planning for solar energy projects and recommended best practices and protocols.
- Hands on experience in Net Metering (Green meter) file handling in different subdivisions Offices in IESCO.
- Handling of Warehouse stock Records.
- Team Supervision on Technical Sites.
- Office Management.
- Perform marketing and sales work.
- Operate, maintain, troubleshoot, and repair PV systems.
- Managing a PV project from start to finish.
- Performed preventative maintenance on solar panels, tracking and documenting all work completed to ensure proper upkeep.
- Repaired any problems with the electrical system of a home or business using advanced tools and techniques.
- Installed new solar systems for residential customers including connecting them to the power grid safely and efficiently.
- Conducted thorough inspections of existing solar systems before recommending upgrades or replacements.
- Worked with a team to complete installations in a timely and efficient manner.
- Inspected solar panel installation to ensure they met local building code requirement.

Said Ghani & Co Ouch. Distt. Dir(L) | July 2015 – February 2021.

As a Electrical Engineer

- Developed and maintained electrical systems for various building projects, ensuring optimal performance and safety.
- Designed, installed, and tested electrical systems, including power distribution, lighting, and backup solutions.
- Conducted regular maintenance and troubleshooting of electrical systems to minimize downtime and prevent costly repairs.
- Collaborated with contractors, and other engineers to ensure compliance with local codes and projects specifications.

AFFILIATIONS

Registered With Pakistan technical and education council | Islamabad- Pakistan.

SELECT INDUSTRY TRAINING

Training | Peshawar Electric Supply Company | Training Center Swat Circle Pesco-Pakistan

Internship | Water and Power Development Authority | Dargai Malakand- Pakistan.

Internship | Hydro Tech Pak (PVT.) LTD (Malakand-3) | Dargai Malakand- Pakistan.

UPS Making and Repairing Course | Govt Training & Vocational Center | Chakdara Lower Dir- Pakistan.

CORE COMPETENCIES

- Maintenance of HT/LT line along with repair of various capacity transformers.
- Work at power station In Machine Hall, Control Room & switchyard but also interest in the following Synchronizing of turbine units.
- Electrical Maintenance of Generators and compressors.
- Running maintenance of AC & DC Motors.
- Temperature, Pressure, Oil level gauge readings.
- Reading of every kind of meters at control Room.
- Maintenance of relays and other equipment.
- Detail study of turbine and Governor system.
- Implementation of SCADA system.
- Detail study/observation of electrical equipment and related accessories.
- PLC & DCS system.
- UPS making / Repairing.
- Exceptional ability to manage projects and motivate, direct, and lead a team to successfully achieve organizational goals, including experience in seamlessly managing resources and budgets.
- Displayed excellent project management skills including leadership and coordination of a wide range of teams.
- Experience in seamlessly developing and implementing strategic corporate governance, compliance, and planning activities.

HIGHLIGHTS OF EXPERTISE

- **Solar Energy & Systems:**
 - Solar Energy Design and Installation
 - Solar Power Systems (Residential, Commercial, Utility Scale)
 - PV 3D Designing and Simulation
 - Solar Panels Installation and Commissioning
 - Net Metering and Green Meter File Handling
 - Maintenance and Repair of Solar Power Systems
- **Technical & Software Skills:**
 - Proficient in Microsoft Office Suite (Word, Excel, PowerPoint)
 - Advanced skills in SketchUp for 3D modelling and design
 - Experienced with SPSS for data analysis
 - Knowledge of SCADA, PLC, and DCS systems
- **Project Management & Leadership:**
 - Full Project Lifecycle Management (from concept to delivery)
 - Team Leadership and Coordination
 - Project Scheduling, Budgeting, and Resource Allocation
 - Risk Management and Problem Resolution
 - Client and Stakeholder Communication
 - Solar project Sales & Marketing
- **Additional Skills:**
 - Safety Management and Compliance
 - Electrical Systems Troubleshooting
 - Inspection and Quality Control
 - Strong Teamwork and Collaboration
 - Event Planning and Coordination
 - Effective Communication and Negotiation

PROFESSIONAL SKILLS

- **Project management & Leadership**

- Strong project management experience with a focus on solar energy projects.
- Proven ability to lead teams and manage cross-functional collaboration.
- Effective at budgeting, scheduling, and resource allocation to ensure project success.
- Expertise in managing the full project lifecycle, from planning to delivery.
- Skilled in stakeholder engagement and maintaining client relationships.

- **Technical Expertise in Solar Energy:**

- Deep knowledge of solar energy systems, including design, installation, and commissioning.
- Hands-on experience with PV system design, particularly residential and commercial installations.
- Proficient in Solar Power Installation and system optimization.
- Expertise in Net Metering (Green Meter) systems, file handling, and documentation.
- Skilled in PV 3D Designing (e.g., Sketchup) and other design software.

- **Maintenance & Troubleshooting:**

- Experience in the maintenance, troubleshooting, and repair of solar energy systems.
- Ability to conduct thorough inspections and recommend upgrades or repairs.
- Proficient in maintaining and repairing electrical systems related to solar installations.
- Experience in running preventive maintenance programs for solar systems.

- **Software Proficiency:**

- Strong skills in Microsoft Office Suite (Word, Excel, PowerPoint).
- Proficient in technical software (e.g., Sketchup, SPSS) for project design and analysis.
- Knowledge of SCADA systems PLC/DCS control systems.
- Experience with project management tools and software.

- **Communication & Teamwork:**

- Excellent communication skills, both written and verbal, with a strong ability to present technical information clearly to non-technical stakeholders.
- Strong teamwork and interpersonal skills, fostering collaboration within cross-functional teams.
- Skilled at negotiating and building strong client relationships.

- **Problem Solving & Innovation:**

- Expertise in analyzing problems and developing effective solutions quickly.
- Ability to innovate and optimize processes to increase efficiency and reduce costs.

PERSONAL ATTRIBUTES

- **Strong Leadership:**

- Capable of motivating teams, providing directions, and ensuring alignment with organizational goals.

- **Excellent Problem Solver:**

- Skilled at identifying issues and implementing efficient, effective solutions under pressure.

- **Highly Organized:**

- Exceptional at managing multiple tasks and projects simultaneously, with a focus on detail and precision.

- **Adaptable & Resilient:**

- Comfortable working in fast-paced, dynamic environments and handling uncertainty with ease.

- **Customer-Focused:**

- Committed to delivering high-quality results that meet client needs and exceed expectations.

- Proactive & Self-Motivated:
 - Takes initiative, drives projects forward, and thrives with minimal supervision.
- Proactive & Self-Motivated:
 - Takes initiative, drives projects forward, and thrives with minimal supervision.
- Effective Communicator:
 - Strong verbal and written communication skills, able to convey complex technical information clearly and persuasively.
- Collaborative Team Player:
 - Enjoying working with cross-functional teams, fostering a positive and productive work environment.
- Results-Oriented:
 - Focused on achieving goals and delivering successful outcomes on time and within budget.
- Ethical & Professional:
 - Holds a high standard of integrity, professionalism, and accountability in all work-related matters.

To Whom It May Concern,

This is to certify that **Mr. Shahid Ali Khan**, son of **Mr. Muhammad Ali Khan**, has been employed with **Genesys Power Solutions** from **1st March 2021** to **31st December 2024** in the capacity of **Manager - Net Metering and Technical Services** in the field of Solar Energy.

During his tenure with us, **Mr. Shahid Ali Khan** was responsible for:

- Managing and overseeing the design, installation, and commissioning of solar projects with a primary focus on net metering systems.
- Leading on-site surveys for solar project installations, assessing site conditions such as shading, orientation, and available space for optimal solar panel placement. This ensured accurate system design and maximized energy generation potential.
- Utilizing advanced 3D modelling software, including SketchUp, to design and simulate solar energy systems, optimizing panel placement and system efficiency based on real-world site data. This also helped clients visualize the final system layout and its integration with their property.
- Leading the technical team to ensure the integration of solar power systems with the grid, complying with local regulations, and optimizing energy efficiency.
- Developing and implementing technical strategies for net metering solutions, ensuring seamless connection between solar installations and the grid.
- Collaborating with utility companies and government bodies to ensure all necessary approvals, permits, and documentation for net metering systems were obtained.
- Providing expert guidance on the technical aspects of solar energy systems, including design, performance optimization, and troubleshooting.
- Managing end-to-end project execution, including coordinating with clients, project teams, and other stakeholders to ensure the successful deployment of net metering solutions.
- Ensuring the technical quality and efficiency of solar installations, conducting performance audits, and recommending improvements for enhanced system performance.
- Managing a team of engineers and technical staff, providing leadership and ensuring that projects were delivered on time, within scope, and budget.
- Staying updated with the latest developments in solar technology, regulations related to net metering, and best practices in the field of solar energy.
- Preparing and delivering technical presentations and proposals to clients, outlining solar solutions and net metering options tailored to their specific needs.

Mr. Shahid Ali Khan has exhibited excellent leadership, deep technical expertise, and a strong commitment to the successful management of solar projects, especially those involving net metering. His contributions have significantly enhanced the overall efficiency and effectiveness of our technical operations.

We wish him the best in all his future Endeavours.

Sincerely,

Eng. Noor Badshah
Executive Director/CEO

Eng. Noor Badshah

SDO Circle Training Centre,
PESCO Swat Circle.

EXPERIENCE CERTIFICATE

It is certified that Mr Shahid Ali Khan s/o Muhammad Ali Khan bearing CNIC No 15307-5902175-1 resident of village Sehsadda, P.O. Chakdara Tehsil Adenzai Distt: Lower Dir was accommodated for experience since from 01.08.2012 to 31.07.2013. During his incumbency, he was assigned different jobs, such as maintenance of LT/HT line along with repair of various capacity transformers.

He knows the methodologies how to work on HT/LT line. He is honest, hardworking and punctual. He has worked with zeal and zest. I wish him for his successful future.

OFFICE OF THE
RESIDENT ENGINEER,
POWER STATION DIVN:
WAPDA, DARGAI.

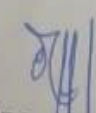

TO WHOM IT MAY CONCERN

Certified that Mr. SHAHID ALI KHAN S/O MUHAMMAD ALI KHAN had been attached to this Power Station as Internee from 01/11/2013 to 10/02/2014. During this period he went through all the routine jobs at Power Station Dargai Machine Hall, Control Room & Switchyard but he shown good performance and interest in the following:

- 1) Synchronizing of turbine units.
- 2) Electrical Maintenance of Generators and Compressors.
- 3) Running maintenance of A/C & DC motors.
- 4) Temperature, pressure, oil level gauge readings.
- 5) Other routine works.
- 6) Reading of every kind of Meters at Control Room.
- 7) Maintenance of Relays and other equipments.

During his attachment period with this organization his over all conduct was found satisfactory and we wish him ever success in his future.

HYDRO TECH PAK (PVT.) LTD. DARGAI

Symbol of Commitment in Hydro Power

Ref: HTP/MKD-III/PM/EXP/ 596

Dated: 24-04-2014

TO WHOM IT MAY CONCERN

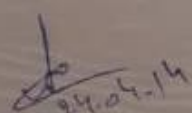

It is certified that Mr. Shahid Ali Khan S/O Muhammad Ali Khan has worked as Internee with Hydro Tech Pak (Pvt.) limited at Malakand-III Hydro Power Complex, Dargai from 26th March 2014 to 24th April, 2014.

He is well versed with his job and has capabilities to perform his duties with paramount outcomes. He has shown keen interest in learning and always works with honesty and efficiency. He is intelligent, dutiful and faithful. He has been given familiarization in the following fields of power plant:

- Maintenance work of Generators and Transformers.
- Detailed study of Turbine and Governor System.
- Implementation of SCADA system.
- Detailed study/observation of Electrical Equipments and related accessories.
- PLC & DCS system.

During his entire stay, he has demonstrated enthusiasm in learning. He is hard worker and obedient.

I wish him success in his future assignments.
